RE: Air Permit No. 0830084-006-AF

Ms. Henry,

Pursuant to our telephone conversation Friday, October 28, 2005, SPX Air Treatment respectfully requests the permittee name on the referenced permit be changed from:

SPX Air Treatment
4647 S. W. 40th Avenue,
Ocala, FL 34474-5722

to

Flair Corporation
4647 S. W. 40th Avenue,
Ocala, FL 34474-5722

This change will reflect the proper legal name for the permitted facility.

As you stated Friday, the change will be noted in DEP's database and will be noted on successive permits, while this letter, attached to the permit in Flair Corporations' possession, will document same.

Sincerely

Russ Reynolds
Vice President-Operations

MEMORANDUM

TO: Joel A. Smolen
Acting District Air Program Administrator

DATE: 7/25/05

THROUGH: Jason Waters, P.E.
Air Permitting Supervisor

FROM: Danielle Henry, Air Permitting Engineer 

SUBJECT: Company: SPX Air Treatment
Permit No: 1050157-006-AF
(Final Issuance)
County: Marion
Project: Metal Products Fabrication with Surface Coating
(Incorporate AC into AF)
Default Date (Day 90): 8/14/05

From the information below, I recommend that the Final Permit for SPX Air Treatment be signed.

SPX Air Treatment is a synthetically limited minor source metal products fabrication facility with surface coating operations. On March 18, 2005, the Department issued a construction permit for the replacement of one of the facility's two existing spray paint booths with a replacement booth being relocated from one of the company's other locations. The current construction permit 0830084-005-AC identified the changes with ~~striketrough~~ and ~~shading~~. An application to modify the current AF permit to include the replaced spray paint booth was received on May 16, 2005. I removed the ~~striketrough~~ and ~~shading~~ sections from the construction permit and revised the Renewal Application Specific Condition. No public notice is required with this permitting action because the Construction Permit 0830084-005-AC was already public noticed on 2/22/05. This office approved the publication and no comments were received on the construction permit.

I recommend issuance of this final modified Federally Enforceable State Operating Permit.

Subject: **Air Operation Permit Application**
Flair Corporation (*owned by SPX Corporation*)
Ocala, Florida
Permit No. 0830084-004-AF

Mr. Lon Snyder

Enclosed are two copies of the air operation permit application for the Flair Corporation facility, located in Ocala, Marion County, Florida. An air operation permit application fee in the amount of \$750.00 is also enclosed.

This application is being submitted for the operation of a Binks SpraCure Model AARC-50-630 spray paint booth. Volatile Organic Chemical (VOC) and Hazardous Air Pollutant (HAP) emissions will not increase above the current permitted limits of 37.1 tons VOC per year or <5.0 tons HAPs per year as a result of this addition; therefore, Flair Corporation is requesting this source be added to E.U.001 (Large Spray Painting Area) in Permit No. 0830084-004-AF.

Please contact me at (352) 873-5706 or Tony Rossano of Delta Environmental Consultants, Inc. at (704) 543-3907 if you have any questions.

Sincerely,

FLAIR CORPORATION
