Re: Exemption from the Requirement to Obtain an Air Construction Permit
Florida Gas Transmission Company - Compressor Station 18, Orlando
Replacement of Gas Generator Component of Engine 1806
Title V Air Operation Permit No. 0950190-003-AV

Dear Mr. Craig:

Engine 1806 is a 7200 bhp gas turbine compressor engine at existing Compressor Station 18, which is located at 7990 Steer Lake Road in Orlando, Florida. On September 30, 2004, the gas generator component on this unit failed resulting in a throughput loss of approximately 420 MMscf/day. Florida Gas Transmission Company (FGTC) contends that this loss adversely affects the efficiency and reliability of delivering natural gas to consumers, commercial, facilities, and electric generating plants. FGTC requests an exemption from the requirement to obtain an air construction permit pursuant to Rule 62.4.040(1)(b), F.A.C. for this replacement. This is similar to a request that was previously approved for a Rolls Royce unit at FGTC's Station 15 in August of this year. The replacement unit will be tested to demonstrate compliance with the existing emissions standards.

The Department approves this request and exempts the proposed replacement activity from the requirement to obtain an air construction permit. In accordance with the Department's rules, Engine 1806 remains subject to all conditions in the original air construction permit and Title V Air Operation Permit No. 0950190-003-AV. This determination may be revoked if the proposed activity is substantially modified or the basis for the exemption is determined to be materially incorrect. Within 60 days after restart, the Department requires that Engine 1806 be tested to demonstrate compliance with the permitted emission standards. Florida Gas Transmission Company shall maintain a copy of this letter on site. This permitting decision is made pursuant to Chapter 403, Florida Statutes.

A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative proceeding (hearing) under Sections 120.569 and 120.57, F.S. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida, 32399-3000. Petitions filed by the permit applicant or any of the parties listed below must be filed within 21 days of receipt of this notice of intent. A petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205, F.A.C.

A petition that disputes the material facts on which the Department's action is based must contain the following information: (a) The name and address of each agency affected and each agency's file or identification number, if known; (b) The name, address, and telephone number of the petitioner, the name, address, and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the agency determination; (c) A statement of how and when petitioner received notice of the agency action or proposed action; (d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate; (e) A concise statement of the ultimate facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the agency's proposed action; (f) A statement of the specific rules or

"More Protection, Less Process"

Printed on recycled paper.

statutes the petitioner contends require reversal or modification of the agency's proposed action; and (g) A statement of the relief sought by the petitioner, stating precisely the action petitioner wishes the agency to take with respect to the agency's proposed action.

A petition that does not dispute the material facts upon which the Department's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, F.A.C.

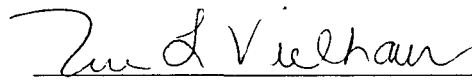

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this notice. Persons whose substantial interests will be affected by any such final decision of the Department on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

Mediation is not available in this proceeding.

This permitting decision is final and effective on the date filed with the clerk of the Department unless a petition is filed in accordance with the above paragraphs or unless a request for extension of time in which to file a petition is filed within the time specified for filing a petition pursuant to Rule 62-110.106, F.A.C., and the petition conforms to the content requirements of Rules 28-106.201 and 28-106.301, F.A.C. Upon timely filing of a petition or a request for extension of time, this action will not be effective until further order of the Department.

Any party to this permitting decision (order) has the right to seek judicial review of it under Section 120.68, F.S., by filing a notice of appeal under Rule 9.110 of the Florida Rules of Appellate Procedure with the clerk of the Department of Environmental Protection in the Office of General Counsel, Mail Station #35, 3900 Commonwealth Boulevard, Tallahassee, Florida, 32399-3000, and by filing a copy of the notice of appeal accompanied by the applicable filing fees with the appropriate District Court of Appeal. The notice must be filed within thirty (30) days after this order is filed with the clerk of the Department.

Executed in Tallahassee, Florida.

Trina Vielhauer, Chief
Bureau of Air Regulation
