**Cc:** Walker, Elizabeth (AIR); Friday, Barbara  
**Subject:** Public Notice Publish Date for Parallel Review 0830104-006-AV

The A.S.A. MFG., Inc., Public Notice for the Draft/Proposed Title V Permit Revision was published in the Star-Banner on July 3, 2007. Therefore, the 30 day comment period began on July 4, 2007, and ends on August 3, 2007.

The Draft/Proposed Title V Permit Revision (0830104-006-AV) is being parallel processed concurrently.

I understand EPA will start its 45-day review period from the date the public notice was published (July 3, 2007). Thus, if EPA has no objections to the Proposed Permit, the Proposed Permit will become FINAL on the 46th day after July 3, 2007, which is August 18, 2007.

If you have any questions or if I have miscalculated the dates, please let me know.

Thanks!

Nancy E. Knight

**PUBLIC NOTICE OF INTENT  
TO ISSUE TITLE V AIR OPERATION  
PERMIT REVISION**  
Florida Department of Environmental Protection  
Southwest District

DRAFT/PROPOSED Permit Project No.: 0830104-006AV  
Revision to Title V Air Operation  
Permit No. 0830104-004-AV  
A.S.A. Manufacturing, Inc.  
Dunnellon, Marion County

The Florida Department of Environmental Protection Southwest District (permitting authority) gives notice of its intent to issue a Title V Air Operation Permit Revision to A.S.A. Manufacturing, Inc. for their facility located at 14879 SW 111th Street in Dunnellon, Marion County. This is a revision to Title V Air Operation Permit No. 0830104-004-AV. The permittee's name and address are: A.S.A. Manufacturing, Inc., 14879 SW 111th Street, Dunnellon, FL 34432, to the attention of: Mr. Todd DuPlessis, President.

The purpose of this Department-initiated revision is to incorporate the revised National Emissions Standards for Hazardous Air Pollutants (NESHAP, also referred to as a MACT standard) for Reinforced Plastic Composites Production, 40 CFR63 Subpart WWWW, into the facility's Title V operation permit.

EPA has agreed to treat the DRAFT Title V Permit as a PROPOSED Title V Permit and to perform its 45-day review provided by the law and regulations concurrently with the public comment period. Although EPA's 45-day review period will be performed concurrently with the public comment period, the deadline for submitting a citizen petition to object to the EPA Administrator will be determined as if EPA's 45 - day review period is performed after the public comment period has ended. The FINAL Title V Air Operation Permit Revision will be issued after the conclusion of the 45-day EPA review period so long as no adverse comments are received that results in a different decision or significant change of terms or conditions.

The status regarding EPA's 45-day review of this project and the deadline for submitting a citizen petition can be found at the following web site address:  
<http://www.epa.gov/region4/air/permits/Florida.htm>

The Permitting Authority will accept written comments concerning the DRAFT/PROPOSED Title V Air Operation Permit Revision for a period of thirty (30) days from the date of publication of this Public Notice. Written comments must be post-marked and all facsimile comments must be received by the close of business (5:00 pm), on or before the end of this 30 day period, by the Permitting Authority at 13051 N. Telecom Parkway, Temple Terrace, FL 33637-0926 or facsimile 813/632-7668. As part of his or her comments, any person may also request that the Permitting Authority hold a public meeting on this permitting action. If the Permitting Authority determines there is sufficient interest for a public meeting, it will publish notice of the time, date, and location in the Florida Administrative Weekly (<http://law.dos.state.fl.us/>) and in a newspaper of general circulation in the area affected by the permitting action. For additional information, contact the Permitting Authority at the above address or phone number. If written comments or comments received at a public meeting result in a significant change to the DRAFT/PROPOSED Permit, the Permitting Authority shall issue a Revised DRAFT Permit and require, if applicable, an other Public Notice. All comments filed will be made available for public inspection.

A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative hearing in accordance with Sections 120.569 and 120.57 of the Florida Statutes (F.S.). The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department of Environmental Protection, 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida 323993000 (Telephone: 850/488-9730, Fax: 850/487-4938). Petitions filed by any persons other than those entitled to written notice under Section 120.60(3), F.S., must be filed within fourteen days of publication of the public notice or within fourteen days of receipt of the notice of intent, whichever occurs first. Under Section 120.60(3), F.S., however, any person who asked the permitting authority for notice of agency action may file a petition within fourteen days of receipt of that notice, regardless of the date of publication. A petitioner shall mail a copy of the petition to the applicant at the address indicated above, at the time of filing. The failure of any person to file a petition within the applicable time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205 of the Florida Administrative Code (F.A.C.). A petition that disputes the material facts on which the permitting authority's action is based must contain the following information:

- (a) The name and address of each agency affected and each agency's file or identification number, if known;
- (b) The name, address and telephone number of the petitioner; name address and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how petitioner's substantial rights will be affected by the agency determination;
- (c) A statement of how and when the petitioner received notice of the agency action or proposed action;
- (d) A statement of all disputed issues of material fact. If there are none, the petition must so state;
- (e) A concise statement of the ultimate facts alleged, as well as the rules and statutes which entitle petitioner to relief;
- (f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the agency's proposed action; and,
- (g) A statement of the relief sought by the petitioner, stating precisely the action petitioner wishes the agency to take with respect to the agency's proposed action.

A petition that does not dispute the material facts upon which the permitting authority's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, F.A.C.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the permitting authority's final action may be different from the position taken by it in this notice of intent. Persons whose substantial interests will be affected by any such final decision of the permitting authority on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above. Mediation is not available for this proceeding. In addition to the above, pursuant to 42 United States Code (U.S.C.) Section 766d(b)(2), any person may petition the Administrator of the EPA within 60 (sixty) days of the expiration of the Administrator's 45 (forty-five) day review period as established at 42U.S.C. Section 7661d(b)(1), to object to issuance of any Title V permit. Any petition shall be based only on objections to the Title V permit that were raised with reasonable specificity during the 30 (thirty) day public comment period provided in this notice, unless the petitioner demonstrates to the Administrator of the EPA that it was impracticable to raise such objections within the comment period or unless the grounds for such objection arose after the comment period. Filing of a petition with the Administrator of the EPA does not stay the effective date of any Title V permit properly issued pursuant to the provisions of Chapter 62-213, F.A.C. Petitions filed with the Administrator of EPA must meet the requirements of 42 U.S.C. Section 7661d(b)(2) and must be filed with the Administrator of the EPA at : U.S. EPA, 401 M Street, S.W., Washington, D.C. 20460

A complete project file is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at:

**Permitting Authority:**  
Florida Department of Environmental Protection
