Environmental Protection

Memorandum

BAR

TO: Howard L. Rhodes
THRU: ~~Clair Fancy~~ *copy for chair*
Al Linero
FROM: Joe Kahn *JK*
DATE: October 11, 2000
SUBJECT: Georgia-Pacific Hosford OSB Plant
0770010-001-AC, PSD-FL-282

PSD

Attached for approval and signature is the final permit package for the Georgia-Pacific Hosford OSB plant. This construction/PSD permit authorizes Georgia-Pacific Corporation to construct an oriented strandboard manufacturing facility with a capacity of 475 million square feet per year, on a 3/8-inch basis. This facility will be located on State Road 65, approximately 4.4 miles northeast of Hosford, Liberty County. It was subject to PSD for PM/PM₁₀ (293/222 TPY), NO_x (336 TPY), CO (203 TPY) and VOC (323 TPY). Fuels are wood and natural gas. Principal controls are regenerative thermal oxidizers for the dryers and panel press. Exhaust from the thermal oil system is normally directed to the dryers through an ESP, and when the ESP exhausts directly to the atmosphere, we require firing of only natural gas. Enclosed particulate sources are controlled with integral cyclone/baghouse equipment.

To reduce the length of the documents, the technical evaluation, preliminary determination, and BACT and MACT determinations have been combined with the final determination. The final permit includes a summary of the control technology determinations for BACT and MACT in appendix B of the permit.

The Public Notice requirements have been met on by publishing in the Tallahassee Democrat on September 3rd, and in the Calhoun-Liberty Journal on September 6th.

I recommend your approval and signature.

Day 90 is December 1, 2000.

Attachments

*Howard, F.Y.I.
This is a good project. Applicant
did not include MACT proposal initially.
They took 5 months to prepare it.
From the time we deemed it complete
to time of issuance of draft was only
28 days. I'm sure they needed time to
assess effects of a case-by-case MACT on
their nationwide facilities.

SUBJ: Prevention of Significant Deterioration (PSD) Preliminary Determination for Georgia-Pacific Corporation Oriented Strandboard (OSB) Plant located near Hosford (Liberty County), Florida
PSD-FL-282

Dear Mr. Linero:

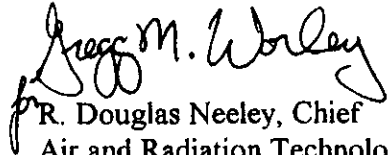

Thank you for submitting the PSD preliminary determination for the above referenced facility (dated August 31, 2000) to the U.S. Environmental Protection Agency (EPA) for comments. The proposed project involves the construction and operation of an OSB facility near Hosford in northeastern Liberty County. The new facility will consist primarily of five dryers, a press, a thermal oil heating system, and associated materials handling equipment. It will have the capacity to produce 475 million square feet per year of OSB (on a 3/8-inch basis). Total emissions of particulate matter, both total and that less than 10 microns in diameter (PM₁₀), volatile organic compounds (VOC), carbon monoxide, and oxides of nitrogen (NO_x) from the proposed project are above the respective significance thresholds requiring PSD review.

Based on a review of the preliminary determination, it appears that the Florida Department of Environmental Protection has adequately addressed the concerns detailed in our letter to you dated March 31, 2000; therefore, EPA has no further comments at this time.

2

Thank you again for the opportunity to comment on the GP preliminary determination. If you have any questions regarding these comments, please direct them to either Art Hofmeister at (404) 562-9115 or Jim Little at (404) 562-9118.

Sincerely,

A handwritten signature in black ink, appearing to read "R. Douglas Neeley". The signature is written in a cursive style with a large initial "R" and "D".

Dear Mr. Fancy:

Consistent with your letter dated August 31, 2000, addressed to Mr. Ronnie L. Paul with Georgia-Pacific Corporation, we hereby submit proof of publication of the Public Notice of Intent to Issue Air Construction/PSD Permit for the proposed Hosford, Florida OSB facility. Also attached are copies of invoices and payment to the newspapers for the publications. The public notice was published in the Tallahassee Democrat and the Calhoun/Liberty Journal during the week of September 4th 2000.

