Re: DEP No. AC 41-232096
190 MMBtu/Hour; Process Steam Boiler

Dear Mr. Nance:

We received your letter September 4 requesting an extension for the above mentioned permit. Since the facility currently holds a Title V permit issued by the Department, and this is a non-PSD permit, no permit fee is requested pursuant to FDEP Rule 62-4.050(4)(a)2. Therefore, enclosed herewith is the check you submitted with your request.

If you have any questions regarding this matter, please call me at (85)921-9523.

Sincerely,

A. A. Linero, P.E.

RE: FDEP Permit AC41-232096;
190 MMBTU/Hour;
Process Steam Boiler

Dear Sirs:

Piney Point Phosphates, Inc. ("PPP") requests to extend this construction permit until 31 December 1999. This extension requested due to PPP being unable to utilize steam produced by the subject boiler in the near future. Further, PPP estimates that initial startup and compliance testing costs exceed \$500,000, without benefit of the steam utilization.

The boiler has been installed at this time but has not been operated.

Accompanying this letter is a check in the amount of \$50.00 submitted as the needed processing fee.

Should further information or response be required, please contact our offices.

Very truly yours,

Ivan Nance
Corporate Environmental Manager
