Re: Pinellas County Resource Recovery Facility;
PSD-FL-011; PSD-FL-098; PA 78-11 and PA 83-18

Dear Mr. Oven:

Enclosed for your file is a copy of the notice that was published by Pinellas County concerning DEP's intent to grant the County's request to amend the PSD permit and modify the conditions of certification for the Pinellas County resource recovery facility. This notice was published on May 7, 1996 in the St. Petersburg Times. Please call me if you have any questions.

Sincerely,

David S. Dee

**STATE OF FLORIDA
DEPARTMENT OF
ENVIRONMENTAL PROTECTION**

**NOTICE OF INTENT TO ISSUE
PERMIT AMENDMENT
AND MODIFICATION OF POWER
PLANT CERTIFICATION**

The Florida Department of Environmental Protection (Department) gives notice of its intent to issue a permit amendment to Pinellas County, Florida for the Pinellas County Resource Recovery Facility (Facility), which is located at 3095 114th Avenue North, in Pinellas County, Florida. The Department also gives notice of its intent to grant the County's request for modification of the conditions of certification that were previously issued for the Facility pursuant to the Florida Electrical Power Plant Siting Act, Section 403.501 et seq., Florida Statutes (F.S.). The Facility consists of three mass burn units, which process municipal solid waste, and related equipment and systems. The permit amendment and the modification to the conditions of certification would authorize the County to construct and operate certain improvements to the Facility that will reduce the Facility's overall environmental impacts.

Specifically, Pinellas County has requested an amendment to its permit (PSD-FL-011; PSD-F1-098) and a modification of the conditions of certification ((PA 78-11 and PA 83-18) to allow: the installation of new air pollution control equipment, including an acid gas scrubber system, a fabric filter baghouse, a mercury control system, and an SNCR system for the control of oxides of nitrogen; installation of an auxiliary boiler; a decrease in the size of the certified site to exclude landfilling activities; modification of ash handling and conditioning systems; operation of water treatment and water recycling systems; and related changes that would allow the continued operation of the Facility in accordance with state and federal regulations. The proposed improvements to the Facility will not increase the Facility's solid waste processing capacity.

The County's request for a permit amendment and modification of the conditions of certification are available for public inspection during normal business hours, 8 AM to 5 P.M., Monday through Friday, except holidays, at the Department of Environmental Protection, Bureau of Air Regulation, 111 South Magnolia Drive, Suite 4, Tallahassee, Florida 32301, and the Department of Environmental Protection, Southwest District Office, 6407 Laurel Fair Circle, Tampa, Florida 33610.

A person who is not already a party to the certification proceeding and whose substantial interest will be affected by the Department's proposed action may object to the proposed modification pursuant to Section 403.516, F.S., and petition for an administrative proceeding (hearing) in accordance with Section 120.57, F.S. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, MC 35, Tallahassee, Florida 32399-3000 within 30 days from the date of publication of this notice. Petitioners shall mail a copy of the petition to the applicant's attorney, David Dee, c/o Landers & Parsons, 310 W. College Avenue, P.O. Box 271, Tallahassee, Florida 32302. Failure to file a petition within this time period shall constitute a waiver of any right such person may have to request an administrative determination (hearing) under Section 120.57, F.S.

The petition shall contain the following information: (a) The name, address and telephone number of each petitioner, the applicant's name and address, the Department Permit File Number and the county in which the project is proposed; (b) A statement of how and when each petitioner received notice of the Department's action or proposed action; (c) A statement of how each petitioner's substantial interests are affected by the Department's action or proposed action; (d) A statement of the material facts disputed by petitioner, if any; (e) A statement of facts which petitioner contends warrant reversal or modification of the Department's action or proposed action; (f) A statement of which rules or statutes petitioner contends require reversal or modification of the Department's action or proposed action; and (g) A statement of the relief sought by petitioner, stating precisely the action petitioner wants the Department to take with respect to the Department's action or proposed action.

If a petition is filed, the administrative hearing process is designed to formulate agency action. Accordingly, the Department's final action may be different from the position taken by it in this Notice.
