FILE: 0694833-001-AC

Your application for this project has been received and reviewed for completeness. The following items are needed to complete your application.

1. The project appears subject to section 112(g) of the Clean Air Act, because of the projected emissions of styrene above 10 tons per year. A copy of your application, in which contains the MACT proposal, has been sent to DARM in Tallahassee. Provide this office with Department concurrence that your MACT proposal has been accepted or provide the MACT given to Toyota Motor Sports by DARM.
2. The facility is subject to other permits from the DEP. Provide a statement that the other applications (such as Wetlands, Hazardous Waste, Domestic Waste, and Drinking Water) have been, or intend to be, sent to this office.
3. Provide a written statement from the municipality (City of Groveland) that the property is zoned for the Toyota Marine Sports manufacturing facility.
4. The company paid for 50 tons of VOC emissions. Provide a statement that the limit is 45 tons instead of the 50 tons, based upon the permit fee.

Pursuant to Rule 62-4.055, the applicant shall have ninety days after the Department mails a timely request for additional information to submit that information to the Department. If an applicant requires more than ninety days in which to respond to a request for additional information, the applicant may notify the Department in writing of the circumstances, at which time the application shall be held in active status for one additional period of up to ninety days. Additional extensions shall be granted for good cause shown by the applicant. A showing that the applicant is making a diligent effort to obtain the requested additional information shall constitute good cause. Failure of an applicant to provide the timely requested information by the applicable deadline shall result in denial of the application.
