STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL REGULATION
NOTICE OF PERMIT

In the matter of an
Application for Permits by:

DER File No. AC 42-222347
AC 42-222353
Marion County

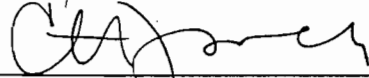

Mr. Roy T. Boyd III
Chief Executive Officer
Mark III Industries
5401 N.W. 44th Avenue
Ocala, Florida 32675

Enclosed are Permit Numbers AC 42-222347 and AC 42-222353 to modify the existing Ultraviolet Reactor Room and Paint Spray Booth operations at the Mark III Industries facility in Marion County, Florida. These permits are issued pursuant to Section(s) 403, Florida Statutes.

Any party to this Order (permit) has the right to seek judicial review of the permits pursuant to Section 120.68, Florida Statutes, by the filing of a Notice of Appeal pursuant to Rule 9.110, Florida Rules of Appellate Procedure, with the Clerk of the Department in the Office of General Counsel, 2600 Blair Stone Road, Tallahassee, Florida 32399-2400; and by filing a copy of the Notice of Appeal accompanied by the applicable filing fees with the appropriate District Court of Appeal. The Notice of Appeal must be filed within 30 days from the date this Notice is filed with the Clerk of the Department.

Executed in Tallahassee, Florida.

December 24, 1992

Final Determination

Mark III Industries

Marion County

The construction permit application packages have been reviewed by the Department. Public Notice of the Department's Intent to Issue was published in The Ocala Star-Banner on December 6, 1992. The Technical Evaluation and Preliminary Determination of the construction permits was distributed on December 2, 1992, and available for public inspection at the Department's Southwest District office and the Department's Bureau of Air Regulation office.

There were no comments received during the public notice period. Therefore, it is recommended that the construction permits be issued as drafted.

December 10, 1992

C.H. Fancy, P.E.

BONDED THRU NOTARY PUBLIC UNDERWRITERS.

Notice of Intent to Issue Permit
AC 42-222347: Ultraviolet Reactor Room Operations
AC 42-222353: Paint Spray Booth Operations
The Department of Environmental Regulation hereby gives notice of its intent to issue permits to Mark III Industries, 5401 N.W. 44th Avenue, Ocala, Florida 32675, to modify the existing Ultraviolet Reactor Room and Paint Spray Booth operations. The proposed projects will occur at the applicant's existing facility in Marion County, Florida. A determination of Best Available Control Technology (BACT) was not required. The Department is issuing this intent to issue for the reasons stated in the Technical Evaluation and Preliminary Determination.

A person whose substantial interests are affected by the Department's proposed permitting decision may petition for an administrative proceeding (hearing) in accordance with Section 120.57, Florida Statutes (F.S.). The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department at 2600 Blair Stone Road, Tallahassee, Florida 32399-2400, within fourteen (14) days of publication of this notice. Petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. Failure to file a petition within this time period shall constitute a waiver of any right such person may have to request an administrative determination (hearing) under Section 120.57, F.S.

The Petition shall contain the following information:

- (a) The name, address and telephone number of each petitioner, the applicant's name and address, the Department Permit File Number and the county in which the project is proposed;
(b) A statement of how and when each petitioner received notice of the Department's action or proposed action;
(c) A statement of how each petitioner's substantial interests are affected by the Department's action or proposed action;
(d) A statement of the material facts disputed by Petitioner, if any;
(e) A statement of facts which petitioner contends warrant reversal or modification of the Department's action or proposed action;
(f) A statement of which rules or statutes petitioner contends require reversal or modification of the Department's action or proposed action; and,
(g) A statement of the relief sought by petitioner, stating precisely the action petitioner wants the Department to take with respect to the Department's action or proposed action.

If a petition is filed, the administrative hearing process is designed to formulate agency action. Accordingly, the Department's final action may be different from the position taken by it in this Notice. Persons whose substantial interests will be affected by any decision of the Department with regard to the applications have the right to petition to become a party to the proceeding. The petition must conform to the requirements specified above and be filed (received) within 14 days of publication of this notice in the Office of General Counsel at the above address of the Department. Failure to petition within the allowed time frame constitutes a waiver of any right such person has to request a hearing under Section 120.57, F.S., and to participate as a party to this proceeding. Any subsequent intervention will only be at the approval of the presiding officer upon motion filed pursuant to Rule 28-5.207 Florida Administrative Code.

The applications are available for public inspection during business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at:
Department of Environmental Regulation
Bureau of Air Regulation
2600 Blair Stone Road
Tallahassee, Florida 32399-2400
Department of Environmental Regulation
Southwest District
3804 Coconut Palm Drive
Tampa, Florida 33619-8218

Any person may send written comments on the proposed action to Mr. Preston Lewis at the Department's Tallahassee address. All comments received within 14 days of the publication of this notice will be considered in the Department's final determination.
No. C3005 - December 6, 1992

Florida Department of Environmental Regulation

Twin Towers Office Bldg. • 2600 Blair Stone Road • Tallahassee, Florida 32399-2400

Lawton Chiles, Governor

Carol M. Browner, Secretary

PERMITTEE:

Mark III Industries
5401 N.W. 44th Avenue
Ocala, Florida 32675

Permit Number: AC 42-222347

Expiration Date: Dec. 31, 1994

County: Marion

Latitude/Longitude: 29°11'00"N
82°15'24"W

Project: Ultraviolet Reactor Room
Operations Modification

This permit is issued under the provisions of Chapter 403, Florida Statutes (F.S.), Florida Administrative Code (F.A.C.) Chapters 17-2 and 17-4; F.A.C. Chapters 17-210, 17-212, 17-272, 17-275, 17-296, and 17-297; and, 40 CFR (July, 1991 version). The above named permittee is hereby authorized to perform the work or operate the facility shown on the application and approved drawing(s), plans, and other documents attached hereto or on file with the Department and made a part hereof and specifically described as follows:

For a modification to the existing Ultraviolet Reactor Room (UVR) operations, to delete the federally enforceable VOC (volatile organic compounds/organic solvents) hourly limitation and to impose a quarterly operation report requirement because of the synthetic minor facility qualifications (i.e., 249.0 TPY VOC).

The UTM coordinates are Zone 17, 377.81 km East and 3228.77 km North.

The Standard Classification Codes are:

- o 4-02-021-01 Base Coat (tons solvent in coating)
- o 4-02-021-06 Top Coat (tons solvent in coating)
- o 4-02-021-08 Sealer (tons solvent in coating)
- o 4-02-021-53 UV Coating (10^3 ft² production surface area)

The source shall be constructed/modified in accordance with the permit application, plans, documents, amendments and drawings, except as otherwise noted in the General and Specific Conditions.

