Subject: RE: Adjustment made -- OGC List

Vickie,

I spoke with Pradeep yesterday regarding South Pierce. They will not ask for an extension for the AC project 1050055-015-AC which expires on 9/23. From the conversation, it sounds like they will just let the extension expire, so I don't anticipate a request to withdraw the extension. I have the final permit for project 015 ready to go for 9/26.

Also, USAC will not be asking for anymore extensions. However, they do want their permit, and I'll be preparing the package.

Thanks

Subject: extensions and petitions

Good morning.

I'm checking in on a few of our pending cases.

Florida Rock, OGC 05-1570; 0010087-014AC: OGC received a late amended petition. It sounds like there was a mix-up in mailing the denial and it had to be remailed. In any event, it doesn't appear to me to be timely. It is my understanding that the timely and legally sufficient issues are an OGC call. Doug- have you made any decisions on this one?

Mozaic Green Bay, OGC 05-1037, 1050053-037AV: Has the order dismissing been issued? We sent this to OGC 8/23 and haven't received a copy of the denial/dismissal.

Mozaic Green Bay, 1050053-033AC [I think]: There was a petition for hearing filed last spring [spring 2004, that is] on an old John Reynolds PSD project [Doug- remember, they flew their attorneys in from....Wisconsin or Minnesota for a settlement meeting way back...]. The company recently filed a withdrawal of that petition and will be submitting a new, revised application. Do you all need to do anything before we close the OGC case?

Smurfit Stone, OGC 05-2044-46, 0890003-008, 009, and 010AC: Have these orders granting extensions of time been granted? They were sent to OGC 8/30.

US Agrichem, OGC 05-0420, 1050050-014AV: we never received a copy of the order to grant that we are told was issued 8/11. We requested a copy on 8/18 and 8/23 and still have not received one.

I have a few other, more complicated cases that we have questions on as well but I'll send those via a separate email.

Thanks!

Trina

**ORDER GRANTING REQUEST FOR EXTENSION
OF TIME TO FILE PETITION FOR HEARING**

This cause has come before the Florida Department of Environmental Protection upon receipt of a request made by Petitioner US Agri-Chemical Corporation, to grant an extension of time to file a petition for an administrative hearing to allow time to provide certain information to the FDEP on several specific permit conditions for its facility in Polk County, Florida. Because the request shows good cause for the extension of time,

IT IS ORDERED:

The request for an extension of time to file a petition for administrative proceeding is granted. Petitioner shall have until **September 23, 2005**, to file a petition in this matter. Filing shall be complete on receipt by the Office of General Counsel, Department of Environmental Protection, 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000.

DONE AND ORDERED on this _____ day of August, 2005, in Tallahassee, Florida.

Mr. Bobby Bull
Florida Department of
Environmental Protection
2600 Blair Stone Road
Tallahassee, FL 32399-2400

Subject: Comments on Draft Construction and Title V Permits
US Agri-Chemicals Corporation - Bartow Facility
DEP File Nos. 1050050-015-AC and 1050050-014-AV

Dear Mr. Bull:

We have reviewed the above referenced draft permits, issued for USAC's Bartow facility, and have the following comments for your consideration:

Comments on Draft Construction Permit

1. Page 11, Specific Condition B.5. - It is requested that the time frame for submitting the requested information on oil be made consistent with the time frame allowed for submittal of the compliance test report (within 45 days of completion of test).
2. Page 11, Specific Condition B.5. - Regarding the oil application, please update the following:
 - a. The oil application rate is determined as a daily average.
 - b. The oil currently used is Dustrol 3015.
 - c. The minimum oiling rate at which compliance has been demonstrated is 0.2 gallons per ton of product.
3. Page 13, Item 1 - The HF emissions limitation should be expressed as "less than 10 tons per year".
4. Page 13, Item 2 - The total HAP emissions limitation should be expressed as "less than 25 tons per year".

Mr. Bobby Bull
Florida Department of
Environmental Protection

April 15, 2005

- 5. Page 13, Item 3 - This condition is satisfied by complying with Specific Condition B.7. Additional fluoride emissions calculations, based on dependent variables, are not meaningful.
- 6. Page 14, Item (ii) - It should be noted that the AFPC Method IX, Method 3C, represents the appropriate test method for determining P2O5 content. It is our understanding that the AOAC method referenced in the draft permit is outdated.

