## NOTICE OF FINAL PERMIT

### CERTIFIED MAIL-RETURN RECEIPT REQUESTED

In the Matter of an  
Application for Permit by:

Mr. Carl Ruder  
Vice President Operations  
Flair Corporation  
4647 S.W. 40<sup>th</sup> Avenue  
Ocala, Florida 34474-5722

DEP File No.: 0830084-007-AF  
Marion County

Dear Mr. Ruder:

Enclosed is Final Permit Number 0830084-007-AF. This permit authorizes Flair Corporation to operate a metal products fabrication and surface coating facility. The facility is located at 4647 S.W. 40<sup>th</sup> Avenue, Ocala, Marion County, Florida. This permit is issued pursuant to Section(s) 403.087, Florida Statutes.

A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative proceeding (hearing) under sections 120.569 and 120.57 of the Florida Statutes. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida 32399-3000. Petitions filed by the permit applicant or any of the parties listed below must be filed within fourteen days of receipt of this notice of intent. Petitions filed by any persons other than those entitled to written notice under section 120.60(3) of the Florida Statutes must be filed within fourteen days of publication of the public notice or within fourteen days of receipt of this notice of intent, whichever occurs first. Under section 120.60(3), however, any person who asked the Department for notice of agency action may file a petition within fourteen days of receipt of that notice, regardless of the date of publication. A petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under sections 120.569 and 120.57 F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with rule 28-106.205 of the Florida Administrative Code.

A petition that disputes the material facts on which the Department's action is based must contain the following information:

(a) The name and address of each agency affected and each agency's file or identification number, if known; (b) The name, address, and telephone number of the petitioner; the name, address,

and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the agency determination; (c) A statement of when and how the petitioner received notice of the agency action or proposed action; (d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate; (e) A concise statement of the ultimate facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the agency's proposed action; (f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the agency's proposed action; and (g) A statement of the relief sought by the petitioner, stating precisely the action petitioner wishes the agency to take with respect to the agency's proposed action.

A petition that does not dispute the material facts upon which the Department's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by rule 28-106.301 of the Florida Administrative Code.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this notice. Persons whose substantial interests will be affected by any such final decision of the Department on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

Mediation is not available in this proceeding.

Any party to this order has the right to seek judicial review of it under section 120.68 of the Florida Statutes, by filing a notice of appeal under rule 9.110 of the Florida Rules of Appellate Procedure with the clerk of the Department of Environmental Protection in the Office of General Counsel, 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida 32399-3000, and by filing a copy of the notice of appeal accompanied by the applicable filing fees with the appropriate district court of appeal. The notice must be filed within thirty days after this order is filed with the clerk of the Department.

Executed in Hillsborough County, Florida.

## **PERMITTEE:**

Flair Corporation  
4647 S.W. 40th Avenue  
Ocala, FL 34474-5722

**Permit No.:** 0830084-007-AF

**Effective Date:** 02/08/2008

**Expiration Date:** 02/08/2013

**County:** Marion

**Project:** Metal Products  
Fabrication with  
Surface Coating

This permit is issued under the provisions of Chapter 403, Florida Statutes, and Florida Administrative Code Chapters 62-204, 62-210, 62-212, 62-213, 62-296, 62-297, and Chapter 62-4. The above named permittee is hereby authorized to perform the work or operate the facility shown on the application and approved drawing(s), plans and other documents, attached hereto or on file with the Florida Department of Environmental Protection.

This is a Federally Enforceable State Operation Permit (FESOP) for the operation of a metal fabrication facility which manufactures various types of compressed air dryers. Production process steps include cutting, welding, sandblasting, surface coating, curing and assembly.

The surface coating operations are divided into three process areas. In the main manufacturing building volatile organic compound (VOC) based coatings are applied to sandblasted fabricated work pieces in one of two painting spray booths. In another building Teflon coatings are applied to sandblasted fabricated work pieces. These processes and equipment are described in more detail below.

