PUBLIC NOTICE OF INTENT TO ISSUE TITLE V AIR OPERATION PERMIT REVISION

STATE OF FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION

DRAFT Permit Project No. 0710002-012-AV Fort Myers Plant Lee County

The Department of Environmental Protection (permitting authority) gives notice of its intent to issue a Title V Air Operation Permit Revision to the Florida Power & Light Company for the Fort Myers Plant located at 10650 State Road 80, Fort Myers, Lee County. The applicant's name and address are: Mr. William Reiche, Plant General Manager, Florida Power & Light Company, P.O. Box 14000, Juno Beach, FL 33408. The purpose of this permit is to revise Title V Air Operation Permit No. 0710002-012-AV to include two additional dual fuel, simple-cycle units (emission units 027 and 028). Each new unit is a 170-megawatt General Electric M5724FA gas-fired combustion turbine generator with an 80-foot stack. The revision also includes two natural gas heaters with 30-foot stacks. The units and changes were authorized by permit 0710002-009-AC.

Also included in this revision is the addition of a peaking operation for the combined-cycle units (authorized by permit 0710002-014-AC). That permit authorized a peak operation mode for up to 400 hours per year for each of the existing six combined-cycle turbines that comprise the 1500 MW repowering project. The permitting authority will issue the PROPOSED Permit, and subsequent FINAL Permit, in accordance with the conditions of the DRAFT Permit unless a response received in accordance with the following procedures results in a different decision or significant change of terms or conditions.

The permitting authority will accept written comments concerning the proposed DRAFT Permit issuance action for a period of 30 (thirty) days from the date of publication of this Notice. Written comments should be provided to the Department's Bureau of Air Regulation, 2600 Blair Stone Road, Mail Station #5505, Tallahassee, Florida 32399-2400. Any written comments filed shall be made available for public inspection. If written comments received result in a significant change in this DRAFT Permit, the permitting authority shall issue a Revised DRAFT Permit and re-notify, if applicable, another Public Notice.

A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative hearing in accordance with Sections 120.569 and 120.57 of the Florida Statutes (F.S.). The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department of Environmental Protection, 3000 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida 32399-3000 (Telephone: 850/245-2242; Fax: 850/245-2303). Petitions filed by any persons other than those entitled to written notice under Section 120.60(3), F.S., must be filed within fourteen days of publication of the public notice or within fourteen days of receipt of the notice of intent, whichever occurs first, under Section 120.60(3), F.S. However, any person who asked the permitting authority for notice of agency action may file a petition within fourteen days of receipt of that notice, regardless of the date of publication. A petitioner shall mail a copy

of the petition to the applicant at the address indicated above, at the time of filing. The failure of any person to file a petition within the applicable time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205 of the Florida Administrative Code (F.A.C.).

A petition that disputes the material facts on which the permitting authority's action is based must contain the following information:

- (a) The name and address of each agency affected and each agency's file or identification number, if known.
(b) The name, address and telephone number of the petitioner's representative. If any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how petitioner's substantial rights will be affected by the agency determination.
(c) A statement of how and when the petitioner received notice of the agency action or proposed action.
(d) A statement of all disputed issues of material fact, if there are none, the petition must so state.
(e) A concise statement of the ultimate facts alleged, as well as the rules and statutes which entitle petitioner to relief.
(f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the agency's proposed action; and.
(g) A statement of the relief sought by the petitioner, stating precisely the action petitioner wishes the agency to take with respect to the agency's proposed action.

A petition that does not dispute the material facts upon which the permitting authority's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.30, F.A.C. Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the permitting authority's final action may be different from the action taken by it in this notice of intent. Persons whose substantial interests will be affected by any such final decision of the permitting authority on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above. Mediation is not available for this proceeding.

In addition to the above, pursuant to 42 U.S.C. Section 7604(b)(2), any person may petition the Administrator of the EPA within 60 (sixty) days of the expiration of the Administrator's 45 (forty-five) day review period as established at 42 U.S.C. Section 7604d(b)(1), to object to the issuance of any permit. Any petition shall be based only on objections to the permit that were raised with reasonable specificity during the 30 (thirty) day public comment period provided in this notice, unless the petitioner demonstrates to the Administrator of the EPA that it was impracticable to raise such objections within the comment period or unless the grounds for

such objection arose after the comment period. Filing of a petition with the Administrator of the EPA does not stay the effective date of any permit properly issued pursuant to the provisions of Chapter 62-213, F.A.C. Petitions filed with the Administrator of EPA must meet the requirements of 42 U.S.C. Section 7604(b)(2) and must be filed with the Administrator of the EPA at: U.S. EPA, 401 M Street, S.W., Washington, D.C. 20460.

A complete project file is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at: Permitting Authority: Department of Environmental Protection, Bureau of Air Regulation, 111 South Monrovia Drive, Suite 4, Tallahassee, Florida 32301 Telephone: 850/488-0114 Fax: 850/922-6979 Affected District/Local Program: Department of Environmental Protection, South District Office, 2295 Victoria Avenue, Fort Myers, Florida 33902-3381 Telephone: 239/332-6975 Fax: 239/332-6969.

The complete project file includes the DRAFT Permit, the application for revision, and the information submitted by the responsible official, exclusive of confidential records under Section 403.111, F.S. Interested persons may contact Scott M. Sheblak, P.E. at the above address, or call 850/921-9532, for additional information.