Attachments are listed below:

1. Application to Construct Air Pollution Sources, DER Form 17-1.202(1), and processing fee received December 1, 1992.
2. Technical Evaluation and Preliminary Determination dated December 2, 1992.

PERMITTEE:
Mark III Industries

Permit Number: AC 42-222347
Expiration Date: Dec. 31, 1994

GENERAL CONDITIONS:

1. The terms, conditions, requirements, limitations, and restrictions set forth in this permit are "Permit Conditions" and are binding and enforceable pursuant to Sections 403.161, 403.727, or 403.859 through 403.861, F.S. The permittee is placed on notice that the Department will review this permit periodically and may initiate enforcement action for any violation of these conditions.

2. This permit is valid only for the specific processes and operations applied for and indicated in the approved drawings or exhibits. Any unauthorized deviation from the approved drawings, exhibits, specifications, or conditions of this permit may constitute grounds for revocation and enforcement action by the Department.

3. As provided in Subsections 403.087(6) and 403.722(5), F.S., the issuance of this permit does not convey any vested rights or any exclusive privileges. Neither does it authorize any injury to public or private property or any invasion of personal rights, nor any infringement of federal, state or local laws or regulations. This permit is not a waiver of or approval of any other Department permit that may be required for other aspects of the total project which are not addressed in the permit.

4. This permit conveys no title to land or water, does not constitute State recognition or acknowledgment of title, and does not constitute authority for the use of submerged lands unless herein provided and the necessary title or leasehold interests have been obtained from the State. Only the Trustees of the Internal Improvement Trust Fund may express State opinion as to title.

5. This permit does not relieve the permittee from liability for harm or injury to human health or welfare, animal, or plant life, or property caused by the construction or operation of this permitted source, or from penalties therefore; nor does it allow the permittee to cause pollution in contravention of F.S. and Department rules, unless specifically authorized by an order from the Department.

6. The permittee shall properly operate and maintain the facility and systems of treatment and control (and related appurtenances) that are installed or used by the permittee to achieve compliance with the conditions of this permit, as required by Department rules. This provision includes the operation of backup or auxiliary facilities or similar systems when necessary to achieve compliance with the conditions of the permit and when required by Department rules.

PERMITTEE:
Mark III Industries

Permit Number: AC 42-222347
Expiration Date: Dec. 31, 1994

GENERAL CONDITIONS:

7. The permittee, by accepting this permit, specifically agrees to allow authorized Department personnel, upon presentation of credentials or other documents as may be required by law and at a reasonable time, access to the premises, where the permitted activity is located or conducted to:

- a. Have access to and copy any records that must be kept under the conditions of the permit;
- b. Inspect the facility, equipment, practices, or operations regulated or required under this permit; and,
- c. Sample or monitor any substances or parameters at any location reasonably necessary to assure compliance with this permit or Department rules.

Reasonable time may depend on the nature of the concern being investigated.

8. If, for any reason, the permittee does not comply with or will be unable to comply with any condition or limitation specified in this permit, the permittee shall immediately provide the Department with the following information:

- a. a description of and cause of non-compliance; and,
- b. the period of noncompliance, including dates and times; or, if not corrected, the anticipated time the non-compliance is expected to continue, and steps being taken to reduce, eliminate, and prevent recurrence of the non-compliance.

The permittee shall be responsible for any and all damages which may result and may be subject to enforcement action by the Department for penalties or for revocation of this permit.

9. In accepting this permit, the permittee understands and agrees that all records, notes, monitoring data and other information relating to the construction or operation of this permitted source which are submitted to the Department may be used by the Department as evidence in any enforcement case involving the permitted source arising under the Florida Statutes or Department rules, except where such use is proscribed by Sections 403.73 and 403.111, F.S. Such evidence shall only be used to the extent it is consistent with the Florida Rules of Civil Procedure and appropriate evidentiary rules.

PERMITTEE:
Mark III Industries

Permit Number: AC 42-222347
Expiration Date: Dec. 31, 1994

GENERAL CONDITIONS:

10. The permittee agrees to comply with changes in Department rules and F.S. after a reasonable time for compliance, provided, however, the permittee does not waive any other rights granted by F.S. or Department rules.

11. This permit is transferable only upon Department approval in accordance with F.A.C. Rules 17-4.120 and 17-30.300, as applicable. The permittee shall be liable for any non-compliance of the permitted activity until the transfer is approved by the Department.

12. This permit or a copy thereof shall be kept at the work site of the permitted activity.

13. The permittee shall comply with the following:

a. Upon request, the permittee shall furnish all records and plans required under Department rules. During enforcement actions, the retention period for all records will be extended automatically unless otherwise stipulated by the Department.

b. The permittee shall hold at the facility or other location designated by this permit records of all monitoring information (including all calibration and maintenance records and all original strip chart recordings for continuous monitoring instrumentation) required by the permit, copies of all reports required by this permit, and records of all data used to complete the application for this permit. These materials shall be retained at least three years from the date of the sample, measurement, report, or application unless otherwise specified by Department rule.

c. Records of monitoring information shall include:

- the date, exact place, and time of sampling or measurements;
- the person responsible for performing the sampling or measurements;
- the dates analyses were performed;
- the person responsible for performing the analyses;
- the analytical techniques or methods used; and,
- the results of such analyses.

PERMITTEE:
Mark III Industries

Permit Number: AC 42-222347
Expiration Date: Dec. 31, 1994

GENERAL CONDITIONS:

14. When requested by the Department, the permittee shall within a reasonable time furnish any information required by law which is needed to determine compliance with the permit. If the permittee becomes aware that relevant facts were not submitted or were incorrect in the permit application or in any report to the Department, such facts or information shall be corrected promptly.

SPECIFIC CONDITIONS:

1. Continuous operation is permitted (i.e., 24 hrs/day, 7 days/wk, and 52 wks/yr, for a total of 8,760 hrs/yr).
2. The total allowable volatile organic compounds/organic solvents (VOCs) emissions from the Ultraviolet Reactor Room (UVR) operations shall not exceed 125.0 TPY.
3. Visible emissions (VE) shall be less than 20% opacity pursuant to F.A.C. Rule 17-296.310(2).
4. Initial and annual VE compliance tests shall be conducted using EPA Reference Method 9 in accordance with F.A.C. Rule 17-297.401(9) and 40 CFR 60, Appendix A (July, 1991 version).
5. Objectionable odors shall not be allowed off plant property in accordance with F.A.C. Rule 17-296.320(2).
6. The UVR operations are subject to the provisions of F.A.C. Rules 17-210.650: Circumvention; 17-210.700: Excess Emissions; and, 17-4.130: Plant Operations-Problems.
7. The UVR operations are subject to all applicable provisions of F.A.C. Chapters 17-2 and 17-4; F.A.C. Chapters 17-210 thru 297; and, 40 CFR (July, 1991 version).
8. The Department's Southwest District office shall be notified in writing at least 15 days prior to conducting compliance tests in accordance with F.A.C. Rule 17-297.340(1)(i). The test reports shall be submitted to the Department's Southwest District office no later than 45 days after the last sampling run of each test is completed in accordance with F.A.C. Rule 17-297.570(2).
9. A material balance scheme shall be employed to account for VOC emissions and shall include the following:
 - a. Initial inventory of all VOCs;
 - b. Deliveries of all VOC material after the initial inventory;
 - c. Quantification of VOCs recycled or collected and shipped to an approved waste facility after the initial inventory;

PERMITTEE:
Mark III Industries

Permit Number: AC 42-222347
Expiration Date: Dec. 31, 1994

SPECIFIC CONDITIONS:

- d. Ending inventory of all VOCs (12 calendar months after the initial inventory); and,
- e. Emissions must be verifiable on a monthly basis.

