BUREAU OF AIR REGULATION

**RE: Section 112 (j) Notification
Springhill Regional Landfill
Jackson County, Florida
Permit No: 0630045-003-AV**

Dear Ms. Philips:

Pursuant to your letter dated April 5, 2002, please be advised that Springhill Regional Landfill is **not** subject to the MACT Hammer requirement.

Section 112(j)(2) of the Clean Air Act states that "in the event that the administrator fails to promulgate a standard for a category or subcategory of major sources...the owner or operator of any "major source" in such category or subcategory shall submit a permit application" and subsequently comply with the MACT Hammer provisions. The term "major source" is defined in section 112(a)(1) as a source that "has the potential to emit in the aggregate ten tons per year or more of any hazardous air pollutants or twenty-five tons per year or more of any combination of any hazardous air pollutants." Accordingly, because Springhill Regional Landfill is not a "major source" for section 112 purposes, it is not subject to the MACT Hammer provision.

Springhill Regional Landfill has chosen to submit Part 1 of the MACT 112(j) permit application and restates that the landfill is not a major source for section 112 purposes.