### Sandblast Room

Large fabricated workpieces are first sandblasted in Room # 1 (Large Empire Sandblast Room) using an Empire Abrasive Equipment Corporation, Model 1320-10 sandblaster equipped with a CP Environmental Filters, Inc. Model 84NF042 pulse jet dust collector to control particulate matter emissions. On infrequent occasions (approximately 3 times per year) when fabricated workpieces are too large to fit into the booth, sandblasting is done on a slab outside the building in the partially enclosed Large Assembly Area (duration is generally one day each of sandblasting and spray painting per event).

### Paint Spray Booths

After sandblasting, the workpieces are moved into either the large paint booth (a modified downdraft Binks Model 30-1800 spray booth) or into the small paint booth (a Binks SpraCure Really Clean AARC-50-630 spray booth). Each booth is equipped with filter arrestors to collect overspray and a fan to exhaust fumes generated inside the booth out through separate ~45 foot tall exhaust stacks. Each booth also has an associated spray gun cleaning station.

**PERMITTEE:**  
Flair Corporation

**PERMIT No.:** 0830084-007-AF  
**PROJECT:** Metal Products Fabrication with  
Surface Coating

Teflon Coating Area

In this area fabricated workpieces are first sandblasted in the Teflon Sandblaster using a Delong Model SB-2 sandblaster equipped with a Dollinger Dust Collector - Zero Air Cartridge Fabric Filter (EU 002) to control particulate matter emissions. From the sandblasting room the workpieces are then moved into the Teflon Coating Booth which vents outside through an 18 foot tall stack. The pieces then move to a curing area.

*Note: This description is included for process description purposes only - the Teflon Coating Booth and curing area are exempt from permitting on the basis that the VOC emissions are generically exempt (less than 5 tons per year).*

Exempt/Insignificant Activities (for information only)

- Teflon Coating and Curing (Rule 62-210.300(3), F.A.C.)
- Welding (Rule 62-210.300(3), F.A.C.)
- Recycle Still (closed loop system to recycle spent solvents) (Rule 62-4.040, F.A.C.)
- Glove Box Sandblast Unit (small sandblast unit equipped with a dust collector which vents inside the manufacturing building) (Rule 62-4.040, F.A.C.)

Facility Information Summary

**Location:** 4647 S.W. 40th Avenue, Ocala (west of I-75)

**UTM:** 17-384.6 E 3224.2 N **Latitude:** 29°08'27.97" N **Longitude:** 82°11'11.81" W

**Facility ID No:** 0830084

Emission Unit (EU) ID No.	Description
001	Surface Coating Operations
002	Sandblasting Operations

*Note: Please reference Permit No., Facility ID No., and Emission unit ID No. in all correspondence, test report submittals, applications, etc.*

Note on Emission Unit (E.U.) identification: For the purposes of emission inventory and compliance tracking, E.U. 001 is assigned to the two (2) spray painting booths and E.U. 002 is assigned to the two (2) sandblasters.

Affected Permits: This permit replaces Federally Enforceable State Operation Permit 0830084-006-AF.

**PERMITTEE:**  
Flair Corporation

**PERMIT No.:** 0830084-007-AF  
**PROJECT:** Metal Products Fabrication with  
Surface Coating

**Title V Applicability:** Based upon the limitations contained in Specific Condition Nos. 4 and 5, this facility is considered a synthetic non-Title V minor source in accordance with the definition given in Rule 62-210.200, F.A.C.

**Attachments to this permit:** General conditions (*version dated 11/01/05*)

## **SPECIFIC CONDITIONS**

1. **General Conditions** - The attached 15 General Conditions are part of this permit.  
[Rule 62-4.160, F.A.C.]

2. **Other Requirements** - Issuance of this permit does not relieve the permittee from complying with applicable emission limiting standards or other requirements of Chapters 62-204, 62-210, 62-212, 62-213, 62-296, and 62-297 F.A.C., or any other requirements under federal, state, or local law.  
[Rule 62-210.300, F.A.C.]

