Re: DEP File No. 0730003-013-AV
Title V Air Operation Permit Revision
Request for Additional Information

Dear Mr. McGarrah:

The Florida Department of Environmental Protection has reviewed your application for a Title V Air Operation Permit Revision for the Arvah B. Hopkins Generating Station. However, we must deem your application *incomplete*, because we need further information relative to the following items:

1. Please provide a copy of the Acid Rain Part Revision Application for the new unit 2A.
2. If you intend to permanently retire existing Unit 2 from the Acid Rain Program, please provide a copy of the appropriate Retired Unit Exemption Form.

When we receive this information, we will continue processing your application. If you have any questions, please contact Project Engineer Tom Cascio at 850-921-9526. Rule 62-4.050(3), F.A.C., requires that all applications for a Department permit must be certified by a professional engineer registered in the State of Florida. This requirement also applies to responses to Department requests for additional information of an engineering nature. Permit applicants are advised that Rule 62-4.055(1), F.A.C., requires applicants to respond to requests for information within 90 days, unless the applicant has requested in writing, and has been granted, additional time within 90 days.

Sincerely,

for 
Jonathan K. Holtom, P.E., CPM
Program Administrator
