Hey Nancy,

I was just updating the website this week. I TRY to do it about once a week or so, but I was out of town some last week and got behind. It will be up there by COB today..

Everything in the email below seems correct to me.

Thanks,
katy

Subject
FW: Public Notice Publish Date
for Parallel Review
0830104-006-AV

The 30-day public notice period is up today (8/03/07) for the Title V Revision permit for A.S.A. MFG., Inc. (0830104-006-AV) and we have received no comments/petitions. As I noted in my previous 0718/07 email (see below), I think the EPA 45-Day review period will be up and the Permit become effective on Day 46 from the date of publication, which will be 08/18/07.

We ran a report off the EPA website this morning of Florida Proposed Title V Permits and A.S.A. was not on the list of Title V permits undergoing parallel review.

As I did not hear back from you as to whether the email below was correct and since the permit does not appear on the list mentioned above, can you please let me know if I have done everything properly?

Thanks

Nancy

Subject: Public Notice Publish Date for Parallel Review 0830104-006-AV

The A.S.A. MFG., Inc., Public Notice for the Draft/Proposed Title V Permit Revision was published in the Star-Banner on July 3, 2007. Therefore, the 30 day comment period began on July 4, 2007, and ends on August 3, 2007.

The Draft/Proposed Title V Permit Revision (0830104-006-AV) is being parallel processed concurrently.

I understand EPA will start its 45-day review period from the date the public notice was published (July 3, 2007). Thus, if EPA has no objections to the Proposed Permit, the Proposed Permit will become FINAL on the 46th day after July 3, 2007, which is August 18, 2007.

If you have any questions or if I have miscalculated the dates, please let me know.

Thanks!
