Joe,

Please let me know if further information is needed.

What kind of training are you in?

Kaye

Subject: 0830132

Good Morning Kaye,

I am in receipt of your application for facility 0830132. A few questions?

Does each side of the split silo have its **own baghouse mounted on top** or is it **one baghouse for both sides** of the

split silo? **There will be a baghouse for each side of the split silo.**

I see a new baghouse on the storage bin described with make, model # and specifications.—Good!

Then I see the loadout and weigh hopper have the same CDC (which I believe is a central dust collector), but their is no

make, model # or specifications for this equipment. It is not in our data base and I would like to update it. Can you please

provide it? **They have a ground mounted Vince Hagan Dust Collector, model VH-1094 Jet Pulse. This unit employs 0.80" of Polyester Fume gags as filter media.**

I am in training from 8-5 today and tomorrow. I will be in this morning until about 7:15-7:30 am and tomorrow from 6

am- until about 7:15-7:30 am if you need to talk with me or you can just email me and I will get back to you.

Thank you,
Joe

Please feel free to phone or email if you have further questions.
