Published Daily
Key West, Monroe County, Florida 33040

STATE OF FLORIDA
COUNTY OF MONROE:

Before the undersigned authority personally appeared Randy Erickson, who on oath says that he is Advertising Manager of The Key West Citizen, a daily newspaper published at Key West in Monroe County, Florida; that the attached copy of the advertisement, being a legal notice

in the matter of Notice of Intent / relocate a 23.5
MW simple cycle combustion turbine generator
in the n/a court, was published in said newspaper in the
issues of August 13, 1995

Affiant further says that the said The Key West Citizen is a newspaper published at Key West, in said Monroe County, Florida, and that the said newspaper has heretofore been continuously published in said Monroe County, Florida, each day (except Saturdays and specified holidays) and has been entered as second-class mail matter at the post office in Key West, in said Monroe County, Florida, for a period of 1 year next preceding the first publication of the attached copy of advertisement; and affiant further says that he has neither paid nor promised any person, firm or corporation any discount, rebate, commission or refund for the purpose of securing this advertisement for publication in the said newspaper.

Randy A. Erickson

The department of Environmental Protection gives notice of its intent to
STATE OF FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION NOTICE OF INTENT TO

issue a permit to the Utility Board of the City of Key West, 1001 James Street, P.O. Drawer 6100, Key West, FL 33041, to relocate a 23.5 MW simple cycle combustion turbine generator from the Key West Power Plant to the existing Stock Island Power Plant near Key West, Monroe County, Florida. This unit will operate at approximately one-third or less of its annual electrical generating capacity. Emissions of sulfur dioxide will be limited by use of low sulfur (0.05 percent or less) fuel oil. Nitrogen oxides emissions will be controlled through water injection. Carbon monoxide and particulate matter emissions will be minimized by good combustion practices.

The maximum predicted increases in particulate matter less than 10 Microns (PM10) concentrations and nitrogen dioxide (NO2) concentrations due to the project are less than the respective PSD Class I significant impact levels, thus no PSD Class I PM10 or NO2 increment consumption was calculated for this project. The Maximum predicted PSD Class II PM10 increments to be consumed by the proposed project are the following: 0.4 ug/m3, annual average or 2% of the available annual increment of 17. ug/m3; and 14.6 ug/m3, 24-hour average, or 49% of the available 24-hour increment of 30 ug/m3. The Maximum predicted PSD Class II NO2 increment to be consumed by the proposed project is 3.2 ug/m3, annual average or 13% of the available annual increment of 25 ug/m3. The Department is issuing this Intent for the reasons stated in the Technical Evaluation and Preliminary Determination.

A person whose substantial interest are affected by the Department's proposed permitting decision may petition for an administrative proceeding (hearing) in accordance with Section 120.57, Florida Statutes (F.S.). The petition must contain the

information set forth below and must be filed (received) in the Office of General Counsel of the Department At 2600 Blair Stone Road, Tallahassee, Florida 32399-2400, within 14 days of publication of this notice. Petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. Failure to file a petition within this time period shall constitute a waiver of any right such person may have to request an administrative determination (hearing) under Section 120.57, F.S.

The Petition shall contain the following information; (a) The name, address, and telephone number of each petitioner, the applicant's name and address, the Department Permit File Number and the county in which project is proposed; (b) A statement

of how and when each petitioner received notice of the Department's action or proposed action; (c) a statement of how each petitioner's substantial interests are affected by the Department's action or proposed action; (d) A statement of the material facts disputed by the Petitioner, if any; (e) A statement of facts which petitioner contends warrant reversal or modification of the Department's action or proposed action; (f) A statement of which rules or statutes petitioner contends require reversal or modification of the Department's action or proposed action; and, (g) A statement of the relief sought by petitioner, stating precisely the action petitioner wants the Department to take with respect to the Department's action or proposed action.

If a petition is filed, the administrative hearing process is designed to formulate agency action. Accordingly, the Department's final action may be different from the position taken by it in this Notice. Persons whose substantial interests will be affected by any decision of the department with

regard to the application have the right to petition to become a party to the proceeding. The petition must conform to the requirements specified above and be filed (received) within 14 days of publication of this notice in the Office of General Counsel at the above address of the Department. Failure to petition within the allowed time frame constitutes a waiver of any right such person has to request a hearing under Section 120.57, F.S., and to participate as a party to this proceeding. Any subsequent intervention will only be at the approval of the presiding officer upon motion filed pursuant to Rule 25-5.207, Florida Administrative Code. The application is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at:

Department of Environmental Protection
Bureau of Air Regulation
111 S. Magnolia Drive, Suite 4
Tallahassee, Florida 32301
Department of Environmental Protection
South District
2295 Victoria Ave., Suite 364
Fort Myers, Florida 33901

Any person may send written comments on the proposed action to Administrator, New Source Review Section at the Department of Environmental Protection, Bureau of Air Regulation, Mail Station 5505, 2600 Blair Stone Road, Tallahassee Florida 32399-2400. All comments received within 30 days of the publication of this notice will be considered in the Department's final determination.

Further, a public hearing can be requested by any person(s). Such request must be submitted within 30 days of this notice.
August 13th, 1995.
