NOTICE OF PUBLIC HEARING ON A PROPOSED PLAN OF IMPROVEMENTS BY NORTHERN PALM BEACH COUNTY IMPROVEMENT DISTRICT FOR UNIT OF DEVELOPMENT NO. 53

To the owners and all persons interested in the lands corporate and other property in and adjacent to Northern Palm Beach County Improvement District's Unit of Development No. 53.

You are hereby notified that the Northern Palm Beach County Improvement District has filed in the office of its Secretary a Resolution to consider approval of a proposed Plan of Improvements for the District's Unit of Development No. 53, which Plan of Improvements will permit the District to provide, operate and/or maintain the public services and infrastructure improvements as are generally described below.

The Plan of Improvements authorizes the District's provision of the following public infrastructure improvements and associated services:

A. Surface Water Management System – The installation of a surface water management system within the Unit that will consist of a series of interconnected lakes, flow ways, conveyance systems, wet and dry storage areas and a control structure in order to collect, store and discharge surface water runoff.

B. Off-Site Intersection Improvements – The construction of right and left turn lane improvements at the Unit's eastern entrance, construction of right turn lane improvements at the Unit's western entrance and the construction of a mast-arm type of traffic signal at the eastern entrance, all of which will be within or adjacent to the Southern Boulevard right-of-way. In addition, another mast-arm type of traffic signal will be constructed at the project's northern entrance if or when warranted.

C. Off-Site Roadway Improvements – The provision of fill to a 200 foot right-of-way to be owned by Palm Beach County and located along the northern border of, but not within the Unit.

D. On-Site Roadway Improvements – Construction of publicly accessible roadways located outside of privacy gates, one of which will be constructed between the Unit's main eastern entrance road off of Southern Boulevard up to but not beyond a proposed privacy gate at the development's entrance; another will be a loop road to be constructed from the main eastern entrance then westerly past civic and school sites to the Unit's western connection to Southern Boulevard, and lastly the construction of a bus loop within the school site.

E. On-Site Water and Sewer Collection and Transmission Improvements – Potable water lines and associated facilities will be constructed, as will gravity sewer lines, manholes, lift stations, and force mains.

F. On-Site Landscape and Hard-scape Improvements – Construction of a park, within a landscape buffer, along the western and northern boundaries at the Unit.

G. Off-Site Median Landscape Improvements – Median landscape improvements along Southern Boulevard are required and the District will either construct and maintain such landscape improvements or pay a fee into the Palm Beach County OTIS program in lieu thereof.

Written objections to the proposed Plan of Improvements for the District's Unit of Development No. 53 may be filed at the District's office located at 359 Hiatt Drive, Palm Beach Gardens, Florida 33418, at or before the District's regularly scheduled meeting which is going to be held at the District's office beginning at 8:00 A.M. on January 28, 2015. A Public Hearing on the proposed Plan of Improvements will be conducted during this regularly scheduled meeting and written objections, if any, considered at that

PUBLIC NOTICE OF INTENT TO ISSUE AIR PERMIT

Florida Department of Environmental Protection
Division of Air Resource Management,
Office of Permitting and Compliance
Draft Air Permit No. 0990332-023-AC / PSD-FL-425A
New Hope Power Company,
Okeelanta Cogeneration Plant
Palm Beach County, Florida

Applicant: The applicant for this project is New Hope Power Company (NHPC). The applicant's authorized representative and mailing address is: Mr. Jose Gonzalez, Vice President of Industrial Operations, New Hope Power Company, Okeelanta Cogeneration Plant, 8001 U.S. Highway 27 South, South Bay, Florida 33493.
Facility Location: The NHPC Okeelanta Cogeneration Plant is located at 8001 U.S. Highway 27 South approximately six miles south of South Bay in Palm Beach County, Florida.

Project: On August 27, 2013, the Department issued an air construction permit to NHPC pursuant to Rule 62-212.400, Florida Administrative Code (F.A.C.), Prevention of Significant Deterioration (PSD). The permit authorized construction of a natural gas-fired boiler (Cogeneration Boiler D) at the NHPC Okeelanta Cogeneration Plant. PSD review was conducted and Best Available Control Technology (BACT) determinations were made for nitrogen oxides (NOX), carbon monoxide (CO), particulate matter with a mean diameter of 10 microns or less (PM10), and PM with a mean diameter of 2.5 microns or less (PM2.5).

On December 18, 2014, the Department received a request from the applicant for an extension of the expiration date of Air Construction Permit No. 0990332-021-AC (PSD-FL-425) from December 31, 2016 to July 31, 2017. According to the application, the extension request is necessary because NHPC was delayed in commencement of actual construction until it received a separate PSD permit from EPA for greenhouse gases (GHG). The applicant also requests that the Department PSD permit be revised to state that construction will commence within 18 months of issuance of the final GHG PSD permit by EPA. Details of the project are provided in the application and the enclosed Technical Evaluation and Preliminary Determination. The Department will extend the expiration date as requested by the applicant. Authorization to construct shall expire if construction is not commenced within 18 months after March 17, 2014; the date when NHPC received the EPA GHG permit.

Permitting Authority: Applications for air construction permits are subject to review in accordance with the provisions of Chapter 403, Florida Statutes (F.S.) and Chapters 62-4, 62-210 and 62-212, F.A.C. The proposed project is not exempt from air permitting requirements and an air permit is required to perform the proposed work. The Permitting Authority responsible for making a permit determination for this project is the Office of Permitting and Compliance in the Department of Environmental Protection's Division of Air Resource Management. The Permitting Authority's physical address is: 2600 Blair Stone Road, Tallahassee, Florida. The Permitting Authority's mailing address is: 2600 Blair Stone Road, MS #5505, Tallahassee, Florida 32399-2400. The Permitting Authority's telephone number is 850/717-9000.
Project File: A complete project file is available for public inspection during the normal business hours of 8:00 a.m. to 5:00 p.m., Monday through Friday (except legal holidays), at address indicated above for the Permitting Authority. The complete project file includes the Draft Permit, the Technical Evaluation and Preliminary Determination, the application, and the information submitted by the applicant, exclusive of confidential records under Section 403.111, F.S. Interested persons may contact the Permitting Authority's project review engineer for additional information at the address and phone number listed above. Electronic copies of these documents are available by entering permit number 0990332-023-AC at the following web site: <http://www.dep.state.fl.us/air/emission/apds/default.asp>

Notice of Intent to Issue Air Permit: The Permitting Authority gives notice of its intent to issue an air permit to the applicant for the project described above. The applicant has provided reasonable assurance that operation of the proposed equipment will not adversely impact air quality and that the project will comply with all applicable provisions of Chapters 62-4, 62-

process is designed to formulate final agency action, the filing of a petition means that the Permitting Authority's final action may be different from the position taken by it in this Public Notice of Intent to Issue Air Permit. Persons whose substantial interests will be affected by any such final decision of the Permitting Authority on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

Mediation: Mediation is not available in this proceeding.
