CONCRETE BATCHING PLANT
AIR GENERAL PERMIT NOTIFICATION FORM
0830154-001-A6

Part III. Notification of Intent to Use General Permit

(Submit this Part to the appropriate permitting office and keep copy of completed form onsite. Instructions follow.)

Instructions to Owner or Operator: To give notice to the Department of an eligible facility's intent to use the concrete batching plant air general permit, the owner or operator of the facility must detach and complete Part III of this Concrete Batching Plant Air General Permit Notification Form and submit it to the appropriate Department of Environmental Protection district office or local air pollution control program office which has been delegated permitting authority. Please type or print clearly all information and enclose the appropriate general permit processing fee pursuant to Rule 62-4.050(4)(o), F.A.C. Please note, the form will not be considered complete unless: 1) the processing fee is attached; 2) if appropriate, the proof of notice publication is attached; and 3) if the facility is existing, visible emissions testing was conducted within 60 days of submitting the form and the test results have already been submitted to the appropriate permitting authority or accompany the form. Also, please refer to the instructions for completing Part III of the notification form at the end of the form.

Facility Comments

Plant operations included the production of underground utilities such as manholes, catch basins and septic tanks. ON AVERAGE we produce & pour about 80 to 100 yrd of concrete Monday thru Friday. concrete batching hours AVERAGE about 8 hours daily.

We ARE applying for a AIR General Permit. We WERE UNAWARE that a permit WAS needed.

Emissions Unit(s) Description

AT this time we have silo #1 in use. It contains 1 1/2 tanker of cement. The dust bag house is located on top of the silo and it contains 8 dust bags manufactured by Belgrade steel tank co. of Belgrade Minnesota. The bags are PE 37 100% polyester 9oz. They are cleaned by an electric vibrator shaker. The cement cleaned from the bags falls back into the silo, never in contact with open air. The silo full rate is about 60 minutes. We are replacing silo #1 with a new silo of the same capacity as the existing silo. We will then have the V E test done on the new silo. We then have plans on construction of an additional silo and batch plant in about 45 to 60 days. This will be silo #2. When silo #2 is in operation we will have the V E test done. Both silos will be owned by Del Zotto products of Fla. and will be located on the same property.

Surrender of Existing Air Permit(s) except Air General Permits (do not complete for renewal notifications)

Check one:

I hereby surrender all existing air permits authorizing operation of the facility indicated on this form; specifically permit number(s) _____.

No air permits currently exist for the operation of the facility indicated on this form.

Owner/Authorized Representative Statement

I, the undersigned, am the owner or authorized representative of the owner or operator of the facility addressed in this Air General Permit Notification Form. I hereby certify, based on information and belief formed after reasonable inquiry, that the statements made in this notification are true, accurate and complete. Further, I agree to operate and maintain the facility and any air pollution control equipment described in this notification so as to comply with all applicable standards and requirements for control of air pollutant emissions found in the statutes of the State of Florida and rules of the Department of Environmental Protection and revisions thereof.

I will promptly notify the Department of any changes to the information contained in this notification.

NOTICE OF AIR GENERAL PERMIT NOTIFICATION STATE OF FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION

The Department of Environmental Protection gives notice of receipt of an air general permit notification for the construction of a concrete batching operation to Delzotto Products of Florida Inc. located at 4405 W. Hwy. 40 Ocala, Florida 34482 Marion County. The applicant's name and address are: Delzotto Products of Florida Inc. 4405 W. Hwy. 40 Ocala, Florida 34482.

The permit will become effective with the attached conditions unless a timely petition for an administrative hearing is filed pursuant to Sections 120.569 and 120.57 of the Florida Statutes before the deadline for filing a petition. The procedures for petitioning for a hearing are set forth below.

A person whose substantial interests are affected by the proposed use of the general permit may petition for an administrative proceeding under Sections 120.569 and 120.57 of the Florida Statutes. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department, 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida 32399-3000, telephone: 850/488-9730, fax: 850/487-4938.

Petitions filed by any persons other than those entitled to written notice under section 120.60(3) of the Florida Statutes, must be filed within 21 (twenty-one) days of publication of the notice or receipt of the written notice, whichever occurs first. The petitioner shall mail a copy of the petition to the applicant at the address indicated above, at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57 of the Florida Statutes, or to intervene in this proceeding and participate as a party to it. Any subsequent intervention (in a proceeding initiated by another party) will be only on the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205 of the Florida Administrative Code.

A petition that disputes the material facts of entitlement to use the air general permit must contain the following information: (a) The name and address of each agency affected and each agency's file or identification number, if known; (b) The name, address, and telephone number of the petitioner, the name, address, and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the agency determination; (c) A statement of how and when petitioner received notice of the agency action or proposed action; (d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate; (e) A concise statement of the ultimate facts alleged, as well as the rules and statutes which entitle the petitioner to relief; and (f) A demand for relief. A petition that does not dispute the material facts of entitlement to use the air general permit shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301 of the Florida Administrative Code.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this notice. Persons whose substantial interests will be affected by any such final decision of the Department have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

Mediation is not available in this proceeding. Any party to this order has the right to seek judicial review of it under section 120.68 of the Florida Statutes, by filing a notice of appeal under rule 9.110 of the Florida rules of Appellate Procedure with the clerk of the Department of Environmental Protection in the Office of General Counsel, Mail Station 35, 3900 Commonwealth Boulevard, Tallahassee, Florida, 32399-3000, and by filing a copy of the notice of appeal accompanied by the applicable filing fees with the appropriate district court of appeal. The notice must be filed within thirty days after this order is filed with the clerk of the Department.

