RE: Clean Air Act Section 112(j) Notification Information Tropicana Products, Inc. Title V Permit No. 080007-003-AV

Dear Ms. Phillips:

The purpose of this letter is to provide information relative to Section 112(j) of the Clean Air Act as amended in 1990 which pertains to the development of Maximum Achievable Control Technology (MACT) standards. Section 112(j) requires that owners of a major source of hazardous air pollutants (HAPs) in an affected industry source category submit the information listed below to the permitting authority (i.e. the State of Florida) with a copy submitted to the United States Environmental Protection Agency (USEPA).

Tropicana Products, Inc. is submitting this Part 1 notification information without necessarily having determined that certain units, such as, but not limited to, the process heaters which serve its peel drying system or other process heater units at the facility, are subject to the Process Heaters or other MACT category. Tropicana is submitting information about these units as a precaution and reserves the right to contest that these units are subject to a MACT category. See, "NESHAPS for Source Categories: General Provisions; and Requirements for Control Technology Determinations for Major Sources in Accordance with Clean Air Act Sections 112(g) and 112(j)," 67 Fed. Reg. 16,582, 16,591 (April 5, 2002) (Final Rule) (stating that "If the section 112(j) deadline arrives before you can determine ... applicability, you should submit a Part 1 [notification] ...").

The Code of Federal Regulations, at 40 C.F.R. §63.53(a), directs that the following information is to be submitted in a Part 1 notification to the permitting authority:

 The name, address (physical location), and brief description of the major source (facility);

- 2. An identification of the relevant industry source category(ies);
- 3. A list of the emission units belonging to the relevant industry source category(ies); and
- 4. An identification of any affected sources for which a Section 112(g) MACT determination has been made.

Subject to the conditions outlined herein, Tropicana hereby provides the following facility-specific information for each of these items:

1. Name: Tropicana Products, Inc.

Address: 1001 13th Avenue East, Bradenton, FL 34208

Source Description:

The existing industrial complex includes citrus processing and juice extracting, packaging, warehousing, and distribution. Fruit is graded and carried to an extractor room where the juice is removed and pumped to either carton filling, glass filling, plastic filling, block freezing, aseptic storage or to evaporators for concentrate production.

The plant contains three citrus feed mills; four citrus pellet mills (including two pellet coolers and associated pellet, bulk cooling reels, and Ross coolers); one glass plant; cogeneration facility (with combustion turbine, duct burner, auxiliary boilers, etc.); and a wastewater treatment system (including a package steam boiler and an anaerobic reactor with a biogass flare).

- 2. Relevant Industry Source Categories: Depending on the final form of the applicability portion of the MACT standard, the following industry source categories may be applicable to sources at the facility: Combustion Turbines; Industrial, Commercial, and Industrial Boilers and Indirect-fired Process Heaters; Organic Liquids Distribution (non-gasoline); Paint Stripping Operations, Plastic Parts (surface coating); and Reciprocating Internal Combustion Engines.
- 3. List of the Emission Units Belonging to the Relevant Industry Source Categories: This list is dependent on the final form of the applicability portion on the specific MACT standard.

Page 3

Facility Emission Source	Potentially Relevant Industry Source Category
Cogeneration Facility	Combustion Turbines
Auxiliary and Standby Boilers;	Industrial, Commercial, and Industrial
Duct Burner System; Feed Mill	Boilers and Indirect-fired Process Heaters
Dryers	
Diesel emergency generator	Reciprocating Internal Combustion
	Engines
Citrus Oils Handling and Storage	Organic Liquids Distribution (non-
	Gasoline)
Plastic Parts	Bottling
(Surface Coating)	

4. **Previous Section 112(g) MACT Determinations:** There have been no determinations under 112(g).

If you have any questions concerning the information provided, please contact Douglas Foster at 941-742-2748.

BUREAU OF AIR REGULATION

RE: Clean Air Act Section 112(j) Notification Information Tropicana Products, Inc. Title V Permit No. 080007-003-AV

Dear Ms. Phillips:

The purpose of this letter is to provide information relative to Section 112(j) of the Clean Air Act as amended in 1990 which pertains to the development of Maximum Achievable Control Technology (MACT) standards. Section 112(j) requires that owners of a major source of hazardous air pollutants (HAPs) in an affected industry source category submit the information listed below to the permitting authority (i.e. the State of Florida) with a copy submitted to the United States Environmental Protection Agency (USEPA).

Tropicana Products, Inc. is submitting this Part 1 notification information without necessarily having determined that certain units, such as, but not limited to, the process heaters which serve its peel drying system or other process heater units at the facility, are subject to the Process Heaters or other MACT category. Tropicana is submitting information about these units as a precaution and reserves the right to contest that these units are subject to a MACT category. See, "NESHAPS for Source Categories: General Provisions; and Requirements for Control Technology Determinations for Major Sources in Accordance with Clean Air Act Sections 112(g) and 112(j)," 67 Fed. Reg. 16,582, 16,591 (April 5, 2002) (Final Rule) (stating that "If the section 112(j) deadline arrives before you can determine ... applicability, you should submit a Part 1 [notification]").

The Code of Federal Regulations, at 40 C.F.R. §63.53(a), directs that the following information is to be submitted in a Part 1 notification to the permitting authority:

1. The name, address (physical location), and brief description of the major source (facility);

- 2. An identification of the relevant industry source category(ies);
- 3. A list of the emission units belonging to the relevant industry source category(ies); and
- 4. An identification of any affected sources for which a Section 112(g) MACT determination has been made.

Subject to the conditions outlined herein, Tropicana hereby provides the following facility-specific information for each of these items:

1. Name: Tropicana Products, Inc.

Address: 1001 13th Avenue East, Bradenton, FL 34208

Source Description:

The existing industrial complex includes citrus processing and juice extracting, packaging, warehousing, and distribution. Fruit is graded and carried to an extractor room where the juice is removed and pumped to either carton filling, glass filling, plastic filling, block freezing, aseptic storage or to evaporators for concentrate production.