NOTE: It will be assumed that any VOCs used and not accounted for by recycling or collected and shipped to an approved waste handling facility were emitted into the atmosphere.

10. Due to a synthetic minor facility designation (i.e., 249.0 TPY VOC), a quarterly operation report shall be submitted to the Department's Southwest District office by the 10th of the month following the last quarter of operations accounting for the VOC emissions from the UVRR operations; and, the report shall be accountable on a monthly basis. The quarters shall be January - March; April - June; July - September; and, October - December.

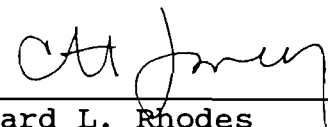

11. The vent stacks shall be installed such that pollutant emissions exit in the vertical plane.

12. The permittee, for good cause, may request that this construction permit be extended. Such a request shall be submitted to the Department's Bureau of Air Regulation prior to 60 days before the expiration of the permit (F.A.C. Rule 17-4.090).

13. An application for an operation permit must be submitted to the Department's Southwest District office at least 90 days prior to the expiration date of this construction permit. To properly apply for an operation permit, the applicant shall submit the appropriate application form, processing fee, certification that construction was completed noting any deviations from the conditions in the construction permit, and compliance test reports as required by this permit (F.A.C. Rules 17-4.055 and 17-4.220).

4. Initial and annual VE compliance tests shall be conducted using EPA Reference Method 9 in accordance with F.A.C. Rule 17-297.401(9) and 40 CFR 60, Appendix A (July, 1991 version).

5. Objectionable odors shall not be allowed off plant property in accordance with F.A.C. Rule 17-296.320(2).

6. The PSB operations are subject to the provisions of F.A.C. Rules 17-210.650: Circumvention; 17-210.700: Excess Emissions; and, 17-4.130: Plant Operations-Problems.

7. The PSB operations are subject to all applicable provisions of F.A.C. Chapters 17-2 and 17-4; F.A.C. Chapters 17-210 thru 297; and, 40 CFR (July, 1991 version).

8. The Department's Southwest District office shall be notified in writing at least 15 days prior to conducting compliance tests in accordance with F.A.C. Rule 17-297.340(1)(i). The test reports shall be submitted to the Department's Southwest District office no later than 45 days after the last sampling run of each test is completed in accordance with F.A.C. Rule 17-297.570(2).

9. A material balance scheme shall be employed to account for VOC emissions and shall include the following:

- a. Initial inventory of all VOCs;
- b. Deliveries of all VOC material after the initial inventory;
- c. Quantification of VOCs recycled or collected and shipped to an approved waste facility after the initial inventory;

PERMITTEE:
Mark III Industries

Permit Number: AC 42-222353
Expiration Date: Dec. 31, 1994

SPECIFIC CONDITIONS:

- d. Ending inventory of all VOCs (12 calendar months after the initial inventory); and,
- e. Emissions must be verifiable on a monthly basis.

NOTE: It will be assumed that any VOCs used and not accounted for by recycling or collected and shipped to an approved waste handling facility were emitted into the atmosphere.

10. Due to a synthetic minor facility designation (i.e., 249.0 TPY VOC), a quarterly operation report shall be submitted to the Department's Southwest District office by the 10th of the month following the last quarter of operations accounting for the VOC emissions from the PSB operations; and, the report shall be accountable on a monthly basis. The quarters shall be January - March; April - June; July - September; and, October - December.

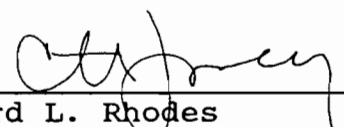

11. The vent stacks shall be installed such that pollutant emissions exit in the vertical plane.

12. The permittee, for good cause, may request that this construction permit be extended. Such a request shall be submitted to the Department's Bureau of Air Regulation prior to 60 days before the expiration of the permit (F.A.C. Rule 17-4.090).

13. An application for an operation permit must be submitted to the Department's Southwest District office at least 90 days prior to the expiration date of this construction permit. To properly apply for an operation permit, the applicant shall submit the appropriate application form, processing fee, certification that construction was completed noting any deviations from the conditions in the construction permit, and compliance test reports as required by this permit (F.A.C. Rules 17-4.055 and 17-4.220).

CERTIFIED MAIL-RETURN RECEIPT REQUESTED

Mr. Roy T. Boyd III
Chief Executive Officer
Mark III Industries
5401 N.W. 44th Avenue
Ocala, Florida 32675

Dear Mr. Boyd:

Attached is one copy of the Technical Evaluation and Preliminary Determination and proposed permits for Mark III Industries to modify the existing Ultraviolet Reactor Room and Paint Spray Booth operations. The modifications will result in the facility being designated as a synthetic minor facility (i.e., 249.0 TPY VOCs (volatile organic compounds/organic solvents)).

Please submit any written comments you wish to have considered concerning the Department's proposed action to Mr. Preston Lewis of the Bureau of Air Regulation.

Sincerely,

for John C. Browner, Jr.
G. H. Fancy, P.E.
Chief
Bureau of Air Regulation

BEFORE THE STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL REGULATION

In the Matter of
Applications for Permits by:

Mark III Industries
5401 N.W. 44th Avenue
Ocala, Florida 32675

DER File Nos. AC 42-222347
AC 42-222353

INTENT TO ISSUE

The Department of Environmental Regulation hereby gives notice of its intent to issue permits (copies attached) for the proposed projects, as detailed in the applications specified above. The Department is issuing this Intent to Issue for the reasons stated in the attached Technical Evaluation and Preliminary Determination.

The applicant, Mark III Industries, applied on December 1, 1992, to the Department of Environmental Regulation for permits to modify the existing Ultraviolet Reactor Room and Paint Spray Booth operations. The proposed projects will occur at the applicant's existing facility located in Ocala, Marion County, Florida.