This notification is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at: Department of Environmental Protection Division of Air Resource Management Southwest District Mail Address 3804 Coconut Palm Drive Tampa, FL 33619 No. 537804 - August 6, 2003.

July 7, 2003

Mr. Bill Proses
Florida Department of
Environmental Protection
3804 Coconut Palm Drive
Tampa, Florida 33619-8318

Dear Mr. Proses:

On July 2, 2003 Air Consulting and Engineering, Inc. (ACE) conducted a visible emission test on the Cement Storage Silo Baghouse at Del Zotto Products of Florida, Inc. (Del Zotto) in Ocala, Florida.

Testing was conducted using FDEP Method 9 in support of application to operate under the General Permit for concrete batching plants. The source has not yet been issued an Identification Number.

Emission averaged 4.8% opacity for the highest six-minute period of the test. No emission greater than 5% was observed. During the test a tanker off loaded 27.0 tons of cement in one hour fifty minutes (14.73 TPH) at a pump pressure of 8-10 psi.

Mr. Jeffery Smith of Del Zotto coordinated testing.

I have attached the tanker weigh ticket, our field data sheets and my Method 9 certification.

Please contact me if further information is required.

Sincerely,

AIR CONSULTING AND ENGINEERING, INC.

Peter F. Burnette

CONCRETE BATCHING PLANT
AIR GENERAL PERMIT NOTIFICATION FORM

Part III. Notification of Intent to Use General Permit

(Submit this Part to the appropriate permitting office and keep copy of completed form onsite. Instructions follow.)

Instructions to Owner or Operator: To give notice to the Department of an eligible facility's intent to use the concrete batching plant air general permit, the owner or operator of the facility must detach and complete Part III of this Concrete Batching Plant Air General Permit Notification Form and submit it to the appropriate Department of Environmental Protection district office or local air pollution control program office which has been delegated permitting authority. Please type or print clearly all information and enclose the appropriate general permit processing fee pursuant to Rule 62-4.050(4)(o), F.A.C. Please note, the form will not be considered complete unless: 1) the processing fee is attached; 2) if appropriate, the proof of notice publication is attached; and 3) if the facility is existing, visible emissions testing was conducted within 60 days of submitting the form and the test results have already been submitted to the appropriate permitting authority or accompany the form. Also, please refer to the instructions for completing Part III of the notification form at the end of the form.

Facility Comments

Plant operations included the production of under-ground utilities such as manholes, catch basins and septic tanks. On average we produce & pour about 80 to 100 yrd of concrete Monday thru Friday. Concrete batching hours average about 8 hours daily.

We are applying for a AIR General Permit. We were UNAWARE that a permit was needed.

Emissions Unit(s) Description

We HAVE ONE ^{EXISTING} cement silo that contains about 1 1/2 tanker of cement. The dust bag house is located on top of the silo. The baghouse contains 8 dust bags MANUFACTURED by Belgrade Steel Tank Co. of Belgrade Minnesota. The bags are PE 37 100% polyester 9 oz. The bags ARE cleaned by an electric vibrator shaker. The cement cleaned from the bags falls back into silo, never in contact with the open air. Silo rate of fill is about 45 to 60 minutes, we HAVE under construction a new silo and baghouse to replace the existing silo & baghouse we are currently using. The new silo will be of the same capacity as the existing silo. The new silo should be in place by Fall of 2003.

Surrender of Existing Air Permit(s) except Air General Permits (do not complete for renewal notifications)

Check one:

I hereby surrender all existing air permits authorizing operation of the facility indicated on this form; specifically permit number(s) _____

No air permits currently exist for the operation of the facility indicated on this form.

Owner/Authorized Representative Statement

I, the undersigned, am the owner or authorized representative of the owner or operator of the facility addressed in this Air General Permit Notification Form. I hereby certify, based on information and belief formed after reasonable inquiry, that the statements made in this notification are true, accurate and complete. Further, I agree to operate and maintain the facility and any air pollution control equipment described in this notification so as to comply with all applicable standards and requirements for control of air pollutant emissions found in the statutes of the State of Florida and rules of the Department of Environmental Protection and revisions thereof.

I will promptly notify the Department of any changes to the information contained in this notification.

July 7, 2003

Mr. Bill Proses
Florida Department of
Environmental Protection
3804 Coconut Palm Drive
Tampa, Florida 33619-8318

Dear Mr. Proses:

On July 2, 2003 Air Consulting and Engineering, Inc. (ACE) conducted a visible emission test on the Cement Storage Silo Baghouse at Del Zotto Products of Florida, Inc. (Del Zotto) in Ocala, Florida.

Testing was conducted using FDEP Method 9 in support of application to operate under the General Permit for concrete batching plants. The source has not yet been issued an Identification Number.

Emission averaged 4.8% opacity for the highest six-minute period of the test. No emission greater than 5% was observed. During the test a tanker off loaded 27.0 tons of cement in one hour fifty minutes (14.73 TPH) at a pump pressure of 8-10 psi.

Mr. Jeffery Smith of Del Zotto coordinated testing.

I have attached the tanker weigh ticket, our field data sheets and my Method 9 certification.

Please contact me if further information is required.

Sincerely,

AIR CONSULTING AND ENGINEERING, INC.

Peter F. Burnette
