Subject: Intercession City Plant, Draft/Proposed Permit No. 0970014-016-AV, Title V Air Operation Permit Renewal
Date: Friday, August 10, 2012 11:00:21 AM
Attachments: [0970014-016-AV \[draft proposed\].ZIP](#)

Barbara - This Title V renewal is ready to be clerked and issued. I have signed on behalf of Jeff and it needs to go out today as it is on Day 87. The permit summary table has been updated.

Jeff – This is a simple renewal with no changes requested by the applicant. The format was revised and a fire pump engine was added as an emissions unit. Even though the facility is listed as not in compliance in ACES, but the CO exceedance from CT #7 was retested and showed to be in compliance based on 6/20/2012 retest.

Scott - Please replace all your word documents with the ones attached with this email as I had made changes to some of the documents.

Thanks,
Syed
