**Attachments:** Okeelanta

Susan,

We did incorporate that application into the Title V renewal project.

Because of the previous compliance issues, Okeelanta owes me a revised "Compliance Plan". I spoke with AJ and Dave Buff regarding the compliance status and the settlement agreement (attached e-mail). They both believe the facility may be back in compliance. In that case, Okeelanta just needs to submit a certification of compliance. Dave Buff says he is working on this and some minor changes they would like to see. I expect to see it soon.

Over the Christmas break, I have been working on the US Sugar renewal. I expect to issue a revised draft before the end of the month.

Happy new year!

Jeff

Hi Jeff,

Back in August 2009, we sent you 3 copies of a Title V revision application for Okeelanta Corporation. I was looking in ARMS and did not see this application that we sent up to you. The application was to incorporate air construction permit 0990005-023-AC (which expires this month) into the facility's permit.

Would you please let me know if you received this application and if you are going to incorporate it into their renewal permit.

Thanks,

Susan Machinski
