Re: Compliance Review of Title V Air Operation Permit Renewal Application  
Project Number 1030012-004-AV  
Progress Energy Florida-Higgins Power Plant

On June 21, 2007, our office received the subject application. The applicant indicated they would be hand delivering a copy to your office. Please review the document and send us your written comments within 30 days of receipt of this package.

Each applicant for a Title V permit is required to sign a certification of compliance. Each applicant is also required to report the compliance status of each emissions unit. Any non-compliance at the time of application and/or during the processing of the application requires a compliance plan to be submitted. The applicant in fact submitted a compliance plan.

Please review this facility's status with your compliance and enforcement staff. Please notify me via email or hard-copy **either**:

- a. there are no outstanding compliance or enforcement actions with this facility **or**
- b. the following outstanding compliance and enforcement issues exist (please list).

Thank you for your cooperation.
