FROM: Bruce Mitchell 

DATE: December 18, 1996

SUBJECT: Completeness Review of an Application Package for a Title V Operation Permit
Florida Power Corporation, Higgins: 1030012-001-AV

The Title V operating permit application package for the referenced facility is being processed in Tallahassee. The application was previously forwarded to your office for your files and future reference. Please have someone review the package for completeness and respond in writing by January 20, 1997, if you have any comments. Otherwise, no response is required. If there are any questions, please call the project engineer, Charles Logan, at 904/488-1344 or SC:278-1344. It is very important to verify the compliance statement regarding the facility. Since we do not have a readily effective means of determining compliance at the time the application was submitted, please advise if you know of any emissions unit(s) that were not in compliance at that time and provide supporting information. Also, do not write on the documents.

If there are any questions regarding this request, please call me or Scott Sheplak at the above number(s).