## **Operation and Emission Limitations**

3. **Operating Hours** - This facility is permitted to operate continuously, 8,760 hours per year.  
[Rule 62-210.200 ("Potential to Emit"), F.A.C.; Construction Permit 0830084-005-AC]

4. **Volatile Organic Compounds (VOC) Emissions** - Total emissions of VOCs (including any clean-up solvents) from this facility shall not exceed 37.1 tons per any 12 consecutive month period.  
[Rule 62-210.200 ("Potential to Emit"), F.A.C.; Construction Permit 0830084-005-AC]

5. **Hazardous Air Pollutants (HAP) Emissions** - Total emissions of HAPs from this facility shall not exceed 5.0 tons per any 12 consecutive month period.  
[Rule 62-210.200 ("Potential to Emit"), F.A.C.; Construction Permit 0830084-005-AC]

5. **General Pollutant Emission Limiting Standard: Objectionable Odor Prohibited** - No person shall cause, suffer, allow or permit the discharge of air pollutants which cause or contribute to an objectionable odor. An objectionable odor is any odor present in the outdoor atmosphere which by itself or in combination with other odors, is or may be harmful or injurious to human health or welfare, which unreasonably interferes with the comfortable use and enjoyment of life or property, or which creates a nuisance.  
[Rules 62-210.200 ("Objectionable Odor") and 62-296.320(2), F.A.C.]

6. **General Pollutant Emission Limiting Standards: Volatile Organic Compound Emissions and/or Organic Solvent Emissions** - The permittee shall not store, pump, handle, process, load, unload, or use in any process or installation materials containing volatile organic compounds (VOC) or organic solvents (OS) without applying known and existing vapor emission control devices or systems deemed necessary and ordered by the Department. The following procedures shall be utilized to minimize pollutant emissions:

**PERMITTEE:**  
Flair Corporation

**PERMIT No.:** 0830084-007-AF  
**PROJECT:** Metal Products Fabrication with  
Surface Coating

6. (continued)

- a. maintain tightly fitting cover, lids, etc, on all containers of VOC/OS when they are not being handled, tapped, etc;
- b. prevent excessive air turbulence across exposed VOC/OS;
- c. where possible and practical, procure/fabricate a tightly fitting cover for any open trough, basin, bath, etc. of VOC/OS so that it can be covered when not in use;
- d. all equipment, pipes, hoses, fittings, valve lines, etc. shall be properly maintained in such a manner as to minimize leaks, fugitive emissions and spills of paints and solvent materials; and
- e. all VOC/OS spills shall be attended to immediately and the waste properly disposed of, recycled, etc.

[Rule 62-296.320(1)(a), F.A.C.; Construction Permit 0830084-005-AC]

7. General Pollutant Emission Limiting Standard: Visible Emissions - No person shall cause, let, permit, suffer or allow to be discharged into the atmosphere the emissions of air pollutants from any activity, the density of which is equal to or greater than that designated as Number 1 on the Ringelmann Chart (20 percent opacity). EPA Method 9 is the method of compliance pursuant to Chapter 62-297, F.A.C.  
[Rule 62-296.320(4)(b)1, F.A.C.]

8. General Pollutant Emission Limiting Standard: Unconfined Emissions of Particulate Matter - No person shall cause, let, permit, suffer or allow the emissions of unconfined particulate matter from any activity, including vehicular movement, transportation of materials, construction, alteration, demolition or wrecking, or industrial related activities such as loading, unloading, storing and handling.  
[Rule 62-296.320(4)(c), F.A.C.]

9. Restrictions on Other Sandblasting Activities - Sandblasting of work pieces outside of the sandblaster rooms shall only be allowed in the special and infrequent instance that the work piece is too large to fit into the large sandblaster. If this occurs on a frequent basis (i.e. more than once a month), then provisions shall be made to enlarge the large sandblasting room to accommodate larger work pieces. Outdoor sandblasting shall be immediately discontinued if wind/weather conditions result in fugitive particulate matter emissions which visibly cross the plant property line.  
[Rules 62-4.070(3), and 62-296.320(4)(c), F.A.C.; Construction Permit 0830084-005-AC]

