

MEMORANDUM

TO: Jerry Kissel, P.E.
District Air Engineer

DATE: 06/02/97

FROM: David Zell *DZ*
Permit Engineer

SUBJECT: Company: Pneumatic Products Corporation
Permit No: 0830084-002-AC AC Final Issuance
County: Marion
Project: Metal Products Fabrication w/Surface Ctg

The Intent to Issue Public Notice for the above permit was published on 05/14/97. I have reviewed the proof of publication and verified that the correct notice was published.

I recommend issuance of this final permit, which is identical to the draft permit approved by this office as part of the Notice of Intent package.

GLORIA THOMAS Notary Public, State of Florida My Comm. Expires Nov. 22, 2000 Comm. No. CC 592990

STATE OF FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION NOTICE OF INTENT TO ISSUE PERMIT

The Department of Environmental Protection gives notice of its intent to issue an after-the-fact air pollution construction permit (Permit File No. 0830084-002-AC) to Pneumatic Products Corporation for the metal products fabrication facility located at 4647 S.W. 40th Avenue in Ocala, Marion County. (MAILING ADDRESS - Pneumatic Products Corporation, 4647 S.W. 40th Avenue, Ocala, FL 34474-1402 to the attention of Mr. Michael E. Gelinus, Vice President Operations).

A Best Available Control Technology (BACT) determination was not required.

The Department will issue the permit with the attached conditions unless a timely petition for an administrative hearing is filed pursuant to sections 120.569 and 120.57 of the Florida Statutes, or a party requests mediation as an alternative remedy under section 120.573 before the deadline for filing a petition. Choosing mediation will not adversely affect the right to a hearing if mediation does not result in a settlement. The procedures for petitioning for a hearing are set forth below, followed by the procedures for requesting mediation.

A person whose substantial interests are affected by the Department's proposed permitting decision may petition for an administrative hearing in accordance with sections 120.569 and 120.57 of the Florida Statutes. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000 within fourteen days of receipt of this notice of intent. A petitioner must mail a copy of the petition to the applicant at the address indicated above, at the time of filing. The failure of any person to file a petition for a request for mediation, as discussed below,

shall constitute a waiver of a person's right to request an administrative determination (hearings under sections 120.569 and 120.57 of the Florida Statutes) to intervene in this proceeding; participate as a party to it; subsequent intervention will only at the approval of the presiding officer upon the filing of a petition in compliance with rule 5.207 of the Florida Administrative Code.

A petition must contain the following:

- (a) The name, address, and telephone number of each petitioner; the applicant's name and address; the Department Permit File Number, and the county in which the project is proposed;
(b) A statement of how and when each petitioner received notice of the Department's action or proposed action;
(c) A statement of how each petitioner's substantial interests are affected by the Department's action or proposed action;
(d) A statement of the material facts disputed by the petitioner;
(e) A statement of the facts that the petitioner contends warrant reversal or modification of the Department's action or proposed action;
(f) A statement identifying the relief or states that the petitioner contends require reversal or modification of the Department's action or proposed action;
(g) A statement of the relief sought by the petitioner, stating precisely the action that the petitioner wants the Department to take with respect to the action or proposed action addressed in this notice of intent.

Because the administrative hearing process is designed to forestall final agency action, the filing of a petition means that the Department's final action may be different from the position taken in this permit. Persons whose substantial interests will be affected by any such final decision of the Department on the application have the right to petition to become a party to the proceeding in accordance with the requirements set forth above.

A person whose substantial interests are affected by the Department's proposed permitting decision, may elect to pursue mediation by asking all parties to the proceeding to agree to such mediation and by filing with the Department a request for mediation and the written agreement of all such parties to mediate the dispute. The request and agreement must be filed (received) by the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000, by the same deadline as set forth above for the filing of a petition.

A request for mediation must contain the following information: (a) The name, address, and telephone number of the person requesting mediation and that person's representative, if any; (b) A statement of the preliminary agency action; (c) A statement of the relief sought; and (d) Either an explanation of how the requester's substantial interests will be affected by the action or proposed action addressed in this notice of intent or a statement clearly identifying the petition hearing that the requester has already filed, and incorporating a reference to it.

