RE: Clean Air Act Section 112(j) Notification Information
Louis Dreyfus Citrus Inc.
Title V Permit No. 0950053-002-AV

Dear Ms. Phillips:

The purpose of this letter is to provide information relative to Section 112(j) of the Clean Air Act as amended in 1990, which pertains to the development of Maximum Achievable Control Technology (MACT) standards. Recent amendments to the rules implementing Section 112(j) require that owners of a major source of hazardous air pollutants (HAPs) in an affected industry source category submit the information listed below to the permitting authority (i.e. the State of Florida) with a copy submitted to the United States Environmental Protection Agency (USEPA). We understand that the Department is requesting that we comply with this requirement.

Louis Dreyfus Citrus Inc. is submitting this Part 1 notification information without necessarily having determined whether or not the facility is a major source of HAPs, that certain units, such as, but not limited to, the process heaters which serve its peel drying system or other process heater units at the facility, are subject to the Process Heaters or other MACT category. Louis Dreyfus Citrus Inc. is submitting information about these units as a precaution and reserves the right to contest that these units are subject to a MACT category. See, "NESHAPS for Source Categories: General Provisions; and Requirements for Control Technology Determinations for Major Sources in Accordance with Clean Air Act Sections 112(g) and 112(j)," 67 Fed. Reg. 16,582, 16,591 (April 5, 2002) (Final Rule) (stating that "If the section 112(j) deadline arrives before you can determine ... applicability, you should submit a Part 1 [notification]").

The Code of Federal Regulations, at 40 C.F.R. §63.53(a), directs that the following information is to be submitted in a Part 1 notification to the permitting authority:

Page 2

1. The name, address (physical location), and brief description of the major source (facility);
2. An identification of the relevant industry source category(ies);
3. A list of the emission units belonging to the relevant industry source category(ies); and
4. An identification of any affected sources for which a Section 112(g) MACT determination has been made.

Subject to the conditions outlined herein, Louis Dreyfus Citrus Inc. hereby provides the following facility-specific information for each of these items:

1. **Name:** Louis Dreyfus Citrus Inc.
Address: 355 So. Ninth Street, Winter Garden, FL 34787
Source Description:

The existing industrial complex includes citrus processing and juice extracting, packaging, warehousing, and distribution. Fruit is graded and conveyed to an extractor room where the juice is removed and pumped to evaporators for concentrate production.

The plant contains 2 citrus peel dryers, each coupled with a waste heat evaporator, 3 pellet mills, 2 pellet coolers, 5 package industrial boilers, auxiliary diesel powered equipment and a wastewater treatment plant.

2. **Relevant Industry Source Categories:** Depending on the final form of the applicability portion of the MACT standard, the following industry source categories may be applicable to sources at the facility: See Item 3 below.

3. **List of the Emission Units Belonging to the Relevant Industry Source Categories:** This list is dependent on the final form of the applicability portion on the specific MACT standard.

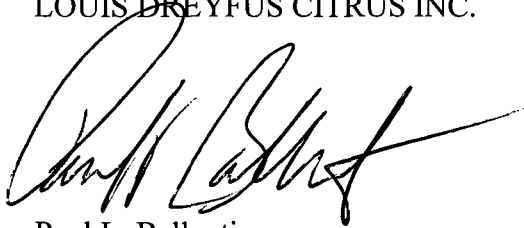

Facility Emission Source	Potentially Relevant Industry Source Category
Primary and Auxiliary Boilers	Industrial, Commercial, and Industrial Boilers and Indirect-fired Process Heaters
Truck Engine Operations	Reciprocating Internal Combustion Engines
Dryers and waste heat evaporators	Industrial boilers and indirect-fired process heaters
Citrus Oils Handling and Storage	Organic Liquids Distribution (non-Gasoline)
Diesel powered equipment	Reciprocating internal combustion engines

4. **Previous Section 112(g) MACT Determinations:** There has been no previous MACT determination.

If you have any questions concerning the information provided, please contact Paul Ballentine.

Sincerely,

LOUIS DREYFUS CITRUS INC.

Paul L. Ballentine
Vice President, Plant Operations
