BUREAU OF AIR REGULATION

RE: Proof of Publication Notice Affidavit  
Unit 1806, Orlando Compressor Station No. 18  
Air Construction Permit No. 0950190-006-AC

Dear Mr. Koerner:

Florida Gas Transmission Company (FGT) submits the required proof of publication affidavit for the draft construction permit 0950190-006-AC related to Unit 1806 located at FGT's Orlando Compressor Station No. 18.

The required notice was published Nov. 13, 2004 in the Orlando Sentinel. The original affidavit and legal notice column is enclosed.

If you have any questions or need further information, please call me at (407)838-7057.

Sincerely,

James Fleak, P.E.  
Sr. Environmental Specialist

Cc: Orlando Team, Envision 203.2.30

# Orlando Sentinel

Published Daily

State of Florida } S.S.  
COUNTY OF ORANGE }

Before the undersigned authority personally appeared DEBORAH M. TONEY

who on oath says that he/she is the Legal Advertising Representative of Orlando Sentinel, a daily newspaper published at ORLANDO in ORANGE County, Florida; that the attached copy of advertisement, being a PUBLIC NOTICE OF I in the matter of #0950190-006-AC

in the ORANGE Court, was published in said newspaper in the issue; of 11/13/04

Affiant further says that the said Orlando Sentinel is a newspaper published at ORLANDO in said ORANGE County, Florida, and that the said newspaper has heretofore been continuously published in said ORANGE County, Florida, each Week Day and has been entered as second-class mail matter at the post office in ORLANDO in said ORANGE County, Florida, or a period of one year next preceding the first publication of the attached copy of advertisement; and affiant further says that he/she has neither paid nor promised any person, firm or corporation any discount, rebate, commission or refund for the purpose of securing this advertisement for publication in the said newspaper.

The foregoing instrument was acknowledged before me this 16 day of NOV., 20 04, by DEBORAH M. TONEY

who is personally known to me and who did take an oath.

SEAL)

BEVERLY C. SIMMONS  
M. Comm. Exp. 3/13/05  
No. 0000331  
111 South Magnolia Drive, Tallahassee, Florida 32303-3767

TO ISSUE AIR PERMIT  
Florida Department of  
Environmental Protection  
Draft Air Permit No.  
0950190-006-AC  
Florida Gas Transmission  
Company  
Existing Compressor Sta-  
tion 18  
Orange County, Florida  
Applicant: The applicant for  
this project is the Florida  
Gas Transmission Compa-  
ny. The applicant's mailing  
address is: P. O. Box 4457,  
Houston, TX 77014-4457. The  
applicant's authorized rep-  
resentative is Mr. Richard  
Craig, the V.P. of Southeast-  
ern Operations.  
Facility Location: The Florida  
Gas Transmission Company  
operates existing Compres-  
sor Station 18, which is lo-  
cated at 7990 Stear Lake  
Road in Orlando, Florida.  
Project: The applicant pro-  
poses several revisions to  
the original air construction  
permit for Engine 1806. As  
installed, the gas turbine  
fires slightly more natural  
gas to produce the required  
power output. The applicant  
requests approximately an  
8% increase in the maxi-  
mum heat input rate. Also,  
Engine 1806 is a light-indus-  
trial gas turbine with a pow-  
er output of approximately  
7200 bhp. It is common prac-  
tice within the gas pipeline  
industry to replace the gas  
generator for maintenance  
and repair with a function-  
ally equivalent component.  
The replaced gas generator  
is then shipped to a regional  
facility for maintenance and  
placed back into a pool of  
similar components. The  
applicant requests specific no-  
tification and testing re-  
quirements for conducting  
such functionally equivalent  
component replacements.  
Finally, EPA recently  
amended the federal fuel  
monitoring requirements  
for nitrogen and sulfur in  
Subpart GG of 40 CFR 60  
regulating gas turbines. The  
applicant requests a permit  
revision to be consistent  
with the amended fuel moni-  
toring requirements.  
Permitting Authority: Applica-  
tions for air construction  
permits are subject to re-  
view in accordance with the  
provisions of Chapter 403,  
Florida Statutes (F.S.), and  
Chapters 62-4, 62-210, and 62-  
212 of the Florida Adminis-  
trative Code (F.A.C.). The  
proposed project is not ex-  
empt from air permitting  
requirements and an air  
permit is required to per-  
form the proposed work.  
The Bureau of Air Regula-  
tion is the Permitting Au-  
thority responsible for mak-  
ing a permit determination  
regarding this project. The  
Permitting Authority's  
physical address is 111  
South Magnolia Drive, Tal-  
lahassee, Florida. The Per-  
mitting Authority's mailing  
address is 2600 Blair Stone  
Road, MS #505, Tallahas-  
see, Florida 32309-2400. The  
Permitting Authority's tele-  
phone number is 850/488-  
0114.  
Project File: A complete pro-  
ject file is available for pub-  
lic inspection during the  
normal business hours of  
8:00 a.m. to 5:00 p.m. Mon-  
day through Friday, (except  
legal holidays) at address  
indicated above for the Per-  
mitting Authority. The com-  
plete project file includes  
the Draft Permit, the Tech-  
nical Evaluation and Preli-  
minary Determination, the  
application, and the infor-  
mation submitted by the ap-  
plicant, exclusive of confi-  
dential records under  
Section 403.111, F.S. Inter-  
ested persons may contact  
the Permitting Authority's  
project review engineer for  
additional information at  
the address and phone num-  
ber listed above. A copy of  
the complete project file is  
also available at the Air Re-  
sources Section of the De-  
partment's Central District  
Office at 3319 Maguire Bou-  
levard, Suite 232, Orlando,  
Florida 32803-3767.  
Notice of Intent to Issue Air Permit:  
The Permitting Authority  
gives notice of its intent to  
issue an air permit to the  
applicant for the project de-  
scribed above. The appli-  
cant has provided reason-  
able assurance that  
operation of proposed equip-  
ment will not adversely im-  
pact air quality and that the  
project will comply with all  
appropriate provisions of