The agreement to mediate must include the following: (a) The names, addresses, and telephone numbers of any persons who may attend the mediation; (b) The name, address, and telephone number of the mediator selected by the parties, or a provision for selecting a mediator within a specified time; (c) The agreed allocation of costs and fees associated with mediation; (d) The agreement of the parties to the confidentiality of discussions and documents introduced during mediation; (e) The date, time, and place of the first mediation session, or a deadline for holding the first session if no mediator has yet been chosen; (f) The name of each party's representative who shall have authority to settle or recommend settlement.

WEDNESDAY

MAY 14
1997

STATE OF FLORIDA
DEPARTMENT OF
ENVIRONMENTAL PROTECTION
NOTICE OF INTENT TO
ISSUE PERMIT

The Department of Environmental Protection gives notice of its intent to issue an alter-the-fact air pollution construction permit (Permit File No. 0830084-002-AC) to Pneumatic Products Corporation for the metal products fabrication facility located at 4647 S.W. 40th Avenue in Ocala, Marion County. (MAILING ADDRESS - Pneumatic Products Corporation, 4647 S.W. 40th Avenue, Ocala, FL 34474-1402 to the attention of Mr. Michael E. Gelinos, Vice President Operations).

A Best Available Control Technology (BACT) determination was not required.

The Department will issue the permit with the attached conditions unless a timely petition for an administrative hearing is filed pursuant to sections 120.569 and 120.57 of the Florida Statutes, or a party requests mediation as an alternative remedy under section 120.573 before the deadline for filing a petition. Choosing mediation will not adversely affect the right to a hearing if mediation does not result in a settlement. The procedures for petitioning for a hearing are set forth below, followed by the procedures for requesting mediation.

A person whose substantial interests are affected by the Department's proposed permitting decision may petition for an administrative hearing in accordance with sections 120.569 and 120.57 of the Florida Statutes. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000 within fourteen days of receipt of this notice of intent. A petitioner must mail a copy of the petition to the applicant at the address indicated above, at the time of filing. The failure of any person to file a petition for a request for mediation, as discussed below,

within the appropriate time period, shall constitute a waiver of that person's right to request an administrative determination (hearing) under sections 120.569 and 120.57 of the Florida Statutes, or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with rule 28-5.207 of the Florida Administrative Code.

A petition must contain the following:

- (a) The name, address, and telephone number of each petitioner, the applicant's name and address, the Department Permit File Number, and the county in which the project is proposed;
- (b) A statement of how and when each petitioner received notice of the Department's action or proposed action;
- (c) A statement of how each petitioner's substantial interests are affected by the Department's action or proposed action;
- (d) A statement of the material facts disputed by the petitioner, if any;
- (e) A statement of the facts that the petitioner contends warrant reversal or modification of the Department's action or proposed action;
- (f) A statement identifying the rules or statutes that the petitioner contends require reversal or modification of the Department's action or proposed action; and
- (g) A statement of the relief sought by the petitioner, stating precisely the action that the petitioner wants the Department to take with respect to the action or proposed action addressed in this notice of intent.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this permit. Persons whose substantial interests will be affected by any such final decision of the Department on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

A person whose substantial interests are affected by the Department's proposed permitting decision, may elect to pursue mediation by asking all parties to the proceeding to agree to such mediation and by filing with the Department a request for mediation and the written agreement of all such parties to mediate the dispute. The request and agreement must be filed in (received by) the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000, by the same deadline as set forth above for the filing of a petition.

A request for mediation must contain the following information:

- (a) The name, address, and telephone number of the person requesting mediation and that person's representative, if any;
- (b) A statement of the preliminary agency action;
- (c) A statement of the relief sought; and
- (d) Either an explanation of how the requester's substantial interests will be affected by the action or proposed action addressed in this notice of intent or a statement clearly identifying the petition for hearing that the requester has already filed, and incorporating it by reference.

The agreement to mediate must include the following:

- (a) The names, addresses, and telephone numbers of any persons who may attend the mediation;
- (b) The name, address, and telephone number of the mediator selected by the parties, or a provision for selecting a mediator within a specified time;
- (c) The agreed allocation of the costs and fees associated with the mediation;
- (d) The agreement of the parties on the confidentiality of discussions and documents introduced during mediation;
- (e) The date, time, and place of the first mediation session, or a deadline for holding the first session, if no mediator has yet been chosen;
- (f) The name of each party's representative who shall have authority to settle or recommend settlement; and
- (g) The signatures of all parties or their authorized representatives.

