Re: Florida Power & Light Company
Manatee Power Plant (PMT)
DARM Facility ID: 0810010
**Request for Exemption: Temporary Donkey Boiler for Fuel Oil
Heating**

Dear Mr. Koerner,

Florida Power & Light Company (FPL) is requesting confirmation for an exemption pursuant to FL Rule 62-210.300(3)(a)(34) F.A.C. to bring on-site a "temporary" rental boiler for the purpose of heating the fuel oil currently contained in PMT Tank 1371/B. This boiler will be rented from Power Mechanical, Inc. and will remain on-site less than 180 calendar days. The temporary boiler will be attached to a trailer mount, is rated at less than 10 mmbtu/hr, and will fire only No. 2 distillate fuel oil.

This boiler is not subject to any NSPS and/or NESHAPS federal requirements since it is portable and will remain on-site less than six calendar months. There are also no unit-specific applicable requirements as defined in Rule 62-210.200(316) F.A.C.. Therefore, an exemption of this temporary boiler is appropriate and confirmation of this conclusion is respectfully requested.

The projected date for this boiler to be brought on-site is February 10, 2014. Thank you for your expeditious consideration of this request for the Manatee Power Plant.

If you have any questions, please contact Jeffrey Zuczek at 561-691-2635, or via email at Jeffrey.Zuczek@fpl.com.

Sincerely,

Paul Plotkin for
Paul Plotkin