Should you have any questions regarding this matter, please call me at (404) 652-7327.

5th Day of September A.D. 2000

(SEAL) Notary Public

The Department of Environmental Protection (Department) gives notice of its intent to issue an air construction/PSD permit to Georgia-Pacific Corporation, for its proposed Hosford OSB Plant located on State Road 65, approximately 4.4 miles northeast of Hosford, Liberty County. The permit authorizes Georgia-Pacific Corporation to construct an oriented strandboard manufacturing facility with a capacity of 475 million square feet per year, on a 3/8-inch basis. The applicant's mailing address is: 133 Peachtree Street, Atlanta, GA 30303. A Best Available Control Technology (BACT) determination was required for particulate matter, nitrogen oxides, carbon monoxide and volatile organic compounds pursuant to Rule 62-212.400, F.A.C. and 40 CFR 52.21, Prevention of Significant Deterioration (PSD). A case-by-case Maximum Achievable Control Technology (MACT) determination was required for hazardous air pollutants pursuant to Rule 62-204.800(10)(d)2, F.A.C.

Emissions will be controlled primarily with regenerative thermal oxidizers and particulate matter control devices.

Total emissions of pollutants shall not exceed the annual emission rates in tons per year: PM/PM₁₀, 293/222; NO_x, 336; CO, 203; VOC, 323; SO₂, 22.

An air quality impact analysis was conducted. Emissions from the facility will not significantly contribute to or cause a violation of any state or federal ambient air quality standards or PSD increment levels.

The Department will issue the final permit with the attached conditions unless a response received in accordance with the following procedures results in a different decision or significant change of terms or conditions.

The Department will accept written comments and requests for public meetings concerning the proposed permit issuance action for a period of thirty (30) days from the date of publication of this Public Notice of Intent to Issue Air Construction Permit. Written comments and requests for public meetings should be provided to the Department's Bureau of Air Regulation at 2600 Blair Stone Road, Mail Station #5505, Tallahassee, FL 32399-2400. Any written comments filed shall be made available for public inspection. If written comments received result in a significant change in the proposed agency action, the Department shall revise the proposed permit and require, if applicable, another Public Notice.

The Department will issue the permit with the attached conditions unless a timely petition for an administrative hearing is filed pursuant to sections 120.569 and 120.57 F.S., before the deadline for filing a petition. The procedures for petitioning for a hearing are set forth below.

Mediation is not available in this proceeding.

A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative proceeding (hearing) under sections 120.569 and 120.57 of the Florida Statutes. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida, 32399-3000. Petitions filed by the permit applicant or any of the parties listed below must be filed within fourteen days of receipt of this notice of intent. Petitions filed by any persons other than those entitled to written notice under section 120.60(3) of the Florida Statutes must be filed within fourteen days of publication of the public notice or within fourteen days of receipt of this notice of intent, whichever occurs first. Under section 120.60(3), however, any person who asked the Department for notice of agency action may file a petition within fourteen days of receipt of that notice, regardless of the date of publication. A petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under sections 120.569 and 120.57 F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205 of the Florida Administrative Code.

A petition that disputes the material facts on which the Department's action is based must contain the following information: (a) The name and address of each agency affected and each agency's file or identification number, if known; (b) The name, address, and telephone number of the petitioner, the name, address, and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the agency determination; (c) A statement of how and when petitioner received notice of the agency action or proposed action; (d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate; (e) A concise statement of the ultimate facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the agency's proposed action; (f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the agency's proposed action; and (g) A statement of the relief sought by the petitioner, stating precisely the action petitioner wishes the agency to take with respect to the agency's proposed action.

