Re: Air General Permit Registration Form

Dear Mr. Perry:

This is to acknowledge that the Concrete Batch Plant Air General Permit Registration Form for your facility located at 3599 S.W. 74th Ave., Ocala, FL 34474, was received on August 6, 2007. We have assigned ARMS number 0830132-003-AG to this facility.

As you know, pursuant to Florida Statutes section 403.814, authority to operate under general permits commences thirty (30) days after receipt of the registration form unless you have been notified by this office that your facility has not shown entitlement to operate pursuant to the rule provisions.

For your information, your use of this general permit is limited to five (5) years, pursuant to Rule 62-210.310(3)(a), F.A.C. A new registration form must be received by the Department no later than **August 6, 2012**, which contains all current information regarding the facility or emissions unit.

The owner or operator of any concrete batching plant using an air general permit shall have a performance test conducted for visible emissions no later than thirty (30) days after commencing operation, and annually thereafter (within 365 days from last compliance test) pursuant to Rule 62-296.414(4)(a), F.A.C.

Sincerely,

Cindy Zhang-Torres, P.E.
Air Permitting Supervisor
Southwest District
