Tony,

This e-mail is merely a confirmation e-mail that contains a link to our most recent draft air permit from the State that will update the SO2 monitoring provisions and remove the ability to fire refuse derived fuel (garbage) in Unit 3. All the State requires you to do is to "reply" to the e-mail saying you received it. Environmental Permitting has already downloaded the draft permit and I will go over it with Production at the next Production Task Force meeting next week. Thank you.
