Re: Final National Emission Standards for Hazardous Air Pollutants (NESHAP):
Reinforced Plastic Composites Production; and
Engine Test Cells/Standards

Dear Mr. Pita:

You indicated, in the 112(j) notifications that you submitted last year, that the two Monterey Boats facilities in Williston may be subject to the NESHAP (40 CFR 63 Subpart WWWW) for Reinforced Plastic Composites Production, and the NESHAP (40 CFR 63 Subpart P PPPP) for Engine Test Cells/Standards. You may be interested in knowing that on April 21, 2003, the USEPA published the **final** NESHAP for Reinforced Plastic Composites Production in the Federal Register; and on May 27, 2003, the USEPA published the **final** NESHAP for Engine Test Cells/Standards.

If you are interested in reading the final Subpart WWWW standards, the NESHAP may be accessed through the USEPA website <http://www.epa.gov/ttn/atw/rpc/rpcpg.html>. In particular, you might be interested in reading Section 63.5787 "What if I also manufacture fiberglass boats or boat parts?" If you are interested in reading the final Subpart P PPPP standards, the NESHAP may be accessed through the USEPA website <http://www.epa.gov/ttn/atw/engtest/engtestpg.html>. If you do not have access to the Internet, and would like to receive a paper copy of the final standards in the mail, please contact Mr. Bobby Bull at (850) 921-9585 or Robert.Bull@dep.state.fl.us.

"Existing" affected sources must be in compliance with Subpart WWWW standards by April 21, 2006. For the purposes of Subpart WWWW, "existing" affected sources include, but are not limited to, affected sources that commenced construction on or before August 2, 2001. For the purposes of Subpart P PPPP, "existing" affected sources are sources that commenced construction on or before May 14, 2002. "Existing" affected sources do not have to meet the requirements of Subpart P PPPP. Only "new" or "reconstructed" affected sources will have to meet the requirements of Subpart P PPPP.

Since you also indicated in your 112(j) notification that your facility may be subject to the proposed 40 CFR 63 NESHAP Subpart P PPP, Surface Coating of Plastic Parts and Products, you may be required to submit a 112(j) MACT Title V permit revision application by October 30, 2003 unless Subpart P PPP is a **final** regulation by then. As you were previously informed, Subpart P PPP was **proposed** on February 3, 2003. If you have reviewed the applicability of the proposed NESHAP, and have decided that neither it nor any other proposed NESHAP applies to your facility, then 112(j) no longer applies to your facility.

If you have any questions concerning this information, please contact me at (850)921-9534 or Cindy.Phillips@dep.state.fl.us.

Sincerely,

Cindy L. Phillips, P.E.
Bureau of Air Regulation

Subject: Seabring Marine Industries, Inc.
CAA Section 112(j) Notification for Facility ID# 0750027

Dear Ms. Phillips:

This notification is submitted pursuant to the CAA Section 112(j) requirements.

Although we are currently uncertain about the applicability of CAA 112(j) to our facility, the following information is submitted to FDEP and USEPA.

Source Name: Monterey Boats
Site Location: 635 North Main Street, Williston, Levy County
Source Description: Fiberglass Boats Manufacturing
Relevant Categories: Surface Coating of Plastic Parts (Subpart PPPP);
Reinforced Plastics Products Manufacturing (Subpart WWWW);
Engine Test Cells (Subpart PPPPP)

Affected Units: Downtown Plant
Units subjected to CAA Section 112(g): Downtown Plant

If you have any questions, please call me.

Sincerely,

Robert Pita
President