A petition that does not dispute the material facts upon which the Department's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by rule 28-106.301.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this notice. Persons whose substantial interests will be affected by any such final decision of the Department on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

A complete project file is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at:

Dept. of Environmental Protection Bureau of Air Regulation Suite 4, 111 S. Magnolia Drive Tallahassee, Florida, 32301 Telephone: 850/488-0114 Fax: 850/922-6979	Dept. of Environmental Protection Northwest District 160 Government Center Pensacola, Florida 32501-5794 Telephone: 904/444-8300
--	--

The complete project file includes the application, technical evaluations, draft permit (which includes the technical evaluation, preliminary determination, and BACT and MACT determinations), and the information submitted by the responsible official, exclusive of confidential records under Section 403.111, F.S. Interested persons may contact the Administrator, New Source Review Section, or the Department's reviewing engineer for this project, Joseph Kahn, P.E., at 111 South Magnolia Drive, Suite 4, Tallahassee, Florida 32301, or call 850/488-0114, for additional information.

The Department will issue the permit with the attached conditions unless a timely petition for an administrative hearing is filed pursuant to sections 120.569 and 120.57 F.S., before the deadline for filing a petition. The procedures for petitioning for a hearing are set forth below.

Mediation is not available in this proceeding.

A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative proceeding (hearing) under sections 120.569 and 120.57 of the Florida Statutes. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, FL 32399-3000. Petitions filed by the permit applicant or any of the parties listed below must be filed within fourteen days of receipt of this notice of intent. Petitions filed by any persons other than those entitled to written notice under section 120.60(3) of the Florida Statutes must be filed within fourteen days of publication of the public notice or within fourteen days of receipt of this notice of intent, whichever occurs first. Under section 120.60(3), however, any person who asked the Department for notice of agency

action may file a petition within fourteen days of receipt of that notice, regardless of the date of publication. A petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under sections 120.569 and 120.57 F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205 of the Florida Administrative Code.

A petition that disputes the material facts on which the Department's action is based must contain the following information: (a) The name and address of each agency affected and each agency's file or identification number, if known; (b) The name, address and telephone number of the petitioner, the name, address and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the agency determination; (c) A statement of how and when petitioner received notice of the agency action or proposed action; (d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate; (e) A concise statement of the ultimate facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the agency's proposed action; (f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the agency's proposed action; and (g) A statement of the relief sought by the petitioner, stating precisely the action petitioner wishes the agency to take with respect to the agency's proposed action.

A petition that does not dispute the material facts upon which the Department's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by rule 28-106.301.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this notice. Persons whose substantial interests will be affected by any such final decision of the Department on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

A complete project file is available for public inspection during normal business hours, 8 a.m. to 5 p.m., Monday through Friday, except legal holidays at:

Dept. of Environmental Protection, Bureau of Air Regulation, Suite 4, 111 S. Magnolia Drive, Tallahassee, FL 32301; Telephone (850) 488-0114; fax (850) 922-6979.

Dept. of Environmental Protection, Northwest District, 160 Government Center, Pensacola, FL 32501-5794; telephone (904) 444-8300.

The complete project file includes the application, technical evaluations, draft permit (which includes the technical evaluation, preliminary determination, and BACT and MACT determinations), and the information submitted by the responsible official, exclusive of confidential records under Section 403.111, F.S. Interested persons may contact the Administrator, New Source Review Section, or the Department's reviewing engineer for this project, Joseph Kahn, P.E., at 111 South Magnolia Drive, Suite 4, Tallahassee, FL 32301, or call (850) 488-0114, for additional information.

LEGAL NOTICES

INVITATION FOR PROPOSALS

NOTICE IS HEREBY GIVEN that the City of Bristol, Fla., will be accepting sealed proposals until 5 p.m. (ET) Monday, Sept. 18, 2000 for the following insurance coverages to be purchased by the Bristol City Council for and on behalf of the City of Bristol, Fla. PUBLIC NOTICE OF INTENT TO ISSUE AIR CONSTRUCTION/PSD PERMIT

STATE OF FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION DEP File No. 0770010-001-AC, PSD-FL-282 Georgia-Pacific Corporation Hayford OSB Plant Liberty County