The Department has permitting jurisdiction under Chapter 403, Florida Statutes (F.S.), and Florida Administrative Code (F.A.C.) Chapters 17-2 and 17-4; F.A.C. Chapters 17-210 thru 297; and, 40 CFR (July, 1991 version). The project is not exempt from permitting procedures. The Department has determined that air construction permits are required for the proposed work.

Pursuant to Section 403.815, F.S., and Rule 17-103.150, F.A.C., you (the applicant) are required to publish at your own expense the enclosed Notice of Intent to Issue Permits. The notice shall be published one time only within 30 days, in the legal ad section of a newspaper of general circulation in the area affected. For the purpose of this rule, "publication in a newspaper of general circulation in the area affected" means publication in a newspaper meeting the requirements of Sections 50.011 and 50.031, F.S., in the county where the activity is to take place. Where there is more than one newspaper of general circulation in the county, the newspaper used must be one with significant circulation in the area that may be affected by the permits. If you are uncertain that a newspaper meets these requirements, please contact the Department at the address or telephone number listed below. The applicant shall provide proof of publication to the Department's Bureau of Air Regulation, 2600 Blair Stone Road, Tallahassee, Florida 32399-2400, within seven days of publication. Failure to publish the notice and provide proof of publication within the allotted time may result in the denial of the permits.

The Department will issue the permits with the attached conditions unless a petition for an administrative proceeding (hearing) is filed pursuant to the provisions of Section 120.57, F.S.

A person whose substantial interests are affected by the Department's proposed permitting decision may petition for an administrative proceeding (hearing) in accordance with Section 120.57, F.S. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department at 2600 Blair Stone Road, Tallahassee, Florida 32399-2400. Petitions filed by the permit applicant and the parties listed below must be filed within 14 days of receipt of this intent. Petitions filed by other persons must be filed within 14 days of publication of the public notice or within 14 days of receipt of this intent, whichever first occurs. Petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. Failure to file a petition within this time period shall constitute a waiver of any right such person may have to request an administrative determination (hearing) under Section 120.57, F.S.

The Petition shall contain the following information;

(a) The name, address, and telephone number of each petitioner, the applicant's name and address, the Department Permit File Number and the county in which the project is proposed;

(b) A statement of how and when each petitioner received notice of the Department's action or proposed action;

(c) A statement of how each petitioner's substantial interests are affected by the Department's action or proposed action;

(d) A statement of the material facts disputed by Petitioner, if any;

(e) A statement of facts which petitioner contends warrant reversal or modification of the Department's action or proposed action;

(f) A statement of which rules or statutes petitioner contends require reversal or modification of the Department's action or proposed action; and,

(g) A statement of the relief sought by petitioner, stating precisely the action petitioner wants the Department to take with respect to the Department's action or proposed action.

If a petition is filed, the administrative hearing process is designed to formulate agency action. Accordingly, the Department's final action may be different from the position taken by it in this notice. Persons whose substantial interests will be affected by any decision of the Department with regard to the applications have the right to petition to become a party to the proceeding. The petition must conform to the requirements specified above and be filed (received) within 14 days of publication of this notice in the Office in General Counsel at the above address of the Department. Failure to petition within the allowed time frame constitutes a waiver of any right such person has to request a

hearing under Section 120.57, F.S., and to participate as a party to this proceeding. Any subsequent intervention will only be at the approval of the presiding officer upon motion filed pursuant to Rule 28-5.207, F.A.C.

Executed in Tallahassee, Florida.

CERTIFICATE OF SERVICE

The undersigned duly designated deputy clerk hereby certifies that this NOTICE OF INTENT TO ISSUE and all copies were mailed before the close of business on _____.

FILING AND ACKNOWLEDGMENT
FILED, on this date, pursuant to §120.52(9), Florida Statutes, with the designated Department Clerk, receipt of which is hereby acknowledged.

Clerk

Date

State of Florida
Department of Environmental Regulation
Notice of Intent to Issue

AC 42-222347: Ultraviolet Reactor Room Operations
AC 42-222353: Paint Spray Booth Operations

The Department of Environmental Regulation hereby gives notice of its intent to issue permits to Mark III Industries, 5401 N.W. 44th Avenue, Ocala, Florida 32675, to modify the existing Ultraviolet Reactor Room and Paint Spray Booth operations. The proposed projects will occur at the applicant's existing facility in Marion County, Florida. A determination of Best Available Control Technology (BACT) was not required. The Department is issuing this Intent to Issue for the reasons stated in the Technical Evaluation and Preliminary Determination.

A person whose substantial interests are affected by the Department's proposed permitting decision may petition for an administrative proceeding (hearing) in accordance with Section 120.57, Florida Statutes (F.S.). The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department at 2600 Blair Stone Road, Tallahassee, Florida 32399-2400, within fourteen (14) days of publication of this notice. Petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. Failure to file a petition within this time period shall constitute a waiver of any right such person may have to request an administrative determination (hearing) under Section 120.57, F.S.

The Petition shall contain the following information:

- (a) The name, address, and telephone number of each petitioner, the applicant's name and address, the Department Permit File Number and the county in which the project is proposed;
- (b) A statement of how and when each petitioner received notice of the Department's action or proposed action;
- (c) A statement of how each petitioner's substantial interests are affected by the Department's action or proposed action;
- (d) A statement of the material facts disputed by Petitioner, if any;
- (e) A statement of facts which petitioner contends warrant reversal or modification of the Department's action or proposed action;
- (f) A statement of which rules or statutes petitioner contends require reversal or modification of the Department's action or proposed action; and,

(g) A statement of the relief sought by petitioner, stating precisely the action petitioner wants the Department to take with respect to the Department's action or proposed action.

If a petition is filed, the administrative hearing process is designed to formulate agency action. Accordingly, the Department's final action may be different from the position taken by it in this Notice. Persons whose substantial interests will be affected by any decision of the Department with regard to the applications have the right to petition to become a party to the proceeding. The petition must conform to the requirements specified above and be filed (received) within 14 days of publication of this notice in the Office of General Counsel at the above address of the Department. Failure to petition within the allowed time frame constitutes a waiver of any right such person has to request a hearing under Section 120.57, F.S., and to participate as a party to this proceeding. Any subsequent intervention will only be at the approval of the presiding officer upon motion filed pursuant to Rule 28-5.207, Florida Administrative Code.

The applications are available for public inspection during business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at:

Department of Environmental Regulation
Bureau of Air Regulation
2600 Blair Stone Road
Tallahassee, Florida 32399-2400

Department of Environmental Regulation
Southwest District
3804 Coconut Palm Drive
Tampa, Florida 33619-8218

Any person may send written comments on the proposed action to Mr. Preston Lewis at the Department's Tallahassee address. All comments received within 14 days of the publication of this notice will be considered in the Department's final determination.

