Re: FDEP Permit AC41-232096;
190 MMBTU/Hour;
Process Steam Boiler

0810002-002-AC

Dear Sirs:

Piney Point Phosphates, Inc. ("PPP") requests to extend this construction permit until 31 December 1998. This extension is being requested due to PPP being unable to utilize steam produced by the subject boiler in the near future. Further, PPP estimates that initial startup and compliance testing costs will exceed \$500,000, without benefit of the steam utilization.

The boiler has been installed at this time but has not been operated.

Accompanying this letter is a check in the amount of \$50.00 submitted as the needed processing fee.

Should further information or response be required, please contact our offices.

Very truly yours,

Ivan Nance
Corporate Environmental Manager