10. Circumvention of Air Pollution Control Device (applicable to EU 001) - The permittee shall not circumvent any air pollution control device or allow the emissions of air pollutants without the applicable spray booth air pollution control device (i.e. spray booth filter arrestors) in place and operating properly. In order to provide reasonable assurance that the overspray from each paint booth is being controlled by the paint arrestor filters, the visible emissions from each paint booth exhaust stack should not exceed 5% opacity. If the exhaust stack visible emissions exceed 5% opacity, the Department will not consider this a violation, but an indication that additional controls may be required.  
[Rules 62-4.070(3) and 62-210.650, F.A.C.; Construction Permit 0830084-005-AC]

**PERMITTEE:**  
Flair Corporation

**PERMIT No.:** 0830084-007-AF  
**PROJECT:** Metal Products Fabrication with  
Surface Coating

**11. Circumvention of Air Pollution Control Device (applicable to EU 002)** - The permittee shall not circumvent any air pollution control device or allow the emissions of air pollutants without the applicable sandblaster air pollution control device (i.e. fabric filter dust collector) in place and operating properly. In order to provide reasonable assurance that fabric filter dust collectors are being properly maintained and operated, the visible emissions from each sandblaster fabric filter exhaust stack should not exceed 5% opacity. If the exhaust stack visible emissions exceed 5% opacity, the Department will not consider this a violation of a visible emission standard, but will consider it as an indication that the control device is not being operated and maintained properly in accordance with the requirements of this condition. [Rules 62-4.070(3) and 62-210.650, F.A.C.; Construction Permit 0830084-005-AC]

#### **Compliance Test Methods and Procedures**

**12. Visible Emissions (VE) Testing (applicable to EU 002 only)** - In order to document compliance with Specific Condition No. 11., each of the two (2) sandblaster exhaust stacks shall be tested for visible emissions within the 60 day period prior to submittal of an operation permit renewal application. [Rule 62-297.310(7)(a)3., F.A.C.]

**13. VE Test Method** - Visible emissions shall be determined using EPA Method 9 contained in 40 CFR 60, Appendix A and adopted by reference in Rule 62-204.800, F.A.C. The minimum requirements for stationary point source emissions test procedures and reporting shall be in accordance with Chapter 62-297, F.A.C. and 40 CFR 60, Appendix A. [Rule 62-297.401(9), F.A.C.]

**14. VE Test Requirements** - The visible emissions (VE) test shall be conducted by a certified observer and be a minimum of thirty (30) minutes in duration. The test observation period shall be during active sandblasting operations and include the period during which the highest opacity can reasonably be expected to occur. [Rule 62-297.310(4)(a)(2), F.A.C.]

**15. VE Testing Notification** - The permittee shall notify the Air Compliance Section of this office in writing at least 15 days prior to the date on which the compliance test is to begin. The notice shall include, the date, time, and place of each test, and the test contact person who will be responsible for coordinating and having each test conducted. [Rule 62-297.310(7)(a)9., F.A.C.]

**16. Test Report Requirements** - The test results shall be submitted to the Air Compliance Section of the Department's Southwest District within 45 days of testing. The test report submittal shall meet all applicable requirements of Chapter 62-297, F.A.C. [Rule 62-297.310(8), F.A.C.]

#### **Recordkeeping and Reporting Requirements**

**17. VOC and HAP Recordkeeping** - The permittee shall keep monthly logs to document compliance with the VOC and HAP limitations of Specific Condition Nos. 4 and 5. At the option of the permittee,

**PERMITTEE:**  
Flair Corporation

**PERMIT No.:** 0830084-007-AF  
**PROJECT:** Metal Products Fabrication with  
Surface Coating

**17. (continued)**

“purchases” may be used instead of “usage” in determining VOC/HAP emissions, provided that no materials are used which are not purchased. The logs shall include, but not be limited to, the following:

- a. facility name, facility ID No., emission unit ID No., and description (e.g., Flair Corporation., 0830084, E.U. 001, painting operations);
- b. month, year, and method used for records (usage or purchase);
- c. monthly total quantity, in gallons, of each VOC and/or HAP containing material used;
- d. most recent 12 consecutive month period cumulative material usage rate (in gallons per 12 consecutive month period) for each VOC and/or HAP containing material (based on c. above);
- e. percentage (%) by weight of VOCs and each individual HAP for each material;
- f. monthly total of VOC emissions (tons/month) based on c. and e. above;
- g. most recent 12 consecutive month period cumulative total VOC emissions (tons/12 consecutive month period) from surface coating and solvent material based on f. above;
- h. monthly total of HAP emissions (tons/month) based on c. and e. above; and
- i. most recent 12 consecutive month period cumulative total HAP emissions (tons/12 consecutive month period) from surface coating and solvent materials based on h. above.

