Resource Management, Office of Permitting and Compliance. **WRITTEN NOTICE OF INTENT TO ISSUE AIR PERMIT** Florida Power and Light Company, DEP File No. 0710002-020-AC. Ft. Myers Power Plant Installation of Turbine Components GE 7FA04, Unit 2. In the Matter of an Application for Permit by Florida Power & Light Company, 700 Universe Boulevard, Juno Beach, Florida 33408. Permit No. 0710002-020-AC. Facility ID No. 0710002. Lee County, Florida. Florida Power & Light Company operates the existing Fort Myers Plant, which is located in Lee County at 10450 State Road 80, Fort Myers, Florida. Project: The purpose of this project is to issue an air construction permit for Unit 2. Details of the project are provided in the application and the enclosed Technical Evaluation and Preliminary Determination. This permitting action allows the improvement of the six combustion turbine electric generators (GT) associated with Unit 2 (2A through 2F) by upgrading components during an otherwise routine maintenance. The changes include replacing certain hot flaking components in the General Electric (GE) Model 7FA13 GT with those of the power GE Model 7FA04 GT. Specifically the improvements include the installation of new hot gas path components such as combustion liners and flow sleeves to increase firing temperature. Permitting Authority: Applications for air construction permits are subject to review in accordance with the provisions of Chapter 403, Florida Statute, F.S., and Chapter 212 of the Florida Administrative Code (F.A.C.). Any proposed project may be exempt from the permitting requirements and an air permit is required to perform the proposed work. The Division of Air Resource Management (DARM), Office of Permitting and Compliance is the Permitting Authority responsible for making a permit determination for this project. The Permitting Authority's physical address is 2600 Blair Stone Road, Tallahassee, Florida. The Permitting Authority's mailing address is 2600 Blair Stone Road, #505, Tallahassee, Florida 32309-2400. The Permitting Authority's telephone number is 850/717-9000.

available for public inspection during the normal business hours of 8:00 a.m. to 5:00 p.m., Monday through Friday (except legal holidays), at address indicated above for the permitting Authority. The complete project file including draft forms, the Technical Evaluation and Preliminary Determination, and the information submitted by the applicant, exclusive of confidential records under Section 403.111, F.S., interested persons may contact the Permitting Authority project review engineer for additional information at the address or phone number listed above. **Notice of Intent to Issue Permit:** The Permitting Authority gives notice of its intent to issue an air permit for the project described above. The applicant has provided reasons to assure the operation and maintenance of the proposed equipment will not adversely impact air quality and that the project will comply with all appropriate provisions of Chapters 62-4, 62-204, 62-210, 62-212, 62-296 and 62-297, F.A.C. The Permitting Authority will issue a final permit in accordance with the conditions of the draft permit unless a timely petition for an administrative hearing is filed under Sections 120.569 and 120.57, F.S., or unless public comment received in accordance with this notice results in a different decision or a significant change in terms or conditions. **Comments:** The Permitting Authority will accept written comments concerning the draft permit for the period of 14 days from the date of publication of the Public Notice. Written comments must be received by the Permitting Authority by close of business (5:00 p.m.) on or before the end of the 14-day period. If written comments received result in a significant change to the Draft Permit, the Permitting Authority shall revise the draft permit and require (if applicable) another Public Notice. All comments filed available for public inspection. Petitioners or persons whose submissions to the proposed permit decision may petition for an administrative hearing in accordance with Sections 120.569 and 120.57, F.S. Petitions filed by the applicant or any of the parties listed below must be filed within 14 days of receipt of this written notice of intent to issue Air Permit. Petitions filed by any persons other than those entitled to written notice under Section 120.40(3), F.S., must be filed within 14 days of publication of the attached Public Notice or within 14 days of receipt of this written notice of intent to issue Air Permit, whichever occurs first. Under Section 120.60(3), F.S., however, any person who

asked the Permitting Authority for notice of agency action may file a petition within 14 days of receipt of that notice, regardless of the date of publication. A petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing a petition for administrative hearing. Information set forth below and included with the Agency Clerk in the Office of General Counsel, 3900 Commonwealth Boulevard, MS 35, Tallahassee, Florida 32399-3100, Agency.Clerk@dep.state.fl.us, before the deadline. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention filed by another party will be only at the approval of the presiding officer. Upon the filing of a motion for compliance with Rule 28.100.205, F.A.C., a petition that disputes the material facts on which the Permitting Authority's action is based must contain the following information: (a) the name and address of each agency affected and each agency's file or identification number, if known; (b) the name, address, any email address, telephone number and any facsimile number of the petitioner; (c) the name, address, any email address, telephone number and any facsimile number of the petitioner's representative; (d) any address for service purposes during the course of the proceeding; and (e) the explanation of how the petitioner's substantial interests will be affected by the agency determination of when and how each petitioner received notice of the agency action or proposed decision; (f) a statement of all disputed issues of material fact, if there are none, the petitioner must so indicate; (g) A concise statement of the ultimate facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the agency's proposed action; (h) a statement of the specific rules of statutes and (g) a statement of the relief sought by the petitioner, stating precisely the action the petitioner wishes the agency to take with respect to the agency's proposed action.

A petition that does not dispute the material facts upon which the Permitting Authority's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28.100.301, F.A.C. Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Permitting Authority's final action may be different from the position taken by it in this written notice of intent to issue Air Permit. Persons whose substantial interests will be affected by any such final decision of the Permitting Authority on the application have the right to petition to become a party to the proceeding in accordance with the requirements set forth above. Mediation: Mediation is not available in this proceeding. No. 1484548 February 26, 2014
