Re Facility ID No. 1050019, Cargill Juice-Frostproof

Good morning,

I am completing the calendar year 2008 Title V annual emissions fee review for the subject facility. The consultant on behalf of the company sent a request to surrender the permit (copy attached). The subject facility escaped Title V source applicability on 02/04/2008 with the initial notice.

The Title V air operation permit needs to be expired. A format to expire a Title V air operation permit is also attached. Please send me a copy of the DEP letter expiring the current valid permit, Permit No. 1050019-012-AV, which expires on June 28, 2011, so that I can close this one out.

Thank you. If you should have any questions, please contact me.

Sincerely,

Scott M. Sheplak