December 2, 1992

I. Application

A. Applicant

Mark III Industries
5401 NW 44th Avenue
P. O. Box 2525
Ocala, Florida 32678

B. Project

The applicant intends to modify the existing Ultraviolet Reactor Room (UVR) and Paint Spray Booth (PSB) operations. In the UVR operations, the federally enforceable VOC (volatile organic compounds/organic solvents) hourly limitation will be deleted and a quarterly operation report will be imposed due to the facility becoming synthetic minor (i.e., 249.0 TPY VOC). For the PSB operations, the allowable VOC emissions will be increased from 100.0 TPY to 124.0 TPY. The proposed modifications will take place at the applicant's existing facility in Marion County.

The UTM coordinates are Zone 17, 377.81 km East and 3228.77 km North.

C. Process and Controls

1. UVR Operations

Sheets of hardwood paneling are coated to protect and enhance the appearance of the wood. Parts are loaded onto a conveyor belt. The conveyor passes the parts under a photo cell, which determines the size of the parts. Data is fed into the computer, which controls the reciprocating sprayers. The parts then enter the coating spray booth and are coated by the automatic sprayers. Approximately thirty percent of the overspray is captured and recycled. Next, the parts pass through a flash tunnel and enter a UV curing oven. The parts are sanded and sent through a second similar process. After a second pass, the parts are sanded and sent through the process again, and coated with a final topcoat.

There are no outside controls associated with the UVR operations.

2. PSB Operations

Custom body parts are painted to match the color of vans received from the factory and then attached to the vans. In the proposed new system, the parts will be loaded onto a conveyor belt and pass under a photo cell, which will determine the size of each part. Data will be fed into a computer, which will program the reciprocating sprayers. The parts will enter a spray booth, where

a base coat is applied by automatic sprayers. After passing through a flash tunnel, the parts will enter a second spray tunnel prior to entering the oven. In the oven, the paint will be baked onto the parts, after which they will be ready for final assembly. Also, exterior van body parts can be painted by manually operated sprayers within an existing PSB.

There are no outside controls associated with the PSB operations.

D. Source Classification Codes (SCC)

The SCC for this operation are:

- o 4-02-021-01 Base Coat (tons solvent in coating)
- o 4-02-021-06 Top Coat (tons solvent in coating)
- o 4-02-021-08 Sealer (tons solvent in coating)
- o 4-02-021-53 UV Coating (10^3 ft² production surface area)
- o 4-02-016-31 Topcoat (# of vehicles processed)

II. Rule Applicability

The project is subject to preconstruction review pursuant to Chapter 403, Florida Statutes; Florida Administrative Code (F.A.C.) Chapters 17-2 and 17-4; F.A.C. Chapters 17-210 thru 297; and, 40 CFR (July, 1991 version).

The application packages were deemed complete on December 1, 1992.

The existing facility is located in an area designated attainment for all pollutants.

The existing facility is major for volatile organic compounds (VOCs) and minor for particulate matter.

The UVR operations are permitted for a total of 125.0 TPY VOCs. The PSB operations are increasing from 100.0 TPY to 124.0 TPY VOCs. Due to this, the facility will become synthetic minor (i.e., 249.0 TPY VOCs).

Since the modifications, as a total, would be a minor modification to a major facility, the VOC emissions are subject to review in accordance with F.A.C. Rule 17-212.300, Sources Not Subject to Prevention of Significant Deterioration (PSD) or Nonattainment Requirements.

There are no specific source emission limiting standards pursuant to F.A.C. Rules 17-296 or 17-296.800. Therefore, the UVR and PSB operations are subject to emission limiting standards pursuant to F.A.C. Rules 17-296.310(2), General Visible Emissions Standard, and F.A.C. Rule 17-296.320(1) and (2), General Pollutant Emission Limiting Standards.

The UVRR and PSB operations are subject to F.A.C. Rules 17-210.650: Circumvention; 17-210.700: Excess Emissions; and, 17-4.130: Plant Operations-Problems.

A material balance scheme will continue to be employed to account for the VOC emissions from the UVRR and PSB operations. Due to a synthetic minor facility designation (i.e., 249.0 TPY VOCs), a quarterly operation report shall be submitted to the Department's Southwest District by the 10th of the month following the last quarter of operations accounting for the VOC emissions from the UVRR and PSB operations; and, the report shall be accountable on a monthly basis. The quarters shall be January - March; April - June; July - September; and, October - December.

Initial and annual compliance tests for visible emissions shall be conducted using EPA Reference Method 9 in accordance with F.A.C. Rule 17-297.401(9). The Department's Southwest District office shall be notified in writing at least 15 days prior to conducting compliance tests in accordance with F.A.C. Rule 17-297.340(1)(i). The test reports shall be submitted to the Department's Southwest District office no later than 45 days after the last sampling run of each test is completed in accordance with F.A.C. Rule 17-297.570(2).

III. Summary of Emission Limitations and Air Quality Analysis

A. Emission Limitations

Limitations for VOCs emissions and visible emissions applicable to the UVRR and PSB operations as follows:

Table 1

<u>Source</u>	<u>Pollutant</u>	<u>Maximum Allowable Emission Limitation</u>
UVRR Operations	VOCs	125.0 TPY (total)
	VE	less than 20% opacity
PSB Operations	VOCs	124.0 TPY (total)
	VE	less than 20% opacity

Note: Allowed continuous operation (i.e., 24 hrs/day, 7 days/wk, 52 wks/yr).

B. Air Quality Analysis

From a review of the application package and supplementary material, an air quality analysis was not required.

IV. Conclusion

The emission limiting standards are in compliance with all applicable provisions of F.A.C. Chapters 17-2 and 17-4; F.A.C. Chapters 17-210 thru 297; and, 40 CFR (July, 1991 vesion). The proposed permits (attached) will assure compliance with all requirements of these regulations.

Based on the information provided by Mark III Industries, the Department has reasonable assurance that the proposed modification to the UVRR and PSB operations, as described in this evaluation, and subject to the conditions proposed herein, will not cause or contribute to a violation of any air quality standard, PSD increment, or any other technical provision of Chapters 17-2 and 17-210 thru 297 of the Florida Administrative Code.

PERMITTEE:

**Mark III Industries
5401 N.W. 44th Avenue
Ocala, Florida 32675**

Permit Number: AC 42-222347

Expiration Date: Dec. 31, 1994

County: Marion

**Latitude/Longitude: 29°11'00"N
82°15'24"W**

**Project: Ultraviolet Reactor Room
Operations Modification**

This permit is issued under the provisions of Chapter 403, Florida Statutes (F.S.), Florida Administrative Code (F.A.C.) Chapters 17-2 and 17-4; F.A.C. Chapters 17-210, 17-212, 17-272, 17-275, 17-296, and 17-297; and, 40 CFR (July, 1991 version). The above named permittee is hereby authorized to perform the work or operate the facility shown on the application and approved drawing(s), plans, and other documents attached hereto or on file with the Department and made a part hereof and specifically described as follows:

For a modification to the existing Ultraviolet Reactor Room (UVR) operations, to delete the federally enforceable VOC (volatile organic compounds/organic solvents) hourly limitation and to impose a quarterly operation report requirement because of the synthetic minor facility qualifications (i.e., 249.0 TPY VOC).

