REGULATION
NOTICE OF INTENT
TO ISSUE PERMIT REVISION
The Department of Environmental Regulation gives notice of its intent to issue permit No. AC80-1817R/190-FL-199 for boiler No. 16 at Okaloosa Corporation's sugar mill located in Palm Beach County, 9 miles south of South Bay. The revision will allow No. 2 oil fired boiler No. 16 to operate as a replacement to the other existing bagasse/No. 9 fuel oil fired boilers at the plant during the crop season (prohibited by present permit). As the burning of the same quantity of No. 2 fuel oil in the new boiler No. 16 emits less air pollutants than the burning of No. 9 fuel oil in the older bagasse/No. 9 fuel oil fired boilers at this facility, the net air pollutant emissions will be reduced by an undetermined amount. The proposed revision does not alter the Best Available Control Technology (BACT) determination that boiler No. 16 is subject to or any other air pollution source at this facility. The Department is issuing this intent to issue Permit Revision to satisfy the federal enforceability requirements.
A person whose substantial interests are affected by the Department's proposed permitting decision may petition for an administrative proceeding in accordance with Section 120.57, Florida Statutes. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department at 2600 Blair Stone Road, Tallahassee, Florida 32399-2400, within the time frame of publication of this notice. Petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. Failure to file a petition within this time period shall constitute a waiver of any right such person may have to request an administrative hearing under Section 120.57, Florida Statutes. The petition shall contain the following information: (a) The name, address, and telephone number of each petitioner; the applicant's name and address; the Department Permit File Number and the count in which the project is proposed; (b) A statement of how and when each petitioner received notice of the Department's action or proposed action; (c) A statement of how each petitioner's substantial interests are affected by the Department's action or proposed action; (d) A statement of the material facts disputed by the petitioner, if any; (e) A statement of facts which petitioner contends warrant reversal or modification of the Department's action or proposed action; (f) A statement of which rules or statutes petitioner contends require reversal or modification of the Department's action or proposed action; and (g) A statement of the relief sought by petitioner, stating precisely the action petitioner wants the Department to take with respect to the Department's action or proposed action. If a petition is filed, the administrative hearing process is designed to formulate agency action. Accordingly, the Department's final action may be different from the position taken by it in this Notice. Persons whose substantial interests will be affected by any decision of the Department with regard to the application have the right to petition to a party to the proceeding. The petition must conform to the requirements specified above and be filed (received) within 14 days of publication of this notice in the Office of General Counsel at the above address of the Department. Failure to petition within the allowed time frame constitutes a waiver of any right such person has to request a hearing under Section 120.57, F.S., and to participate as a party to this proceeding. Any subsequent intervention will only be at the approval of the presiding officer upon motion filed pursuant to Rule 2B-5.207, F.A.C. The application is available for public inspection during normal business hours, 8:00 a.m. to 4:00 p.m. Monday through Friday, except legal holidays.
