Re: Extension of Air Construction Permit Expiration Date
Florida Gas Transmission Company, Station 18
Air Permit No.0950190-004-AC

Dear Mr. Craig:

On October 27, 2003, Florida Gas Transmission Company (FGTC) requested an extension of the expiration date of air construction Permit No. 0950190-004-AC for Station 18, which is located at 7990 Steer Lake Road in Orlando, Florida. FGTC requests the additional time to complete construction of Engine 1806, perform the required tests, and submit a timely application to revise the Title V operation permit accordingly. The Department approves this request. The expiration date is hereby extended from **December 31, 2003** to **July 1, 2004**. This permitting action does not authorize any new construction. A copy of this letter shall be filed with the referenced permit and shall become part of the permit. This permitting decision is issued pursuant to Chapter 403, Florida Statutes.

A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative proceeding (hearing) under Sections 120.569 and 120.57, F.S. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida, 32399-3000. Petitions filed by the permit applicant or any of the parties listed below must be filed within fourteen (14) days of receipt of this notice of intent. Under Section 120.60(3), F.S., any person who asked the Department for notice of agency action may file a petition within fourteen (14) days of receipt of that notice. Petitions filed by any persons other than those entitled to written notice under section 120.60(3), F.S., must be filed within fourteen (14) days of receipt of this notice of intent. A petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205, F.A.C.

A petition that disputes the material facts on which the Department's action is based must contain the following information: (a) The name and address of each agency affected and each agency's file or identification number, if known; (b) The name, address, and telephone number of the petitioner, the name, address, and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the agency determination; (c) A statement of how and when petitioner received notice of the agency action or proposed action; (d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate; (e) A concise statement of the ultimate facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the agency's proposed action; (f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the agency's proposed action; and (g) A statement of the relief sought by the petitioner, stating precisely the action petitioner wishes the agency to take with respect to the agency's proposed action.

A petition that does not dispute the material facts upon which the Department's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, F.A.C.

"More Protection, Less Process"

Printed on recycled paper.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this notice. Persons whose substantial interests will be affected by any such final decision of the Department on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

Mediation is not available in this proceeding.

This permitting decision is final and effective on the date filed with the clerk of the Department unless a petition is filed in accordance with the above paragraphs or unless a request for extension of time in which to file a petition is filed within the time specified for filing a petition pursuant to Rule 62-110.106, F.A.C., and the petition conforms to the content requirements of Rules 28-106.201 and 28-106.301, F.A.C. Upon timely filing of a petition or a request for extension of time, this action will not be effective until further order of the Department.

Any party to this permitting decision (order) has the right to seek judicial review of it under Section 120.68, F.S., by filing a notice of appeal under Rule 9.110 of the Florida Rules of Appellate Procedure with the clerk of the Department of Environmental Protection in the Office of General Counsel, Mail Station #35, 3900 Commonwealth Boulevard, Tallahassee, Florida, 32399-3000, and by filing a copy of the notice of appeal accompanied by the applicable filing fees with the appropriate District Court of Appeal. The notice must be filed within thirty (30) days after this order is filed with the clerk of the Department.

Executed in Tallahassee, Florida.

Michael G. Cooke, Director
Division of Air Resources Management

Dear Mr. Koerner:

Subject: Extension of Construction Permit Expiration

Due to delays in the installation of the Rolls Royce Model 501 KC-7 (Engine No. 1806, Emission Unit No. 006), it will not be possible for Florida Gas Transmission Company (FGT) to complete the construction at this facility, perform the required initial emissions compliance test and apply for a Title V operating permit modification at least 90 days before the expiration date of the above referenced Construction Permit.

FGT requests a 180-day extension for the referenced construction permit in order to complete the construction, perform the required Subpart GG emissions test and to submit an application for the Title V operating permit.

If you have any questions or need additional information, please call me at (850) 350-5042.

Sincerely,

Jacob Krautsch

FROM: Jeff Koerner, New Source Review Section *JK*

DATE: November 3, 2003

SUBJECT: Extension of Air Construction Permit Expiration Date
Florida Gas Transmission Company, Station 18
Orlando, Orange County, Florida
Air Permit No. 0950190-004-AC

Attached for your approval and signature is a permit modification that extends the permit expiration date for the above referenced project. Florida Gas Transmission Company (FGTC) requests additional time to complete construction of Engine 1806, perform the required tests, and submit a timely application to revise the Title V operation permit accordingly. Day 74 is January 8, 2004. I recommend your approval and signature.

Attachments

Mike,
This is another Rolls Royce engine with problems.
The extension of the permit is for 6 months.
Trina
