Comment: On July 11, 2008, the D.C. Circuit issued an opinion vacating CAIR. Accordingly, Florida Power Corporation dba Progress Energy Florida, Inc. (PEF) requests that the CAIR Part for each of the facilities listed above with their respective project permit numbers not be submitted by the Florida Department of Environmental Protection (FDEP) to the EPA in proposed form, and not finalized at this time. Once the D.C. Circuit Court's ruling is final, PEF requests that this permit revision process be terminated, either by withdrawing the draft permit, returning our application or treating it as withdrawn. In the event the D.C. Circuit Court's ruling

is reheard or overturned on appeal, PEF and the FDEP can discuss how best to continue the permit-revision process, and whether the Statement of Basis or Permit requires additional language.
