Re: ARMS ID No. 0990026  
Boiler 8 (Emissions Unit 006)  
Rework of Scrubber Ductwork

Dear Mr. Alvarez:

On March 1, 2003, the Department received a letter from Golder Associates Inc. requesting approval to reconfigure the scrubber ductwork from "cyclone-fan-scrubbers" to "cyclone-scrubbers-fan". Placing the fan after the wet scrubber is intended to remove additional particulate matter and prevent component wear. The existing fan is replaced approximately every three years due to the severe conditions experienced. The proposed changes will not affect emissions, flow rates, or existing permit conditions. Therefore, the Department will simply update its files with the information you have provided. If you have any questions regarding this matter, please contact Jeff Koerner at 850/921-9536.

Sincerely,

A handwritten signature in cursive script that reads "Trina Vielhauer".

Trina Vielhauer, Chief  
Bureau of Air Regulation