Comments on Draft Title V Permit

- 7. Page 6 of 7, Item 1 - The HF emissions limitation should be expressed as "less than 10 tons per year".
- 8. Page 6 of 7, Item 1 - The total HAP emissions limitation should be expressed as "less than 25 tons per year".
- 9. Page A2, Specific Condition A.6. - It is not clear what the Department expects as "all reasonable precautions" to minimize fugitive fluoride emissions.
- 10. Page A3, Specific Condition A.12. - It should be noted that the AFPC Method IX, Method 3C, represents the appropriate test method for determining P2O5 content. It is our understanding that the AOAC method referenced in the draft permit is outdated.
- 11. Page A4, Specific Condition A.15. - This condition should be deleted as it is replaced by the new CAM requirements.
- 12. Page A4, Specific Condition A.19. - It should be noted that the AFPC Method IX, Method 3C, represents the appropriate test method for determining P2O5 content. It is our understanding that the AOAC method referenced in the draft permit is outdated.
- 13. Page A5, Specific Condition A.21. - This condition is satisfied by complying with Specific Condition A.3. Additional fluoride emissions calculations, based on dependent variables, are not meaningful.
- 14. Page A6, Specific Condition A.26. - USAC proposes to have back-up monitoring of other pertinent parameters to provide reasonable assurance of compliance for the periods when the required monitoring devices are out-of-service.
- 15. Page A6, Specific Condition A.27 - The averaging time should reflect a daily period.

Mr. Bobby Buli
Florida Department of
Environmental Protection

April 15, 2005

- 16. Page B1, Specific Condition B.5. - Please delete EPA Method 5, as it is not applicable. It is requested that EPA Method 22 be added as an alternative method to EPA Method 9.
- 17. Page B2, Specific Condition B.7. - It is requested that the time frame for submitting the requested information on oil be made consistent with the time frame allowed for submission of the compliance test report (within 45 days of completion of test).
- 18. Page B2, Specific Condition B.7. - Regarding the oil application, please update the following:
 - a. The oil application rate is determined as a daily average.
 - b. The oil currently used is Dustrol 3015.
 - c. The minimum oiling rate at which compliance has been demonstrated is 0.2 gallons per ton of product.

Comments on CAM Monitoring Approach

- 19. It is requested that the required data collection and excursion determinations be based on a daily average, consistent with requirements imposed by MACT for such plants located at facilities that are major HAP emitters. It would be reasonable to expect that minor sources of HAPs would be subject to less stringent data averaging periods than that for the major sources of HAPs.
- 20. The following need to be updated:
 - a. RGCV scrubber liquid flow rate range should reflect 1463 - 2884 gpm.
 - b. Dryer scrubber pressure drop range should reflect 2.4 - 13.1 in. H2O.
 - c. Dryer scrubber liquid flow rate range should reflect 865 - 1336 gpm.

We look forward to a discussion with FDEP staff regarding these issues of concern and an amicable resolution to this matter.

Enclosed is a request for an additional extension of time to allow FDEP to review and consider the comments provided herein.

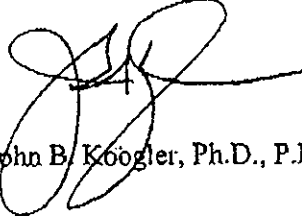

Mr. Bobby Bull
Florida Department of
Environmental Protection

**ORDER GRANTING REQUEST FOR EXTENSION
OF TIME TO FILE PETITION FOR HEARING**

This cause has come before the Florida Department of Environmental Protection upon receipt of a request made by Petitioner US Agri-Chemical Corporation, to grant an extension of time to file a petition for an administrative hearing to allow time to provide certain information to the FDEP on several specific permit conditions for its facility in Polk County, Florida. Because the request shows good cause for the extension of time,

IT IS ORDERED:

The request for an extension of time to file a petition for administrative proceeding is granted. Petitioner shall have until **April 15, 2005**, to file a petition in this matter. Filing shall be complete on receipt by the Office of General Counsel, Department of Environmental Protection, 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000.

DONE AND ORDERED on this _____ day of March, 2005, in Tallahassee, Florida.

FDEP File Nos. 1050050-014-AV,
1050050-015-AC
Polk County - AP

MOTION FOR EXTENSION OF TIME

The Applicant, US Agri-Chemicals Corporation, by and through its undersigned Engineer of Record and pursuant to Rule 23-106, FAC, requests the Secretary of FDEP to grant a 60-day extension of time in which to file a petition. This will allow submittal of additional information to FDEP on the permit application review and allow time to resolve issues of concern.

Dated the 4th day of March, 2005, in Gainesville, Alachua County, Florida.
