BUREAU OF AIR REGULATION

May 6, 2002

Ms. Cindy Phillips, P.E.
FDEP Bureau of Air Regulation
MS 5505
2600 Blair Stone Road
Tallahassee, FL 32399-2400

Mr. Doug Neeley
Air, Pesticides, and Toxics Management Division
USEPA Region IV
61 Forsyth Street, SW
Atlanta, GA 30303-8960

To Whom It May Concern:

Pinellas County, Florida is providing the following notification in accordance with Maximum Achievable Control Technology (MACT) Section 112(j) requirements published in the April 5, 2002 Federal Register (66 FR 16582). Pinellas County owns a large municipal waste combustor (MWC) regulated under Section 129 of the 1990 Clean Air Act Amendments (CAAA). Section 129 sources are specifically exempted from regulation under Section 112(d) by the CAAA (see Section 129(h)(2) as noted at Q3 in www.epa.gov/ttn/atw/112g/qanda12g.html). However, the Pinellas County Resource Recovery Facility (PCRRF) is a major source with emissions of hydrogen chloride (HCl), a Section 112 hazardous air pollutant (HAP), greater than 10 tons per year and thereby triggers Section 112(j) notification requirements. Therefore, the following information is provided to FDEP and USEPA based on the USEPA 112(j) website and the Department's April 5th, 2002 letter.

(1) *Name, physical location, and description of the major facility.*

Pinellas County Resource Recovery Facility
3001 110th Avenue North, St. Petersburg, FL 33716

PSD-FL-011 and PSD-FL-098 with modifications A and B
Title V Permit No. 1030117-002-AV

The various activities at this Pinellas County complex have the same two-digit SIC code and are therefore regulated under the same Title V permit. The physical facilities consist of three (3) MWCs, each with a nominal rating of 1000 tons of MSW per day, a municipal solid waste landfill (Bridgeway Acres II landfill), and miscellaneous facilities for various county functions such as mosquito control.

- (2.) *Source categories subject to 112(j) and*
- (3.) *Emission Units belong to source category.*

Municipal Solid Waste Landfill – Bridgeway Acres II landfill,
Title V Emission Unit ID No. 9 and
Reciprocating Internal Combustion Engines (RICE) – three (3) diesel-fired engines, three (3) diesel-fired generators, and one (1) gasoline-fired generator (all less than 500 hp each, some RICEs may be portable),
Title V Emission Unit ID Nos. 10, 11, and 12, respectively.

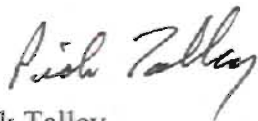

- (4) *Sources for which a Section 112(g) MACT determination has been made*

None

Attached please find the Responsible Official Certification as copied from the 112(j) form at the USEPA website. If you have any questions or need any additional information, please feel free to contact either Donald F. Elias at 732-968-9600 or Ronald D. Larson, P.E. at 813-282-2300.

Very truly yours,

PINELLAS COUNTY UTILITIES

Pick Talley
Director

Re: 112(j) Notification Information Submittal

Dear Mr. Talley:

Thank you for submitting the referenced information in your letter dated May 6, 2002. Your information submittal appears to meet our current 112(j) requirements.

Please be aware that, although your Responsible Official Certification refers to this information submittal as an "application," the Department does not recognize your submittal as a state permit application and has no plans to process it as such.

No further 112(j) information is needed from you at this time.

If you have any questions, please call me at 850/921-9534.

Sincerely,

Cindy L. Phillips, P.E.
Bureau of Air Regulation
