Dear Mr. Wiley:

Your facility's initial Title V Permit was issued on August 12th, 2005. On August 25, 2005, the regulations at 40 CFR Part 63, Subpart WWWW, National Emissions Standards for Hazardous Air Pollutants: Reinforced Plastics Composite Production, were revised and became applicable to your facility. Since the additional applicable requirements became applicable to your facility and there is more than 3 (three) years left on your permit as of the effective date of the new regulations, the Department is required to open your Title V Permit for cause and install these requirements in accordance with Rules 62-4.080(1) and 62-213.430(4), F.A.C., and 40 CFR 70.7(f). In order to incorporate the specific applicable requirements of 40 CFR Part 63, Subparts A and WWWW into your Title V Permit, please provide the specific rule citations of these applicable regulations for your facility and affected emissions units within 30 days of receipt of this letter.

If there are any questions, please contact me at (813) 632-7600, extension 107.

Sincerely,

Cindy Zhang-Torres, P.E.
