Tallahassee, FL 32399

SUBJECT: PSD PERMIT APPLICATION

Dear Mr. Fancy:

Enclosed please find three copies of a PSD application submitted for the relocation of the Key West Gas Turbine approximately four miles to the Stock Island Power Plant. The application fee will be submitted under separate cover. Though we are not requesting increases in emission rates or hours of operation, we have prepared the application in accordance with Florida and federal regulations which require an analysis of Best Available Control Technology and an analysis of impacts to ambient air quality.

Please review the application with your staff as necessary. If you need additional copies, let us know. Should you have any questions related to the technical analyses contained therein, please call Mike Henderson or Ed Settle of R. W. Beck & Associates at 303/299-5200.

Sincerely,

R. W. BECK AND ASSOCIATES

Robert R. Padron, General Manager
"City Electric System"
