RECEIVED

MAY 03 2002

BUREAU OF AIR REGULATION

To Whom It May Concern:

In response to your letter dated April 5, 2002 requesting notification information if we are a "major source of hazardous air pollutants" and "in an affected industry type source category".

As a coater of miscellaneous metal parts and products, we do fit into an affected industry type. However, according to our records on file here and within the local EPA office, we are not a "major" source of hazardous air pollutants. As such, we feel this letter does not apply specifically to Florida Metal Stampings and does not warrant any further action on our behalf.

If you should find data in your records that would dispute our current position, please let me know and we will comply with whatever additional recordings required through the 112(j) notifications.

Thank you for your consideration in this matter.

Regards,

A handwritten signature in black ink, appearing to read 'Brent Finke', written over a horizontal line.

Brent Finke – G.M.
Florida Metal Stampings

A 3D wireframe box is centered on the page. The box is composed of dashed lines forming a rectangular prism. In the center of the front face of the box, there is a smaller rectangular box with a solid border. Inside this smaller box, the text "THINK OUTSIDE OF THE BOX" is written in a bold, uppercase, monospace font.

THINK OUTSIDE OF THE BOX

To the Title V Air Permitting Contact Person:

Our records indicate that your facility may be a major source of hazardous air pollutants and may be in the affected **Miscellaneous Metal Parts (Surface Coating)** source category. Therefore, **you must notify us by May 15, 2002 if you think** your facility is a major source of hazardous air pollutants and is in an affected industry type source category. A list of affected industry type source categories is printed on the reverse side of this letter.

The Clean Air Act (CAA), as amended in 1990, requires that the USEPA publish federal regulations by May 15, 2002 to determine the maximum achievable control technology (MACT) to reduce emissions of hazardous air pollutants (HAPs) from certain industry type source categories at facilities that emit major amounts of hazardous air pollutants. A major amount of hazardous air pollutants is considered to be 10 tons per year or more of a single hazardous air pollutant, or 25 tons per year or more of a combination of hazardous air pollutants. However, the USEPA is not likely to publish the federal MACT regulations until May 15, 2004 instead of May 15, 2002, the MACT "hammer" date. As a result, Section 112(j) of the Clean Air Act must be initiated.

If you think your facility is a major source of hazardous air pollutants and is in an affected industry type source category, you must submit to our office and the USEPA by **May 15, 2002** the following **112(j) notification information**, which may be in letter format:

- (1) The name, address (physical location), and brief description of the major source (facility);
- (2) An identification of the relevant industry type source category(ies) [See list on reverse side of this letter.];
- (3) A list of the emission units belonging to the relevant industry type source category(ies); and
- (4) An identification of any affected sources for which a section 112(g) MACT determination has been made.

This submittal must be signed by the Title V permit Responsible Official. The mailing addresses for the 112(j) contacts at our office and the USEPA are:

Ms. Cindy Phillips, P.E.
FDEP Bureau of Air Regulation
MS 5505
2600 Blair Stone Road
Tallahassee, FL 32399-2400

Mr. Doug Neeley
Air, Pesticides, and Toxics Management Division
USEPA Region IV
61 Forsyth Street, SW
Atlanta, GA 30303-8960

This notification requirement does not affect the processing of any Title V permits that are undergoing renewal now or in the near future. Any newly applicable NESHAP requirements that may be promulgated by May 2004 will be incorporated into your Title V permit through the procedures specified in 40 CFR 70.7 (f), *Reopening for cause*. As before, any new construction or reconstruction that, by itself, will emit a major amount of hazardous air pollutants, will likely require a 112(g) Case-by-case MACT determination during the construction permitting process.

If you have any questions, please contact Ms. Cindy Phillips at 850-921-9534 or Cindy.Phillips@dep.state.fl.us.

Sincerely,

Scott M. Sheplak, P.E. Administrator
Title V Section, Bureau of Air Regulation

"More Protection, Less Process"

AFFECTED INDUSTRY TYPE SOURCE CATEGORIES

NESHAP NOT PROPOSED YET

- **Auto & Light Duty (Surface Coating)**
- **Brick & Structural Clay Products Mfg.**
- **Combustion Turbines**
- **Fabric Printing, Coating, and Dyeing**
- **Industrial, Commercial and Institutional Boilers
and Indirect-fired Process Heaters**
- **Iron Foundries**
- **Lime Manufacturing**
- **Mercury Cell Chlor-Alkali Plants**
- **Metal Can (Surface Coating)**
- **Metal Furniture (Surface Coating)**
- **Misc. Metal Parts and Products (Surface Coating)**
- **Misc. Organic Chemical Production and Processes (MON)**
- **Organic Liquids Distribution (non-gasoline)**
- **Paint Stripping Operations**
- **Plastic Parts (Surface Coating)**
- **Plywood and Composite Wood Products**
- **Primary Magnesium Refining**
- **Reciprocating Internal Combustion Engines (RICE)**
- **Refractory Products Manufacturing**
- **Rocket Testing Facilities & Engine Test Cells/Standards**
- **Semiconductor Production**
- **Site Remediation**
- **Taconite Iron Ore Processing**
- **Wood Building Products (Surface Coating)**

NESHAP PROPOSED BUT NOT FINAL YET

- **Asphalt Roofing & Processing**
- **Cellulose Ethers Production Manufacturing**
- **Coke Oven: Pushing, Quenching, & Battery Stacks**
- **Flexible Polyurethane Foam Fabrication Operation**
- **Friction Materials Manufacturing**
- **Generic MACT**
- **Hydrochloric Acid Production**
- **Integrated Iron & Steel**
- **Large Appliance (Surface Coating)**
- **Metal Coil (Surface Coating) Industry**
- **Miscellaneous Viscose Processes**
- **Municipal Solid Waste Landfills**
- **Paper & Other Web (Surface Coating)**
- **Petroleum Refineries**
- **Polyvinyl Chloride and Copolymers Production**
- **Primary Copper**
- **Reinforced Plastics Products Manufacturing**
- **Tire Manufacturing**
- **Wet-Formed Fiberglass Mat Production**