The UTM coordinates are Zone 17, 377.81 km East and 3228.77 km North.

The Standard Classification Codes are:

- o 4-02-021-01 Base Coat (tons solvent in coating)
- o 4-02-021-06 Top Coat (tons solvent in coating)
- o 4-02-021-08 Sealer (tons solvent in coating)
- o 4-02-021-53 UV Coating (10³ ft² production surface area)

The source shall be constructed/modified in accordance with the permit application, plans, documents, amendments and drawings, except as otherwise noted in the General and Specific Conditions.

Attachments are listed below:

1. Application to Construct Air Pollution Sources, DER Form 17-1.202(1), and processing fee received December 1, 1992.
2. Technical Evaluation and Preliminary Determination dated December 2, 1992.

PERMITTEE:
Mark III Industries

Permit Number: AC 42-222347
Expiration Date: Dec. 31, 1994

GENERAL CONDITIONS:

1. The terms, conditions, requirements, limitations, and restrictions set forth in this permit are "Permit Conditions" and are binding and enforceable pursuant to Sections 403.161, 403.727, or 403.859 through 403.861, F.S. The permittee is placed on notice that the Department will review this permit periodically and may initiate enforcement action for any violation of these conditions.
2. This permit is valid only for the specific processes and operations applied for and indicated in the approved drawings or exhibits. Any unauthorized deviation from the approved drawings, exhibits, specifications, or conditions of this permit may constitute grounds for revocation and enforcement action by the Department.
3. As provided in Subsections 403.087(6) and 403.722(5), F.S., the issuance of this permit does not convey any vested rights or any exclusive privileges. Neither does it authorize any injury to public or private property or any invasion of personal rights, nor any infringement of federal, state or local laws or regulations. This permit is not a waiver of or approval of any other Department permit that may be required for other aspects of the total project which are not addressed in the permit.
4. This permit conveys no title to land or water, does not constitute State recognition or acknowledgment of title, and does not constitute authority for the use of submerged lands unless herein provided and the necessary title or leasehold interests have been obtained from the State. Only the Trustees of the Internal Improvement Trust Fund may express State opinion as to title.
5. This permit does not relieve the permittee from liability for harm or injury to human health or welfare, animal, or plant life, or property caused by the construction or operation of this permitted source, or from penalties therefore; nor does it allow the permittee to cause pollution in contravention of F.S. and Department rules, unless specifically authorized by an order from the Department.
6. The permittee shall properly operate and maintain the facility and systems of treatment and control (and related appurtenances) that are installed or used by the permittee to achieve compliance with the conditions of this permit, as required by Department rules. This provision includes the operation of backup or auxiliary facilities or similar systems when necessary to achieve compliance with the conditions of the permit and when required by Department rules.

PERMITTEE:
Mark III Industries

Permit Number: AC 42-222347
Expiration Date: Dec. 31, 1994

GENERAL CONDITIONS:

7. The permittee, by accepting this permit, specifically agrees to allow authorized Department personnel, upon presentation of credentials or other documents as may be required by law and at a reasonable time, access to the premises, where the permitted activity is located or conducted to:

- a. Have access to and copy any records that must be kept under the conditions of the permit;
- b. Inspect the facility, equipment, practices, or operations regulated or required under this permit; and,
- c. Sample or monitor any substances or parameters at any location reasonably necessary to assure compliance with this permit or Department rules.

Reasonable time may depend on the nature of the concern being investigated.

8. If, for any reason, the permittee does not comply with or will be unable to comply with any condition or limitation specified in this permit, the permittee shall immediately provide the Department with the following information:

- a. a description of and cause of non-compliance; and,
- b. the period of noncompliance, including dates and times; or, if not corrected, the anticipated time the non-compliance is expected to continue, and steps being taken to reduce, eliminate, and prevent recurrence of the non-compliance.

The permittee shall be responsible for any and all damages which may result and may be subject to enforcement action by the Department for penalties or for revocation of this permit.

9. In accepting this permit, the permittee understands and agrees that all records, notes, monitoring data and other information relating to the construction or operation of this permitted source which are submitted to the Department may be used by the Department as evidence in any enforcement case involving the permitted source arising under the Florida Statutes or Department rules, except where such use is proscribed by Sections 403.73 and 403.111, F.S. Such evidence shall only be used to the extent it is consistent with the Florida Rules of Civil Procedure and appropriate evidentiary rules.

PERMITTEE:
Mark III Industries

Permit Number: AC 42-222347
Expiration Date: Dec. 31, 1994

GENERAL CONDITIONS:

10. The permittee agrees to comply with changes in Department rules and F.S. after a reasonable time for compliance, provided, however, the permittee does not waive any other rights granted by F.S. or Department rules.

11. This permit is transferable only upon Department approval in accordance with F.A.C. Rules 17-4.120 and 17-30.300, as applicable. The permittee shall be liable for any non-compliance of the permitted activity until the transfer is approved by the Department.

12. This permit or a copy thereof shall be kept at the work site of the permitted activity.

13. The permittee shall comply with the following:

a. Upon request, the permittee shall furnish all records and plans required under Department rules. During enforcement actions, the retention period for all records will be extended automatically unless otherwise stipulated by the Department.

b. The permittee shall hold at the facility or other location designated by this permit records of all monitoring information (including all calibration and maintenance records and all original strip chart recordings for continuous monitoring instrumentation) required by the permit, copies of all reports required by this permit, and records of all data used to complete the application for this permit. These materials shall be retained at least three years from the date of the sample, measurement, report, or application unless otherwise specified by Department rule.

c. Records of monitoring information shall include:

- the date, exact place, and time of sampling or measurements;
- the person responsible for performing the sampling or measurements;
- the dates analyses were performed;
- the person responsible for performing the analyses;
- the analytical techniques or methods used; and,
- the results of such analyses.

PERMITTEE:
Mark III Industries

Permit Number: AC 42-222347
Expiration Date: Dec. 31, 1994

GENERAL CONDITIONS:

14. When requested by the Department, the permittee shall within a reasonable time furnish any information required by law which is needed to determine compliance with the permit. If the permittee becomes aware that relevant facts were not submitted or were incorrect in the permit application or in any report to the Department, such facts or information shall be corrected promptly.