appropriate provisions of Chapters 62-4, 62-204, 62-210, 62-212, 62-296, and 62-297, F.A.C. The Permitting Authority will issue a Final Permit in accordance with the conditions of the proposed Draft Permit unless a timely petition for an administrative hearing is filed under Sections 120.569 and 120.57, F.S. or unless public comment received in accordance with this notice results in a different decision or a significant change of terms or conditions.

**Comments:** The Permitting Authority will accept written comments concerning the proposed Draft Permit for a period of fourteen (14) days from the date of publication of this Public Notice. Written comments must be provided to the Permitting Authority at the above address. Any written comments filed will be made available for public inspection. If written comments received result in a significant change to the Draft Permit, the Permitting Authority shall revise the Draft Permit and require, if applicable, another Public Notice.

**Petitions:** A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative hearing in accordance with Sections 120.569 and 120.57, F.S. The petition must contain the information set forth below and must be filed with (received by) the Department's Agency Clerk in the Office of General Counsel of the Department of Environmental Protection at 3900 Commonwealth Boulevard, Mail Station #33, Tallahassee, Florida 32399-3000. Petitions filed by any persons other than those entitled to written notice under Section 120.60(3), F.S. must be filed within fourteen (14) days of publication of this Public Notice or receipt of a written notice, whichever occurs first. Under Section 120.60(3), F.S., however, any person who asked the Permitting Authority for notice of agency action may file a petition within fourteen (14) days of receipt of that notice, regardless of the date of publication. A petitioner shall mail a copy of the petition to the applicant at the address indicated above, at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be at the discretion of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205, F.A.C.

A petition that disputes the material facts on which the Permitting Authority's action is based must contain the following information:

- (a) The name and address of each agency affected and each agency's file or identification number, if known;
- (b) The name, address and telephone number of the petitioner; the name, address and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial rights will be affected by the agency determination;
- (c) A statement of how and when the petitioner received notice of the agency action or proposed action;
- (d) A statement of all disputed issues of material fact. If there are none, the petition must so state;
- (e) A concise statement of the ultimate facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the agency's proposed action;
- (f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the agency's proposed action;
- (g) A statement of the relief sought by the petitioner, stating precisely the action the petitioner wishes the agency to take with respect to the agency's proposed action. A petition that does not dispute the material facts upon which the Permitting Authority's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, F.A.C.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Permitting Authority's final action may be different from the position taken by it in this Public Notice of Intent to issue Air Permit. Persons whose substantial interests will be affected by any such final decision of the Permitting Authority on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

**Mediation:** Mediation is not available for this proceeding.