The monthly logs shall be completed no later than 15 days after the end of each month. These records shall be maintained at the facility for at least two years and made available to the Department upon request. Supporting documentation (Material Safety Data Sheets (MSDS), EPA "As Supplied" data sheets, purchase orders, etc.) shall be kept for each VOC and HAP containing material used. Documentation for VOCs and/or HAPs reclaimed, recycled or disposed of, will use a mass balance method to determine net usage.

[Rule 62-4.070(3) F.A.C.; Construction Permit 0830084-005-AC]

**18. Additional Recordkeeping** - In order to document compliance with Specific Condition Nos. 9 and 10, the permittee shall maintain a record of the following:

- a. the date and time of all spray booth filter arrestor replacements; and
- b. the date, time, and duration of all occurrences of sandblasting of work pieces outdoors, along with an explanation of why each was necessary.

These records shall be recorded in a permanent form suitable for inspection by the Department upon request, and shall be retained for at least two years.

[Rule 62-4.070(3), F.A.C.; Construction Permit 0830084-005-AC]

**PERMITTEE:**  
Flair Corporation

**PERMIT No.:** 0830084-007-AF  
**PROJECT:** Metal Products Fabrication with  
Surface Coating

**19. Annual Operating Report** - Each calendar year on or before March 1, the permittee shall submit a completed DEP Form 62-210.900(5), "Annual Operating Report for Air Pollutant Emitting Facility" (AOR) for the preceding calendar year. The report may be submitted electronically in accordance with the instructions received with the AOR package sent by the Department, or a hardcopy may be sent to the Air Compliance section of the Southwest District of the Department.  
[Rule 62-210.370(3), F.A.C.]

**Operation Permit Renewal**

**20. Operation Permit Renewal Application** - The permittee shall submit a complete renewal application to the Air Permitting Section of the Department's Southwest District Office at least 60 days prior to the expiration date of this operation permit. To properly apply for an operation permit renewal, the applicant shall submit the following:

- a. appropriate operation permit application form (see current version of Rule 62-210.900, F.A.C. and/or FDEP Division of Air Resource Management website at <http://www.dep.state.fl.us/air/>);
- b. appropriate operation permit application fee in accordance with Rule 62-4.050(4)(a), F.A.C.;
- c. a copy of the most recent sandblaster visible emissions test reports (*Specific Condition No. 16.*);
- d. copies of the monthly VOC/HAP log (*Specific Condition No. 17.*) for the most recent 2 months.

[Rules 62-4.070(3), 62-4.050, 62-210.300(2), and 62-210.900 F.A.C.]