The Department of Environmental Protection (Department) gives notice of its intent to issue an air construction/PSD permit to Georgia-Pacific Corporation, for its proposed Hayford OSB Plant located on State Road 65, approximately 4.4 miles northeast of Hayford, Liberty County. The permit authorizes Georgia-Pacific Corporation to construct an oriented strandboard manufacturing facility with a capacity of 475 million square feet per year on a 378-acre tract. The applicant's mailing address is: 133 Peachtree Street, Atlanta, GA 30303. A Best Available Control Technology (BACT) determination was required for particulate matter, nitrogen oxides, sulfur oxides and volatile organic compounds pursuant to Rule 61.317.400, F.A.C. and 40 CFR 52.21. Prevention of Significant Deterioration (PSD). A case-by-case Maximum Achievable Control Technology (MACT) determination was required for hazardous air pollutants pursuant to Rule 61.304.100(1)(x)(2), F.A.C.

Emissions will be controlled primarily with regenerative thermal oxidizers and particulate matter control devices.

Total emissions of pollutants shall not exceed the annual emission rates set forth per year: PM10/PM2.5 293,222, NOx, 136, CO, 207; VOC, 337; SOx, 27.

An air quality impact analysis was conducted. Emissions from the facility will not significantly contribute to or cause a violation of any state or federal ambient air quality standards or PSD increment levels.

The Department will issue the final permit with the attached conditions unless a response received in accordance with the following procedures results in a different decision or significant change of terms or conditions.

The Department will accept written comments and requests for public meetings concerning the proposed permit assistance action for a period of thirty (30) days from the date of publication of this Public Notice of Intent to Issue Air Construction Permit. Written comments and requests for public meetings should be provided to the Department's Bureau of Air Regulation at 2600 Blair Stone Road, Mail Station 92501, Tallahassee, FL 32399-2400. Any written comments filed shall be made available for public inspection. If written comments received result in a significant change in the proposed agency action, the Department shall revise the proposed permit, and require, if applicable, another Public Notice.

The Department will issue the permit with the attached conditions unless a timely petition for an administrative hearing is filed pursuant to sections 120.569 and 120.57 F.S., before the deadline for filing a petition. The procedures for petitioning for a hearing are set forth below.

Mediation is not available in this proceeding.

A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative proceeding (hearing) under sections 120.569 and 120.57 of the Florida Statutes. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department at 1900 Commonwealth Boulevard, Mail Station 935, Tallahassee, Florida, 32399-3000. Petitions filed by the permit applicant or any of the parties listed below must be filed within fourteen days of receipt of this notice of intent. Petitions filed by any persons other than those entitled to written notice under section 120.569(2), or the Florida Statutes must be filed within fourteen days of publication of the public notice or within fourteen days of receipt of this notice of intent, whichever occurs first. Under section 120.60(3), however, any person who sends the Department for notice of agency action may file a petition within fourteen days of receipt of this notice, regardless of the date of publication. A petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under sections 120.569 and 120.57 F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent interventions will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205 of the Florida Administrative Code.

A petition that disputes the material facts on which the Department's action is based must contain the following information: (a) The name and address of each agency affected and each agency's file or identification number, if known; (b) The name, address, and telephone number of the petitioner, the name, address, and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the agency determination; (c) A statement of how and when petitioner received notice of the agency action or proposed action; (d) A statement of all dispute issues of material fact. If there are none, the action must be unopposed; (e) A concise statement of the adverse facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the agency's proposed action; (f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the agency's proposed action; and (g) A statement of the relief sought by the petitioner, stating precisely the action petitioner wishes the agency to take with respect to the agency's proposed action.

A petition that does not dispute the material facts upon which the Department's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by rule 28-106.301.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this notice. Persons whose substantial interests will be affected by any such final decision of the Department on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

A complete project file is available for public inspection during normal business hours, 9:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at:

Dept. of Environmental Protection Bureau of Air Regulation File # 111 S. Magnolia Drive Tallahassee, Florida 32301 Telephone: 904/488-0114 Fax: 904/488-4970 Dept. of Environmental Protection Northwest District 140 Government Center Panama City, Florida 32401-6774 Telephone: 904/444-8303

The complete project file includes the application, technical evaluations, draft permit (which includes the permit conditions, air quality determination, and BACT and MACT determinations), and the information submitted by the responsible official, exclusive of confidential records under Section 401.111, F.S. Interested persons may contact the Administrator, New Source Review Section, or the Department's reviewing engineer for this project, Joseph Kahn, P.E., at 111 South Magnolia Drive, Suite 4, Tallahassee, Florida 32301, or call 904/488-0114, for additional information.

