**RE: Lakeland Electric – C.D. McIntosh, Jr. Power Plant (ID No. 1050004)
Withdrawal of Request for Extension of Time for Compliance with MATS**

Dear Jeff:

Considering that the Department has issued the final air construction permit 1050004-038-AC on January 9, 2015 for upgrades to the existing wet flue gas desulfurization (FGD) system for McIntosh Unit 3, Lakeland Electric would like to withdraw its request for extension of time for compliance with MATS that was submitted to the Department on December 17, 2014. As a reminder, Lakeland Electric submitted the extension request since at that time it appeared that the final permit 1050004-038-AC would not be issued in time (due to Sierra Club's comments and public hearing request) for Lakeland Electric to conduct the necessary work on Unit 3 FGD prior to the MATS compliance date.

Lakeland Electric appreciates your efforts in the issuance of this air construction permit. If you have any questions, please do not hesitate to contact me or Nedin Bahtic of my staff at nedin.bahtic@lakelandelectric.com or (863) 834-8180.

Sincerely,

A handwritten signature in black ink, appearing to read 'Farzie Shelton', is written over a horizontal line.

Farzie Shelton
