**Re: Administrative Change to add Additional Responsible Official to
Fort Myers Plant - 0710002-015-AV**

Dear Al:

Enclosed is the Responsible Official Notification Form to add Mr. Jim Paulino as an Additional Responsible Official (R.O.) for the Fort Myers Plant. FPL requests that an administrative change be made to the permit referenced above to accommodate the addition of Mr. Paulino as an additional R.O.

Thank you for your assistance in this matter, and, if you should have any questions, please do not hesitate to contact me at (561) 691-2877.

Very truly yours,

A handwritten signature in black ink, appearing to read 'Kevin Washington', is written over a horizontal line.

Re: Proposed Liquefied Natural Gas (LNG) Simulation Testing of FPL Fort Myers Unit 3B
Title V Air Operation Permit No. **0710002-015-AV**

Dear Mr. Reichel:

The Department has reviewed Mr. Washington's request via letter dated March 24, 2005, to perform Liquefied Natural Gas (LNG) testing at FPL's Fort Myers Unit 3B. We understand that this testing is important to better understand the potential differences in combustion dynamics when burning regassified LNG in GE 7FA machines. This letter authorizes FPL to test for approximately 19 hours (divided among full load, partial load, and start-up scenarios) and expected to begin on or about April 6, 2005, and continuing through April 8, 2005, depending on Unit 3B availability due to dispatch needs. The testing will vary the inlet fuel temperature to create shifts in the Modified Wobbe Index (MWI) and the CT fuel control's response to the shifts.

We understand that there is the potential for excess emissions to occur because of this testing. Please indicate any exceedances of the applicable limits in your quarterly excess emissions report and reference this authorization. This special testing is authorized pursuant to Section 403.061(18), F.S.

The performance tests shall be subject to the following conditions:

1. The permittee shall notify the DEP South District and the Bureau of Air Regulation 7 days prior to commencement of any stack performance testing. A written final report shall be submitted to these offices within 45 days of completion of the last day of testing.
2. A log shall be maintained at the facility demonstrating compliance with permit conditions. This log shall be available for inspection and submitted with the final test report.

"More Protection, Less Process"

Printed on recycled paper.

3. Emissions due to this testing shall not exceed any current limit in existing permits for all impacted emission units. This testing shall not result in the release of objectionable odors pursuant to Rule 62-296.320(2), F.A.C. Performance testing shall cease as soon as possible if the test results in any emissions, which are not in accordance with the conditions in existing permits, or this authorization protocol. The testing shall not resume until appropriate measures to correct the problem(s) have been implemented. The South District shall be notified immediately upon such cessation and resumption.
4. As-burned fuel samples shall be collected and analyzed. Sample results shall be provided to the DEP South District and the Bureau of Air Regulation with the final report.
5. This Department action is only to authorize the temporary testing of Liquefied Natural Gas (LNG) at FPL's Fort Myers Unit 3B.
6. The Department's South District, and the Bureau of Air Regulation shall be notified within 5 days, in writing, upon completion of the testing program.

A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative proceeding (hearing) under Sections 120.569 and 120.57 of the Florida Statutes. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida, 32399-3000. Petitions filed by the permit applicant or any of the parties listed below must be filed within fourteen days of receipt of this notice of intent. Petitions filed by any persons other than those entitled to written notice under Section 120.60(3) of the Florida Statutes must be filed within fourteen days of publication of the public notice or within fourteen days of receipt of this notice of intent, whichever occurs first. Under Section 120.60(3), however, any person who asked the Department for notice of agency action may file a petition within fourteen days of receipt of that notice, regardless of the date of publication. A petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57 F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205 of the Florida Administrative Code.

A petition that disputes the material facts on which the Department's action is based must contain the following information: (a) The name and address of each agency affected and each agency's file or identification number, if known; (b) The name, address, and telephone number of the petitioner, the name, address, and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the agency determination; (c) A statement of how and when petitioner received notice of the agency action or proposed action; (d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate; (e) A concise statement of the ultimate facts alleged, as well as the Rules and statutes which entitle the petitioner to relief; and (f) A demand for relief.

A petition that does not dispute the material facts upon which the Department's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this notice. Persons whose substantial interests will be affected by any such final decision of the Department on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

Mediation is not available in this proceeding.

In addition to the above, a person subject to regulation has a right to apply for a variance from or waiver of the requirements of particular Rules, on certain conditions, under Section 120.542 F.S. The relief provided by this state statute applies only to state Rules, not statutes, and not to any federal regulatory requirements. Applying for a variance or waiver does not substitute or extend the time for filing a petition for an administrative hearing or exercising any other right that a person may have in relation to the action proposed in this notice of intent.

The application for a variance or waiver is made by filing a petition with the Office of General Counsel of the Department, 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida 32399-3000. The petition must specify the following information: (a) The name, address, and telephone number of the petitioner; (b) The name, address, and telephone number of the attorney or qualified representative of the petitioner, if any; (c) Each Rule or portion of a Rule from which a variance or waiver is requested; (d) The citation to the statute underlying (implemented by) the Rule identified in (c) above; (e) The type of action requested; (f) The specific facts that would justify a variance or waiver for the petitioner; (g) The reason why the variance or waiver would serve the purposes of the underlying statute (implemented by the Rule); and (h) A statement whether the variance or waiver is permanent or temporary and, if temporary, a statement of the dates showing the duration of the variance or waiver requested.

The Department will grant a variance or waiver when the petition demonstrates both that the application of the Rule would create a substantial hardship or violate principles of fairness, as each of those terms is defined in Section 120.542(2) F.S., and that the purpose of the underlying statute will be or has been achieved by other means by the petitioner.

Persons subject to regulation pursuant to any federally delegated or approved air program should be aware that Florida is specifically not authorized to issue variances or waivers from any requirements of any such federally delegated or approved program. The requirements of the program remain fully enforceable by the Administrator of the EPA and by any person under the Clean Air Act unless and until the Administrator separately approves any variance or waiver in accordance with the procedures of the federal program.

This permitting decision is final and effective on the date filed with the clerk of the Department unless a petition is filed in accordance with the above paragraphs or unless a request for extension of time in which to file a petition is filed within the time specified for filing a petition pursuant to Rule 62-110.106, F.A.C., and the petition conforms to the content requirements of Rules 28-106.201 and 28-106.301, F.A.C. Upon timely filing of a petition or a

request for extension of time, this order will not be effective until further order of the Department.

Any party to this permitting decision (order) has the right to seek judicial review of it under section 120.68 of the Florida Statutes, by filing a notice of appeal under Rule 9.110 of the Florida Rules of Appellate Procedure with the clerk of the Department of Environmental Protection in the Office of General Counsel, Mail Station #35, 3900 Commonwealth Boulevard, Tallahassee, Florida, 32399-3000, and by filing a copy of the notice of appeal accompanied by the applicable filing fees with the appropriate District Court of Appeal. The notice must be filed within thirty days after this order is filed with the clerk of the Department.

Executed in Tallahassee, Florida.

A copy of this letter shall be filed with the referenced permit and certification and shall become part of the permit.