TALLAHASSEE - LEON - FLORIDA

PUBLIC NOTICE OF INTENT TO ISSUE AIR CONSTRUCTION/PSD PERMIT

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION

DEP File No. 0770010-001-AC, PSD-FL-282

Georgia-Pacific Corporation
Hosford OSB Plant
Liberty County

The Department of Environmental Protection (Department) gives notice of its intent to issue an air construction/PSD permit to Georgia-Pacific Corporation, for its proposed Hosford OSB Plant located on State Road 65, approximately 4.4 miles northeast of Hosford, Liberty County. The permit authorizes Georgia-Pacific Corporation to construct an oriented strandboard manufacturing facility with a capacity of 475 million square feet per year, on a 3/8-inch basis. The applicant's mailing address is: 133 Fetchers Street, Atlanta, GA 30303. A Best Available Control Technology (BACT) determination was required for particulate matter, nitrogen oxides, carbon monoxide and volatile organic compound pursuant to Rule 62-217.400, F.A.C. and 40 CFR 52.91. Prevention of Significant Deterioration (PSD). A case-by-case Maximum Achievable Control Technology (MACT) determination was required for hazardous air pollutants pursuant to Rule 62-204.800(10)(4)2, F.A.C.

Emissions will be controlled primarily with regenerative thermal oxidizers and particulate matter control devices.

Total emissions of pollutants shall not exceed the annual emission rates in tons per year: PM/PMA, 203/223; NOx, 336; CO, 203; VOC, 323; SO₂, 22.

An air quality impact analysis was conducted. Emissions from the facility will not significantly contribute to or cause a violation of any state or federal ambient air quality standards or PSD increment levels.

The Department will issue the final permit with the attached conditions unless a response received in accordance with the following procedures results in a different decision or significant change of terms or conditions.

The Department will accept written comments and requests for public meetings concerning the proposed permit issuance action for a period of thirty (30) days from the date of publication of this Public Notice of Intent to Issue Air Construction Permit. Written comments and requests for public meetings should be provided to the Department's Bureau of Air Regulation at 2400 Blair Stone Road, Mail Station 45505, Tallahassee, FL 32399-2400. Any written comments filed shall be made available for public inspection. If written comments received result in a significant change in the proposed agency action, the Department shall revise the proposed permit and require, if applicable, another Public Notice.

The Department will issue the permit with the attached conditions unless a timely petition for an administrative hearing is filed pursuant to sections 120.569 and 120.57 F.S., before the deadline for filing a petition. The procedures for preparing for a hearing are set forth below.

Mediation is not available in this proceeding.

A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative hearing (hearing) under sections 120.569 and 120.57 of the Florida Statutes. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department at 1500 Commonwealth Boulevard, Mail Station #13, Tallahassee, Florida, 32399-3000. Petitions filed by the permit applicant or any of the parties listed below must be filed within fourteen days of receipt of this notice of intent. Petitions filed by any persons other than those entitled to written notice under section 120.50(3) of the Florida Statutes must be filed within fourteen days of publication of the public notice or within fourteen days of receipt of this notice of intent, whichever occurs first. Under section 120.56(3), however, any person who asked the Department for notice of agency action may file a petition within fourteen days of receipt of that notice, regardless of the date of publication. A petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under sections 120.569 and 120.57 F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-106.203 of the Florida Administrative Code.

