Scott,

I have forwarded your request to our Compliance group. I got your message this morning, as I was visiting our Branch Office in Sebring, Florida yesterday.

Hey, it was nice to see you in Tampa last week!

Thanks,

AJ Satyal

Subject: Lee County RRF - Project (Application) Number 0710119-007-AV

Please pass this onto the SD Office's air compliance.

Re: Compliance Review of Title V Air Operation Permit Renewal Application
EPSAP Application Number 2653-1
Lee County RRF, Facility ID No. 0710119

On August 23, 2010, our office received the subject application via Electronic Permit Submittal Processing System (EPSAP). You should be able to access the application through the EPSAP system.

Each applicant for a Title V air operation permit is required to sign a certification of compliance. Each applicant is also required to report the compliance status of each emissions unit. Any non-compliance at the time of application and/or during the processing of the application requires a compliance plan to be submitted. The applicant certified compliance in this permit application.

Please review this facility's status with your compliance and enforcement staff. Please notify me via e-mail or hard-copy either:

- a. there are no outstanding compliance or enforcement actions with this facility or
- b. the following outstanding compliance and enforcement issues exist (please list).

Also, have the compliance tests cited in the attachment been reviewed/approved? Do you happen to know what the steam production flow rates (lbs./hour) were for the MWC Units 1, 2 & 3 during the tests?

Please review the compliance status of this facility and send us your written comments within 30 days (**no later than September 23rd**). Thank you for your support and have a great day!

Sincerely,

Scott M. Sheplak, P.E.