SPECIFIC CONDITIONS:

1. Continuous operation is permitted (i.e., 24 hrs/day, 7 days/wk, and 52 wks/yr, for a total of 8,760 hrs/yr).
2. The total allowable volatile organic compounds/organic solvents (VOCs) emissions from the Ultraviolet Reactor Room (UVR) operations shall not exceed 125.0 TPY.
3. Visible emissions (VE) shall be less than 20% opacity pursuant to F.A.C. Rule 17-296.310(2).
4. Initial and annual VE compliance tests shall be conducted using EPA Reference Method 9 in accordance with F.A.C. Rule 17-297.401(9) and 40 CFR 60, Appendix A (July, 1991 version).
5. Objectionable odors shall not be allowed off plant property in accordance with F.A.C. Rule 17-296.320(2).
6. The UVR operations are subject to the provisions of F.A.C. Rules 17-210.650: Circumvention; 17-210.700: Excess Emissions; and, 17-4.130: Plant Operations-Problems.
7. The UVR operations are subject to all applicable provisions of F.A.C. Chapters 17-2 and 17-4; F.A.C. Chapters 17-210 thru 297; and, 40 CFR (July, 1991 version).
8. The Department's Southwest District office shall be notified in writing at least 15 days prior to conducting compliance tests in accordance with F.A.C. Rule 17-297.340(1)(i). The test reports shall be submitted to the Department's Southwest District office no later than 45 days after the last sampling run of each test is completed in accordance with F.A.C. Rule 17-297.570(2).
9. A material balance scheme shall be employed to account for VOC emissions and shall include the following:
 - a. Initial inventory of all VOCs;
 - b. Deliveries of all VOC material after the initial inventory;
 - c. Quantification of VOCs recycled or collected and shipped to an approved waste facility after the initial inventory;

PERMITTEE:
Mark III Industries

Permit Number: AC 42-222347
Expiration Date: Dec. 31, 1994

SPECIFIC CONDITIONS:

- d. Ending inventory of all VOCs (12 calendar months after the initial inventory); and,
- e. Emissions must be verifiable on a monthly basis.

NOTE: It will be assumed that any VOCs used and not accounted for by recycling or collected and shipped to an approved waste handling facility were emitted into the atmosphere.

10. Due to a synthetic minor facility designation (i.e., 249.0 TPY VOC), a quarterly operation report shall be submitted to the Department's Southwest District office by the 10th of the month following the last quarter of operations accounting for the VOC emissions from the UVRP operations; and, the report shall be accountable on a monthly basis. The quarters shall be January - March; April - June; July - September; and, October - December.

11. The vent stacks shall be installed such that pollutant emissions exit in the vertical plane.

12. The permittee, for good cause, may request that this construction permit be extended. Such a request shall be submitted to the Department's Bureau of Air Regulation prior to 60 days before the expiration of the permit (F.A.C. Rule 17-4.090).

13. An application for an operation permit must be submitted to the Department's Southwest District office at least 90 days prior to the expiration date of this construction permit. To properly apply for an operation permit, the applicant shall submit the appropriate application form, processing fee, certification that construction was completed noting any deviations from the conditions in the construction permit, and compliance test reports as required by this permit (F.A.C. Rules 17-4.055 and 17-4.220).

Florida Department of Environmental Regulation

Twin Towers Office Bldg. • 2600 Blair Stone Road • Tallahassee, Florida 32399-2400

Lawton Chiles, Governor

Carol M. Browner, Secretary

PERMITTEE:

Mark III Industries
5401 N.W. 44th Avenue
Ocala, Florida 32675

Permit Number: AC 42-222353
Expiration Date: Dec. 31, 1994
County: Marion
Latitude/Longitude: 29°11'00"N
82°15'24"W

Project: Paint Spray Booth
Operations Modification

This permit is issued under the provisions of Chapter 403, Florida Statutes (F.S.); Florida Administrative Code (F.A.C.) Chapters 17-2 and 17-4; F.A.C. Chapters 17-210, 17-212, 17-272, 17-275, 17-296, and 17-297; and, 40 CFR (July, 1991 version). The above named permittee is hereby authorized to perform the work or operate the facility shown on the application and approved drawing(s), plans, and other documents attached hereto or on file with the Department and made a part hereof and specifically described as follows:

For a modification to the existing Paint Spray Booth (PSB) operations, which will allow an increase in the allowable VOC (volatile organic compounds/organic solvents) emissions from 100 TPY to 124 TPY. The facility will become a synthetic minor facility (i.e., 249.0 TPY VOC).

The UTM coordinates are Zone 17, 377.81 km East and 3228.77 km North.

The Standard Classification Codes are:

- o 4-02-016-31 Topcoat (# of vehicles processed)

The source shall be constructed/modified in accordance with the permit application, plans, documents, amendments and drawings, except as otherwise noted in the General and Specific Conditions.

Attachments are listed below:

1. Application to Construct Air Pollution Sources, DER Form 17-1.202(1), and processing fee received December 1, 1992.
2. Technical Evaluation and Preliminary Determination dated December 2, 1992.

PERMITTEE:
Mark III Industries

Permit Number: AC 42-222353
Expiration Date: Dec. 31, 1994

GENERAL CONDITIONS:

1. The terms, conditions, requirements, limitations, and restrictions set forth in this permit are "Permit Conditions" and are binding and enforceable pursuant to Sections 403.161, 403.727, or 403.859 through 403.861, F.S. The permittee is placed on notice that the Department will review this permit periodically and may initiate enforcement action for any violation of these conditions.

2. This permit is valid only for the specific processes and operations applied for and indicated in the approved drawings or exhibits. Any unauthorized deviation from the approved drawings, exhibits, specifications, or conditions of this permit may constitute grounds for revocation and enforcement action by the Department.

3. As provided in Subsections 403.087(6) and 403.722(5), F.S., the issuance of this permit does not convey any vested rights or any exclusive privileges. Neither does it authorize any injury to public or private property or any invasion of personal rights, nor any infringement of federal, state or local laws or regulations. This permit is not a waiver of or approval of any other Department permit that may be required for other aspects of the total project which are not addressed in the permit.

4. This permit conveys no title to land or water, does not constitute State recognition or acknowledgment of title, and does not constitute authority for the use of submerged lands unless herein provided and the necessary title or leasehold interests have been obtained from the State. Only the Trustees of the Internal Improvement Trust Fund may express State opinion as to title.

5. This permit does not relieve the permittee from liability for harm or injury to human health or welfare, animal, or plant life, or property caused by the construction or operation of this permitted source, or from penalties therefore; nor does it allow the permittee to cause pollution in contravention of F.S. and Department rules, unless specifically authorized by an order from the Department.

6. The permittee shall properly operate and maintain the facility and systems of treatment and control (and related appurtenances) that are installed or used by the permittee to achieve compliance with the conditions of this permit, as required by Department rules. This provision includes the operation of backup or auxiliary facilities or similar systems when necessary to achieve compliance with the conditions of the permit and when required by Department rules.

