BUREAU OF AIR REGULATION

Mr. Jeff Koener, PE  
PE Administrator  
Division of Air Resource Management  
Florida Department of Environmental Protection  
2600 Blair Stone Road MS 5500  
Tallahassee, Florida 32399-2400

Re: Florida Power Corporation dba Progress Energy Florida, Inc.  
P.L. Bartow Plant  
Title V Permit No. 1030011-009-AV  
Appendix I-1. List of Insignificant Emission Units and/or Activities

Dear Mr. Koerner:

In preparation for the upcoming hurricane season, Florida Power Corporation dba Progress Energy Florida, Inc. ("PEF") has added an emergency No. 2 fuel oil truck loading station at the P.L. Bartow Plant. This diesel fuel truck loading station would only be used in emergency situations (e.g. hurricanes) to supply diesel fuel for PEF's peaking units at other locations during periods when traditional fuel supply is disrupted.

The trucks will be loaded using the No. 2 fuel oil storage tank head pressure created by the sufficient liquid level in the fuel tank. The emissions from the proposed fuel oil loading activity were estimated using AP42 Section 5.2, "Transportation and Marketing of Petroleum Liquids." The estimated emissions were considerably less than the insignificant threshold of 5 tons per year or more of any regulated pollutant per Rule 62-213.430(6)(b)3.d., F.A.C.

Florida Power Corporation dba Progress Energy Florida, Inc.

P.L. Bartow Plant

Title V Permit No. 1030011-009-AV

Appendix I-1. List of Insignificant Emission Units and/or Activities

March 27, 2006

Page 2 of 2

Per the 12/15/2005 FDEP Title V Permitting Action Tree - item number 13, the permittee may postpone the incorporation of a new insignificant activity until the Title V permit is revised or renewed. Therefore, PEF is requesting that the "Emergency No. 2 Fuel Oil Truck Loading Station" be added to Appendix I-1. List of Insignificant Emission Units and/or Activities the next time the Title V permit is revised or renewed.

PEF expects to have this project in service by the beginning of the 2006 hurricane season. If you have any questions, please contact Ann Quillian (727) 820-5962. Thank you for your consideration.

*I, the undersigned, am the responsible official as defined in Chapter 62-210.200, F.A.C., of the Title V source for which this document is being submitted. I hereby certify, based on the information and belief formed after reasonable inquiry, that the statements made and data contained in this document are true, accurate, and complete.*

Sincerely,

Harry Sideris  
Plant Manager

Re: Title V Air Operation Permit Revision Application  
**Bartow Plant**  
Facility ID: 1030011

Dear Ms. Brickhouse:

Thank you for your submission of May 2, 2003, for a Title V Air Operation Permit Revision for the referenced facility. The Department and the Air Quality Division of the Pinellas County Department of Environmental Management have reviewed your request and has determined the application to be incomplete, for the following reasons:

1. The Title V permit to be revised is still in the name of Florida Power Corporation. If the permittee name needs to be changed to Progress Energy Florida, please include the change of owner in your request.
2. The O&M Plan does not seem to have the following information contained in the plan:
  - Secondary voltage
  - Rapper frequency, plate
  - Rapper duration, plate,
  - Static pressure
  - Pressure drop

Please add this information to the proposed plan.

*"More Protection, Less Process"*

*Printed on recycled paper.*

3. There are several parameters in the O&M Plan listed as only being alarmed, but not recorded:
- Transformer/rectifier low voltage
  - Transformer/rectifier over current
  - Transformer/rectifier high oil temperature

Specify at what level these parameters are alarmed (acceptable parameters).

4. Pinellas County Code 58-128(a)(5) requires a record log which will indicate, at a minimum:
- When maintenance and observations were performed
  - What maintenance and observations were performed
  - Who performed said maintenance and observations
  - Acceptable parameter ranges for each operational check

Please update the O&M Plan to include these items.

When the Department has received all of the requested information, we will resume processing your application for permit revision. Until then, if you have any questions or require further assistance, please contact Edward J. Svec at 850/921-8985.

Sincerely,