A petition that disputes the material facts on which the Department's action is based must contain the following information: (a) The name and address of each agency affected and each agency's file or identification number, if known; (b) The name, address, and telephone number of the petitioner, the name, address, and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the agency determination; (c) A statement of how and when petitioner received notice of the agency action or proposed action; (d) A statement of all disputed issues of material fact. If there are none, the petitioner must so indicate; (e) A concise statement of the material facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the agency's proposed action; (f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the agency's proposed action; and (g) A statement of the relief sought by the petitioner, stating precisely the action petitioner wishes the agency to take with respect to the agency's proposed action.

A petition that does not dispute the material facts upon which the Department's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by rule 28-106.201.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this notice. Persons whose substantial interests will be affected by any such final decision of the Department on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

A complete project file is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at:

Dept. of Environmental Protection Bureau of Air Regulation Suite # 111 S. Magnolia Drive Tallahassee, Florida, 32303 Telephone: 904-488-0114 Fax: 904-522-5970	Dept. of Environmental Protection Northwest District 160 Government Center Tallahassee, Florida 32301-5794 Telephone: 904-444-8700
---	--

The complete project file includes the application, technical evaluations, draft permit (which includes the technical evaluation, preliminary determination, and BACT and MACT determinations), and the information submitted by the responsible official, exclusive of confidential records under Section 407.117, F.S. Interested persons may contact the Administrator, New Source Review Section, or the Department's reviewing engineer for

The permit authorizes Georgia-Pacific Corporation to construct an oriented strand board manufacturing facility with a capacity of 475 million square feet per year, on a 24-month basis. The applicant's mailing address is: 133 Peachtree Street, Atlanta, GA 30303. A Best Available Control Technology (BACT) determination was required for particulate matter, nitrogen oxides, carbon monoxide and volatile organic compounds pursuant to Rule 62-112.400, F.A.C., and 40 CFR 432.21, Prevention of Significant Deterioration (PSD). A capacity-based Maximum Achievable Control Technology (MACT) determination was required for hazardous air pollutants pursuant to Rule 62-204.800 (10)(d)2, F.A.C.

Emissions will be controlled primarily with regenerative thermal oxidizers and particulate matter control devices.

Total emissions of pollutants shall not exceed the annual emission rates in tons per year: PM/PM₁₀, 293/222; NOx, 336; CO, 203; VOC, 323; SO₂, 22.

An air quality impact analysis was conducted. Emissions from the facility will not significantly contribute to or cause a violation of any state or federal ambient air quality standards or PSD increment levels.

The Department will issue the final permit with the attached conditions unless a permit is renewed in accordance with the following procedures results in a different decision or significant change of terms or conditions.

The Department will accept written comments and requests for public meetings concerning the proposed permit issuance action for a period of thirty (30) days from the date of publication of this Public Notice of Intent to Issue Air Construction Permit. Written comments and requests for public meetings should be provided to the Department's Bureau of Air Regulation at 2600 Blair Stone Road, Mail Station #5505 Tallahassee, FL 32399-2400. Any written comments filed shall be made available for public inspection. If written comments received result in a significant change in the proposed agency action, the Department shall advise the proposed permit and require, if applicable, another Public Notice.

The Department will issue the permit with the attached conditions unless a final petition for an administrative hearing is filed pursuant to sections 120.563 and 120.57 F.S., before the deadline for filing a petition. The procedures for petitioning for a hearing are set forth below.

Mediation is not available in this proceeding.

A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative proceeding (hearing) under sections 120.568 and 120.57 of the Florida Statutes. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Stop #933, Tallahassee, FL 32399-3000. Petitions filed by the permit applicant or any of the parties listed below must be filed within fourteen days of receipt of this notice of intent. Petitions filed by any persons other than those entities in written notice under section 120.60(2) of the Florida Statutes must be filed within fourteen days of publication of the public notice or within fourteen days of receipt of the notice of intent, whichever occurs first. Under section 120.60(1), however, any person who asked the Department for notice of agency

action may file a petition within fourteen days of receipt of that notice, regardless of the date of publication. A petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under sections 120.569 and 120.57 F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 23-106.205 of the Florida Administrative Code.