STATE OF FLORIDA DEPARTMENT  
OF ENVIRONMENTAL PROTECTION

Mara Grace Nasca  
District Air Program Administrator  
Southwest District

## ATTACHMENT - GENERAL CONDITIONS

1. The terms, conditions, requirements, limitations and restrictions set forth in this permit, are "Permit Conditions" and are binding and enforceable pursuant to Sections 403.141, 403.727, or 403.859 through 403.861, Florida Statutes (F.S.). The permittee is placed on notice that the Department will review this permit periodically and may initiate enforcement action for any violation of these conditions.
2. This permit is valid only for the specific processes and operations applied for and indicated in the approved drawings or exhibits. Any unauthorized deviation from the approved drawings, exhibits, specifications, or conditions of this permit may constitute grounds for revocation and enforcement action by the Department.
3. As provided in subsections 403.087(6) and 403.722(5), F.S., the issuance of this permit does not convey any vested rights or any exclusive privileges. Neither does it authorize any injury to public or private property or any invasion of personal rights, nor any infringement of federal, state, or local laws or regulations. This permit is not a waiver of or approval of any other Department permit that may be required for other aspects of the total project which are not addressed in this permit.
4. Not applicable to Air Permits.
5. This permit does not relieve the permittee from liability for harm or injury to human health or welfare, animal, or plant life, or property caused by the construction or operation of this permitted source, or from penalties therefore; nor does it allow the permittee to cause pollution in contravention of Florida Statutes and Department rules, unless specifically authorized by an order from the Department.
6. The permittee shall properly operate and maintain the facility and systems of treatment and control (and related appurtenances) that are installed and used by the permittee to achieve compliance with the conditions of this permit, are required by Department rules. This provision includes the operation of backup or auxiliary facilities or similar systems when necessary to achieve compliance with the conditions of the permit and when required by Department rules.
7. The permittee, by accepting this permit, specifically agrees to allow authorized Department personnel, upon presentation of credentials or other documents as may be required by law and at reasonable times, access to the premises where the permitted activity is located or conducted to:
  - a. Have access to and copy any records that must be kept under conditions of the permit;
  - b. Inspect the facility, equipment, practices, or operations regulated or required under this permit; and
  - c. Sample or monitor any substances or parameters at any location reasonable necessary to assure compliance with this permit or Department rules.

Reasonable time may depend on the nature of the concern being investigated.

8. If, for any reason, the permittee does not comply with or will be unable to comply with any condition or limitation specified in this permit, the permittee shall immediately provide the Department with the following information:
  - a. A description of and cause of noncompliance; and
  - b. The period of noncompliance, including dates and times; or, if not corrected, the anticipated time the noncompliance is expected to continue, and steps being taken to reduce, eliminate, and prevent recurrence of the noncompliance. The permittee shall be responsible for any and all damages which may result and may be subject to enforcement action by the Department for penalties or for revocation of this permit.

## ATTACHMENT - GENERAL CONDITIONS

9. In accepting this permit, the permittee understands and agrees that all records, notes, monitoring data and other information relating to the construction or operation of this permitted source which are submitted to the Department may be used by the Department as evidence in any enforcement case involving the permitted source arising under the Florida Statutes or Department rules, except where such use is prescribed by Section 403.111 and 403.73, F.S. Such evidence shall only be used to the extent it is consistent with the Florida Rules of Civil Procedure and appropriate evidentiary rules.

10. The permittee agrees to comply with changes in Department rules and Florida Statutes after a reasonable time for compliance; provided, however, the permittee does not waive any other rights granted by Florida Statutes or Department rules.

11. This permit is transferable only upon Department approval in accordance with Rule 62-4.120 and 62-730.300 F.A.C., as applicable. The permittee shall be liable for any non-compliance of the permitted activity until the transfer is approved by the Department.

12. This permit or a copy thereof shall be kept at the work site of the permitted activity.

13. This permit also constitutes:

- Determination of Best Available Control Technology (BACT)
- Determination of Prevention of Significant Deterioration (PSD)
- Compliance with New Source Performance Standards (NSPS)

14. The permittee shall comply with the following:

- a. Upon request, the permittee shall furnish all records and plans required under Department rules. During enforcement actions, the retention period for all records will be extended automatically unless otherwise stipulated by the Department.
- b. The permittee shall hold at the facility or other location designated by this permit records of all monitoring information (including all calibration and maintenance records and all original strip chart recordings for continuous monitoring instrumentation) required by the permit, copies of all reports required by this permit, and records of all data used to complete the application for this permit. These materials shall be retained at least three years from the date of the sample, measurement, report, or application unless otherwise specified by Department rule.
- c. Records of monitoring information shall include:
  - 1. the date, exact place, and time of sampling or measurements;
  - 2. the person responsible for performing the sampling or measurements;
  - 3. the dates analyses were performed;
  - 4. the person responsible for performing the analyses;
  - 5. the analytical techniques or methods used;
  - 6. the results of such analyses.

15. When requested by the Department, the permittee shall within a reasonable time furnish any information required by law which is needed to determine compliance with the permit. If the permittee becomes aware the relevant facts were not submitted or were incorrect in the permit application or in any report to the Department, such facts or information shall be corrected promptly.

16. Not applicable to Air Permits.

17. Not applicable to Air Permits.
