**Re: Administrative Change to add Additional Responsible Officials to
Manatee Plant – 0810010-001-AV**

Dear Scott:

Enclosed is the Responsible Official Notification Form to add Mr. Larry Lariosa and Mr. Mike Lunday as Additional Responsible Officials (R.O.) for the Manatee Plant. FPL requests that an administrative change be made to the permit referenced above to accommodate the addition of Messrs. Lariosa and Lunday as an additional R.O.s.

Thank you for your assistance in this matter, and, if you should have any questions, please do not hesitate to contact me at (561) 691-2877.

Very truly yours,

CERTIFIED MAIL - RETURN RECEIPT REQUESTED

The Honorable Joe McClash
Commissioner, Manatee County Board of
County Commissioners
P. O. Box 1000
Bradenton, Florida 34206

Dear Mr. McClash:

RE: Request for Notification of Any Proposed Title V Air Operation Permitting Action

Thank you for your letter of November 6, which requested notification of any proposed agency action regarding the initial Title V operation permits for the facilities located in Manatee County. We have already placed your name on the "to be copied" list for the Florida Power & Light's Manatee Plant, which is the only Title V source initial permit application that the Tallahassee Title V Section will be processing that is located in Manatee County. Therefore, the Department's intent package of the DRAFT Title V operation permit will be mailed to you at the same time as the applicant and others.

We do not have a mechanism to maintain a blanket request for agency actions (i.e., air permitting actions) in a geographical area. However, if you are aware of any other air permit request being processed by the Department in which you might have an interest, please contact the air permitting authority and inform them of your interests. The permitting authorities that could process an air permit request for a source located in Manatee County are:

Title V and non-Title V permitting

The Tallahassee Title V Section has no information about any other permit processing other than the one that is mentioned above.

You are correct that the Manatee County Environmental Management Department-Air Quality Division does get a copy of all air permitting actions in Manatee County. Therefore, you could be kept aware of all air permitting actions there by the public notices placed in the newspaper and by requesting that your county's Air Quality Division notify you upon receipt of any proposed agency actions, air or otherwise. Also, if you have access to the DEP world wide web site, then you will be able to review all of Florida's Title V permits (i.e., DRAFT, PROPOSED and FINAL) @ <http://www.dep.state.fl.us/air> and selecting EPA Review from the menu. The Department has already begun placing Title V permits on the site.

I hope that your requests have been answered by this letter. If not, please give me a call at 904/488-1344 or write to me at the above letterhead address.

Sincerely,

Dear Mr. Sheplak:

It is my understanding when the Title 5 permits are mailed to you and you determine they are completed, a draft of the permit is forwarded to several agencies, i.e. Manatee County Environmental Management Department, the District office of DEP and the Federal EPA. I would like to be added to that list to receive a copy of any draft Title 5 permit submitted from Manatee County. I would also like to be copied if any modification is requested in a Title 5 permit.

Thanking you in advance for your cooperation in this matter, I remain

Sincerely yours,