A petition that disputes the material facts on which the Department's action is based must contain the following information: (a) The name and address of each agency affected and each agency's file or identification number, if known; (b) The name, address and telephone number of the petitioner, the name, address and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the agency determination; (c) A statement of how and when petitioner received notice of the agency action or proposed action; (d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate; (e) A concise statement of the ultimate facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the agency's proposed action; (f) A statement of the specific relief or modification the petitioner contends require reversal or modification of the agency's proposed action; and (g) A statement of the relief sought by the petitioner, stating precisely the action petitioner wishes the agency to take with respect to the agency's proposed action.

A petition that does not dispute the material facts upon which the Department's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by rule 23-106.301.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this notice. Persons whose substantial interests will be affected by any such final decision of the Department on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

A complete project file is available for public inspection during normal business hours, 8 a.m. to 5 p.m., Monday through Friday, except legal holidays at:

Dept. of Environmental Protection Bureau of Air Regulation, Suite 4, 111 S. Magnolia Drive, Tallahassee, FL 32301. Telephone (904) 489-0114, fax (904) 322-6979.

Dept. of Environmental Protection, Northwest District, 150 Government Center, Pensacola, FL 32501-5704; telephone (904) 444-8000.

The complete project file includes the application, technical evaluations, draft permit which includes the technical evaluation, preliminary determination, and BACT and MACT determinations, and the information submitted by the responsible official, exclusive of confidential records under Section 403.111, F.S. Interested persons may contact the Administrator, New Source Review Section, or the Department's reviewing engineer for this project, Joseph Kuhn, P.E., at 111 South Magnolia Drive, Suite 4, Tallahassee, FL 32301, or call (904) 489-0114, for additional information.

LEGAL NOTICES

INVITATION FOR PROPOSALS

NOTICE IS HEREBY GIVEN that the City of Bristol, Fla., will be accepting sealed proposals until 5 p.m. (ET) Monday, Sept. 18, 2000 for the following insurance coverage to be purchased by the Bristol City Council for and on behalf of the City of Bristol, Fla. Proposals will be publicly opened and read at 7 p.m. (ET) during a special meeting of the Bristol City Council, or at such thereafter as specified on the date.

- Workers Compensation
- Property
- Inland Marine
- General Liability
- Public Officials Errors and Omissions
- Automobile Liability

ANY COMPANY INTERESTED in submitting a proposal for the City of Bristol insurance needs may obtain additional information by contacting Robert M. Hill, City Clerk, at P.O. Box 207, 113 N. Church St., Bristol, FL 32221, or by fax (850) 643-4325 or by calling (850) 643-2261.

PROPOSALS SHOULD be mailed to the City of Bristol, P.O. Box 207, Bristol, FL 32221 or delivered to the Clerk's Office at City Hall, 113 N. Church St., Bristol, FL 32221.

Memorandum

TO: *for* Clair Fancy *JMS 8/31*
THRU: Al Linero
FROM: Joe Kahn *[Signature]*
DATE: August 31, 2000
SUBJECT: Georgia-Pacific Hosford OSB Plant
0770010-001-AC, PSD-FL-282

Attached for approval and signature is the intent to issue package for the Georgia-Pacific Hosford OSB plant. This construction/PSD permit authorizes Georgia-Pacific Corporation to construct an oriented strandboard manufacturing facility with a capacity of 475 million square feet per year, on a 3/8-inch basis. This facility will be located on State Road 65, approximately 4.4 miles northeast of Hosford, Liberty County. It was subject to PSD for PM/PM₁₀ (293/222 TPY), NO_x (336 TPY), CO (203 TPY) and VOC (323 TPY). Fuels are wood and natural gas. Principal controls are regenerative thermal oxidizers for the dryers and panel press. Exhaust from the thermal oil system is normally directed to the dryers through an ESP, and when the ESP exhausts directly to the atmosphere, we require firing of only natural gas. Enclosed particulate sources are controlled with integral cyclone/baghouse equipment.

To reduce the length of the intent package, the technical evaluation, preliminary determination, and BACT and MACT determinations have been combined into appendix B of the permit.

I recommend your approval and signature.

August 31 is day 44 of the 90 day timeclock.