As provided in section 120.573 of the Florida Statutes, the timely agreement of all parties to mediate will toll the time limitations imposed by sections 120.569 and 120.57 for requesting and holding an administrative hearing. Unless otherwise agreed by the parties, the mediation must be concluded within sixty days of the execution of the agreement. If mediation results in settlement of the administrative dispute, the Department must enter a final order incorporating the agreement of the parties. Persons whose substantial interests will be affected by such a modified final decision of the Department have a right to petition for a hearing only in accordance with the requirements for such petitions set forth above. If mediation terminates without settlement of the dispute, the Department shall notify all parties in writing that the administrative hearing processes under sections 120.569 and 120.57 remain available for disposition of the dispute, and the notice will specify the deadlines that then will apply for challenging the agency action and electing remedies under those two statutes.

The application is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at 8407 Laurel Fair Boulevard, Tampa, Florida.
No. 59001 — May 14, 1997

STAR-BANNER

SECTION D
CLASSIFIEDS 6D

MEMORANDUM

TO: Jerry Kissel, P.E. *[Signature]* DATE: 04/18/97
District Air Engineer

FROM: David Zell, *[Signature]* Permit Engineer

SUBJECT: Company: Pneumatic Products Corporation
Permit No: 0830084-002-AC Intent to Issue
County: Marion
Project: Metal Products Fabrication
Default Date (Day 90): 06/02/97

An application for an after-the-fact construction permit for an existing metal products fabrication facility was received from Pneumatic Products Corporation on 03/05/97. This facility previously received a construction permit for the existing operation and for new construction (AC42-230254 issued on 12/06/93). This construction permit expired on 01/02/95 and the "new construction" modifications were never done. The current application is for only the existing equipment. This permit is completely re-written from the previously issued AC permit. Several of the conditions (e.g. *Specific Condition C3.*) in this permit were written to address Compliance Section concerns resulting from complaints received from nearby neighbors of this facility.

The proposed project consists of an existing metal fabrication facility which manufactures various types of compressed air dryers. Primary production process steps include saw cutting, welding, sandblasting, cleaning, painting/surface coating, curing and assembly. Particulate matter emissions from the sandblasting equipment are controlled by fabric filter dust collectors. Particulate matter emissions from paint booth overspray are controlled by filter arrestors installed in the spray booths. (See *Pages 1 and 2 of construction permit for more detailed description of process and equipment.*)

I recommend that this Intent to Issue and draft permit be sent out as attached and submit it for your review and approval.

Title V Applicability Note: Based upon the level of potential VOC and HAP emissions from this facility at worst case (i.e. 8,760 hours per year) operation, which are well below the Title V major source level, this facility is considered to be a natural minor non-Title V source.

HAP Limitation Note: Based upon the nature of the coating materials used at this facility and past usage data, actual emissions of total HAPs are not expected to exceed even 50% of the HAP limit contained in this permit. In turn, this HAP limit is only 50% of the individual HAP major source level and 20% of the total HAP major source level. On this basis reasonable assurance of compliance with this limit shall be provided by documentation of compliance with the total VOC limitation and no separate HAP recordkeeping was required.

SPRAY PAINTING OPERATION

STATUS: FILE NO.: 0830084-001-AC
ARMS DAY: 18
PERMIT ISSUED: 12/6/93
ORIGINAL EXPIRATION: 1/2/95
NOT A TITLE V FACILITY

The permittee has requested a second extension of the construction permit expiration date for their proposed paint operation.

The request states that they need time to assess whether the project should be modified to better meet their needs.

Based upon our review, we recommend that the amendment be issued.

BY _____

Dear Mr. Kissel:

I hereby respectfully request an extension on our existing CONSTRUCTION PERMIT, AC42-230254. Our project, to construct a new paint facility was on hold for a lengthy time but recently reactivated. I anticipate it coming to fruition in 1996.

Due to the lapse in time, we are reviewing the original process that the project entailed. It is very possible that the process will be modified somewhat to meet our current needs. I have discussed this with Mr. Taylor and he has advised me per letter dated October 24, 1995, of the steps that I will need to go through in order to revise the original permit.

The purpose of the permit modification is two fold; 1) update the existing construction permit to define precisely the Hazardous Air Pollutants (HAPs) at our facility and 2) update the process descriptions. The goal is to have our facility classified as a "NON-TITLE V" Facility

Enclosed is a check for \$50.00 for the extension fee as directed by Mr. Taylor.

I appreciate your attention in this matter.

Sincerely,

Steven A. Turrentine
Facilities Manager
