Re: Final National Emission Standards for Hazardous Air Pollutants (NESHAP) -
Paper and Other Web Coating

Dear Mr. Freeman:

You indicated, in your 112(j) notification dated May 10th, that your facility would be subject to the NESHAP (40 CFR 63 Subpart JJJJ) for Paper and Other Web Coating. You may be interested in knowing that on December 4, 2002 the USEPA published the final NESHAP for Paper and Other Web Coating in the Federal Register.

If you are interested in reading the final standards, the NESHAP may be accessed through the USEPA website at <http://www.epa.gov/ttn/atw/powc/powcpg.html>.

If you do not have access to the Internet, and would like to receive a paper copy of the final standards in the mail, please contact Mr. Bobby Bull at (850) 921-9585 or Robert.Bull@dep.state.fl.us.

The compliance date for a Subpart JJJJ "existing affected source" is December 5, 2005. "Existing affected source" means any affected source the construction or reconstruction of which is commenced on or before September 13, 2000, and has not undergone reconstruction as defined in 40 CFR 63.2.

Since 40 CFR 63 Subpart FFFF, Miscellaneous Organic Chemical Production and Processes, has now been promulgated, you will not be required to submit a 112(j) MACT Title V revision application for this source.

If you have any questions concerning this information, please contact me at (850)921-9534 or Cindy.Phillips@dep.state.fl.us.

Sincerely,

Cindy L. Phillips, P.E.
