West County Energy Center Unit 3
Palm Beach County, Florida

The Department of Environmental Protection (Department) announces an informational meeting in Royal Palm Beach, Palm Beach County, Florida to which all persons are invited.

The purpose of the meeting is to provide the public with a brief overview of an air construction permit application submitted by Florida Power and Light Company (FP&L) for a proposed 1,250 megawatts (MW) natural gas-fueled combined cycle unit (Unit 3) at the West County Energy Center in the Loxahatchee area of Palm Beach County. The Department's process and timeframes for reviewing the air construction permit application will also be identified.

The meeting will be held on Wednesday, February 13, 2008 from 6:00 p.m. until no later than 8:00 p.m. It will be held at the Cultural Center located at 151 Civic Center Way, Royal Palm Beach, Florida. Department representatives will also be available from 5:00 until 6:00 p.m. for informal discussions with members of the public.

In early 2007, the Department issued an air construction permit for Units 1 and 2 at the West County Energy Center. Those are already under construction.

The Department has set up the following web link for the West County Energy Center at: www.dep.state.fl.us/Air/permitting/construction/westcounty.htm

It includes the application, location, correspondence to-date, Department contacts, information about the previously approved construction at the site, and other useful links.