PERMITTEE:
Mark III Industries

Permit Number: AC 42-222353
Expiration Date: Dec. 31, 1994

GENERAL CONDITIONS:

7. The permittee, by accepting this permit, specifically agrees to allow authorized Department personnel, upon presentation of credentials or other documents as may be required by law and at a reasonable time, access to the premises, where the permitted activity is located or conducted to:

- a. Have access to and copy any records that must be kept under the conditions of the permit;
- b. Inspect the facility, equipment, practices, or operations regulated or required under this permit; and,
- c. Sample or monitor any substances or parameters at any location reasonably necessary to assure compliance with this permit or Department rules.

Reasonable time may depend on the nature of the concern being investigated.

8. If, for any reason, the permittee does not comply with or will be unable to comply with any condition or limitation specified in this permit, the permittee shall immediately provide the Department with the following information:

- a. a description of and cause of non-compliance; and,
- b. the period of noncompliance, including dates and times; or, if not corrected, the anticipated time the non-compliance is expected to continue, and steps being taken to reduce, eliminate, and prevent recurrence of the non-compliance.

The permittee shall be responsible for any and all damages which may result and may be subject to enforcement action by the Department for penalties or for revocation of this permit.

9. In accepting this permit, the permittee understands and agrees that all records, notes, monitoring data and other information relating to the construction or operation of this permitted source which are submitted to the Department may be used by the Department as evidence in any enforcement case involving the permitted source arising under the F.S. or Department rules, except where such use is proscribed by Sections 403.73 and 403.111, F.S. Such evidence shall only be used to the extent it is consistent with the Florida Rules of Civil Procedure and appropriate evidentiary rules.

PERMITTEE:
Mark III Industries

Permit Number: AC 42-222353
Expiration Date: Dec. 31, 1994

GENERAL CONDITIONS:

10. The permittee agrees to comply with changes in Department rules and F.S. after a reasonable time for compliance, provided, however, the permittee does not waive any other rights granted by F.S. or Department rules.

11. This permit is transferable only upon Department approval in accordance with F.A.C. Rules 17-4.120 and 17-30.300, as applicable. The permittee shall be liable for any non-compliance of the permitted activity until the transfer is approved by the Department.

12. This permit or a copy thereof shall be kept at the work site of the permitted activity.

13. The permittee shall comply with the following:

a. Upon request, the permittee shall furnish all records and plans required under Department rules. During enforcement actions, the retention period for all records will be extended automatically unless otherwise stipulated by the Department.

b. The permittee shall hold at the facility or other location designated by this permit records of all monitoring information (including all calibration and maintenance records and all original strip chart recordings for continuous monitoring instrumentation) required by the permit, copies of all reports required by this permit, and records of all data used to complete the application for this permit. These materials shall be retained at least three years from the date of the sample, measurement, report, or application unless otherwise specified by Department rule.

c. Records of monitoring information shall include:

- the date, exact place, and time of sampling or measurements;
- the person responsible for performing the sampling or measurements;
- the dates analyses were performed;
- the person responsible for performing the analyses;
- the analytical techniques or methods used; and,
- the results of such analyses.

PERMITTEE:
Mark III Industries

Permit Number: AC 42-222353
Expiration Date: Dec. 31, 1994

GENERAL CONDITIONS:

14. When requested by the Department, the permittee shall within a reasonable time furnish any information required by law which is needed to determine compliance with the permit. If the permittee becomes aware that relevant facts were not submitted or were incorrect in the permit application or in any report to the Department, such facts or information shall be corrected promptly.

SPECIFIC CONDITIONS:

1. Continuous operation is permitted (i.e., 24 hrs/day, 7 days/wk, and 52 wks/yr, for a total of 8,760 hrs/yr).
2. The total allowable volatile organic compounds/organic solvents (VOCs) emissions from the Paint Spray Booth (PSB) operations shall not exceed 124.0 TPY.
3. Visible emissions (VE) shall be less than 20% opacity pursuant to F.A.C. Rule 17-296.310(2).
4. Initial and annual VE compliance tests shall be conducted using EPA Reference Method 9 in accordance with F.A.C. Rule 17-297.401(9) and 40 CFR 60, Appendix A (July, 1991 version).
5. Objectionable odors shall not be allowed off plant property in accordance with F.A.C. Rule 17-296.320(2).
6. The PSB operations are subject to the provisions of F.A.C. Rules 17-210.650: Circumvention; 17-210.700: Excess Emissions; and, 17-4.130: Plant Operations-Problems.
7. The PSB operations are subject to all applicable provisions of F.A.C. Chapters 17-2 and 17-4; F.A.C. Chapters 17-210 thru 297; and, 40 CFR (July, 1991 version).
8. The Department's Southwest District office shall be notified in writing at least 15 days prior to conducting compliance tests in accordance with F.A.C. Rule 17-297.340(1)(i). The test reports shall be submitted to the Department's Southwest District office no later than 45 days after the last sampling run of each test is completed in accordance with F.A.C. Rule 17-297.570(2).
9. A material balance scheme shall be employed to account for VOC emissions and shall include the following:
 - a. Initial inventory of all VOCs;
 - b. Deliveries of all VOC material after the initial inventory;
 - c. Quantification of VOCs recycled or collected and shipped to an approved waste facility after the initial inventory;

PERMITTEE:
Mark III Industries

Permit Number: AC 42-222353
Expiration Date: Dec. 31, 1994

SPECIFIC CONDITIONS:

- d. Ending inventory of all VOCs (12 calendar months after the initial inventory); and,
- e. Emissions must be verifiable on a monthly basis.

NOTE: It will be assumed that any VOCs used and not accounted for by recycling or collected and shipped to an approved waste handling facility were emitted into the atmosphere.

10. Due to a synthetic minor facility designation (i.e., 249.0 TPY VOC), a quarterly operation report shall be submitted to the Department's Southwest District office by the 10th of the month following the last quarter of operations accounting for the VOC emissions from the PSB operations; and, the report shall be accountable on a monthly basis. The quarters shall be January - March; April - June; July - September; and, October - December.

11. The vent stacks shall be installed such that pollutant emissions exit in the vertical plane.

12. The permittee, for good cause, may request that this construction permit be extended. Such a request shall be submitted to the Department's Bureau of Air Regulation prior to 60 days before the expiration of the permit (F.A.C. Rule 17-4.090).

13. An application for an operation permit must be submitted to the Department's Southwest District office at least 90 days prior to the expiration date of this construction permit. To properly apply for an operation permit, the applicant shall submit the appropriate application form, processing fee, certification that construction was completed noting any deviations from the conditions in the construction permit, and compliance test reports as required by this permit (F.A.C. Rules 17-4.055 and 17-4.220).
