RE: Comments of Draft/Proposed Air Permit Projects
Florida Power Corporation dba Progress Energy Florida, Inc.

Dear Ms. Vielhauer:

Please find below the comment on the Draft/Proposed Air Permit Projects regarding the inclusion of the provisions and requirements of the Clean Air Interstate Rule (CAIR) into the following Air Permit Projects and the associated facilities.

Project Permit No.	Site Facility Name	Project Permit No.	Site Facility Name
0010001-008-AV	U OF FL COGEN PLANT	1030013-005-AV	BAYBORO POWER PLANT

1030012-006-AV	HIGGINS PLANT		

Comment: On July 11, 2008, the D.C. Circuit issued an opinion vacating CAIR. Accordingly, Florida Power Corporation dba Progress Energy Florida, Inc. (PEF) requests that the CAIR Part for each of the facilities listed above with their respective project permit numbers not be submitted by the Florida Department of Environmental Protection (FDEP) to the EPA in proposed form, and not finalized at this time. Once the D.C. Circuit Court's ruling is final, PEF requests that this permit revision process be terminated, either by withdrawing the draft permit, returning our application or treating it as withdrawn. In the event the D.C. Circuit Court's ruling

Please keep a copy of these comments for each of the Progress Energy projects you have worked on. This is the comment that will allow us to take more than the rule required 30 days to send the Proposed CAIR permit to EPA.

Good afternoon Ms. Vielhauer.

Please find attached correspondence pertaining to DARM Air Permitting Projects specific to power generating plants owned/operated by Florida Power Corporation dba Progress Energy Florida, Inc. (PEF). These DARM permitting projects address the inclusion of the CAIR provisions and requirements into the Title V permits.

If you have any questions regarding the attached correspondence, please feel free to contact me. The original of this document has been forwarded to DARM via the U.S. Postal Service.
