Subject: **Key West, City Electric System
Proposed Relocation of 23-MW Combustion Turbine
Permit File No. AC44-245399, PSD-FL-210**

Bureau of
Air Regulation

Dear Mr. Holladay:

On behalf of City Electric System, we forwarded dispersion modeling results in a letter dated March 3, 1995 summarized in tabular form. You requested that we provide ISC2 outputs in both hard copy and on computer disk. We have copied our computer files and printed hard copies of pollutant-specific worst year (of five years) of NAAQS results and Class II results. The 3.5 inch disks enclosed include ASCII output files, as well as input files. Class I results were submitted on July 15, 1994.

We appreciate your assistance in reviewing the impact analysis. We believe this information along with our formal responses of June 10, June 24, 1994 and March 3, 1995 should provide adequate information on which FDEP can base the permit review. We would appreciate a completeness letter in due course. Should you have any questions or comments, please call me at 303/299-5234 or George Wu at 303/299-5290.

Sincerely,

R. W. BECK

A handwritten signature in black ink, appearing to read 'Michael D. Henderson'. The signature is fluid and cursive, with a long horizontal stroke extending to the right.
